**GREATEST LUMBER CUT.** Last Year a Record-Breaker in Saw-Milling—Rapid Depletion of Oak and White Pine.

More lumber was cut in the United States last year than in any other year in its history. The enormous amount of 37,550,738 board feet was produced, and the mill value of this was \$621,511,338. In addition, there were produced 11,858,269,000 shingles, valued at \$24,155,555, and 3,812,807,000 lath, valued at \$11,499,570. On the whole, it is safe to say that the present annual lumber cut of the United States approximates 40 billion feet, and that the total mill value of the lumber, lath and shingles each year produced is not less than \$700,000,000. These figures give some idea of how vast is the lumber industry and how great is the demand for its products.

A glance at the kinds of lumber produced show very clearly the passing of soft pine and oak, one of the greatest white woods and the other the greatest hardwood which the forest has ever grown. Since 1859 the cut of white pine has fallen off more than 40 per cent, while that of white oak has fallen off more than 36 per cent. Today yellow pine leads all other woods in amount cut, while Douglas fir—and this will be a surprise to many of Douglas fir has increased 15 per cent. Louisiana is the foremost yellow pine State, with Texas, Mississippi and Arkansas following in order. Washington produces by far the greatest amount of Douglas fir.

A comparison of the lumber-producing States shows that since 1859 there have been many changes in their relative rank. Washington, which in 1859 stood sixth, now leads, while Wisconsin, which eight years ago led all others, is now third. In the same period Oregon, Louisiana, Mississippi, Idaho, and California made great strides as lumber-producing States, though, on the other hand, the amount produced in Michigan, Wisconsin, Minnesota, Georgia, Kentucky, Tennessee, Missouri, Indiana and Ohio fell off anywhere from 29 to 54 per cent.

The highest-priced native woods are walnut, hickory, and ash, and the cheapest are larch and white fir. From the fact, however, that since 1859 the average increase in the price of lumber has been 49 per cent, it will not be long before cheap woods are few and far between.

**Many Sleepless Nights.** Owing to a Persistent Cough. Relief Found at Last.

"For several winters past my wife has been troubled with a most persistent and disagreeable cough, which invariably extended over a period of several weeks and caused her many sleepless nights," writes Will J. Hayner, editor of the Burley, Colo. Bulletin. "Various remedies were tried each year, with no beneficial results. In November last the cough again put in an appearance and my wife, acting on the suggestion of a friend, purchased a bottle of Chamberlain's Cough Remedy. The result was indeed marvelous. After three doses the cough entirely disappeared and has not manifested itself since." The remedy is for sale by Huntley Bros., Oregon City and Molalla.
