The bowling alley in the Cole new building on Seventh and Main street, has been opened, and the proprietors, Rakel & Caulfield, are meeting with success. The bowling alley room is nicely arranged; and is one of the finest alleys Oregon City has had.

Mr. and Mrs. Ira Wishart and son, Russell, have arrived from Baker City, and are visiting Mr. Wishart's parents, Mr. and Mrs. George Wishart, on Seventh street. Mr. Wishart has been in the drug business at Baker City, but owing to ill health has decided to make a change in climate, and will probably reside in Portland. They will leave the latter part of this week for Corvallis, where they will spend a week with Mrs. Wishart's mother, Mrs. Russell. Mr. and Mrs. Wishart formerly resided in Oregon City, where they have many friends.

Mr. G. F. Watson, of Pennsylvania, who, with Mrs. Watson and daughter, Mrs. Felt, have been visiting with the Editor of the Courier, W. A. Shewman, Jr., and his family at their home in Portland, was in our city looking over some real estate, Tuesday, with a view of purchasing some property here. Mr. Watson has just returned from the Redwood country with Mr. Shewman lumberman two weeks were spent in slogging up some of the big redwood trees. We hope Mr. Watson will be so pleased with our city that he may some time in the future care to reside here.

L. Hartke, who is residing at Bolton, where he is running a dairy, has leased the Ladd farm, formerly the Hedges place at Mount Pleasant, and will conduct a dairy on a much larger scale than he is at present. Mr. Hartke already has nine cows, and upon his removal to Mount Pleasant he will buy the ten cows that are on the place that belong to the present tenant. The place consists of 110 acres, and the farm in the country is better adapted for a dairy than any other in the county. Mr. Hartke's improvement in this enterprise he has built up such a flattering business that he was forced to move to a larger place.

University of Oregon at Eugene. The annual report of the president of the University of Oregon for 1927, with the reports of the steward and registrar, have just been issued. The president's report shows that the University has made a gain of 23 per cent this year over that of last. The funds have fallen short \$15,000 of meeting the current expenses of the year, and to avoid a deficiency the faculty served three months without pay. The work of the summer school and the correspondence school is discussed, and a recommendation is made for a bureau of research in economics, politics, and sociology. An outline of the plans of the school of education for principals is given, and attention is

Did you ever stop to compare the COURIER with other County papers? Consider a minute. There are 12 pages—each page containing 7 columns. This makes a column more on each page than you usually get in a county weekly or 12 columns, which is equal to two extra pages when comparing with a six column paper. Then the extra length gives half a page extra. So, summing up, the County Weekly as a rule gives you 8 pages each containing 6 columns. To get the comparative size of the COURIER you must add 6 1/2 pages—which is lacking only a page and a half of being just double the size of the ordinary 8-page weekly.

Only the loyal support that the COURIER has enjoyed throughout the County enables it to furnish such a large paper. If you are a reader of the paper call your neighbor's attention to the fact that Clackamas County has never before had so much in the way of a County Paper.

Remember the MAGAZINE SECTION—THE COMIC SUPPLEMENT. This alone is worth the price of the COURIER.

Send for sample copies of the COURIER—give us the name of your friend who should read the COURIER, and we will send samples.

Mrs. Mary S. Howard, State secretary of the Oregon State Grange, who resides at Mullno, passed through Oregon City Monday evening on her way to Hood River, where she goes on business connected with grange work. Mrs. Howard reports that the granges throughout the State are in a prosperous condition, and that during the month of January she has handled over \$1,000 in her work, and she is very much encouraged in the outlook for the grange.

WILLIE GETS A JOB

Well, I've hired out to run the 7th St. grocery. I start in as Office Boy. I will help unpack the new goods, fill the shelves and boxes filled up, keep out, clean the windows, run errands, deliver packages in the neighborhood and write ads. I guess I'll earn five per all right, all right.

Goodness, I think I'm going to like my job. I like the looks of the people who work in the store; the boss looks good and I've been out of a job so long. I'm actually itching for a spell of work. The busy season is on us, and I see by the way the clerks are jumping around that I won't have any excuse for growing fat. Only forty minutes for lunch. Well, they're calling me already.

The Jumping Off Place. "Consumption had me in its grasp; and I had almost reached the jumping off place when I was advised to try Dr. King's New Discovery, and I want to say right now, it saved my life. Improvement began with the first bottle, and after taking one dozen bottles I was a well and happy man again," says George Moore, of Grimesland, N. C. As a remedy for coughs and colds and healer of weak, sore lungs and for preventing pneumonia New Discovery is supreme. 50c and \$1.00 at Howell & Jones', druggists. Trial bottle free.

Often The Kidneys Are Weakened by Over-Work.

Unhealthy Kidneys Make Impure Blood. It used to be considered that only urinary and bladder troubles were to be traced to the kidneys, but now modern science proves that nearly all diseases have their beginning in the disorder of these most important organs. The kidneys filter and purify the blood—that is their work. Therefore, when your kidneys are weak or out of order, you can understand how quickly your entire body is affected and how every organ seems to fail to do its duty.

If you are sick or "feel badly," begin taking the great kidney remedy, Dr. Kilmer's Swamp-Root, because as soon as your kidneys are well they will help all the other organs to health. A trial will convince anyone. If you are sick you can make no mistake by first doctoring your kidneys. The mild and extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney remedy, is soon realized. It stands the highest for its wonderful cures of the most distressing cases, and is sold on its merits by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle of Swamp-Root, by mail free, also a pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing to Dr. Kilmer & Co., Birmingham, N. Y. Don't make any mistake, but remember the name, Swamp-Root. Dr. Kilmer's Swamp-Root, and the address, Birmingham, N. Y., on your next letter.

DRUGGISTS HEAR MUCH PRAISE FOR THIS MIXTURE.

RECIPE IS VERY SIMPLE

Lots of Men and Women Have Had the Simple Home-Made Mixture Prepared, Says Druggist.

Some remarkable stories are being told about town and among the country people coming in of this simple home-made mixture curing Rheumatism and Kidney trouble. Here is the recipe and directions for taking: Mix by shaking well in a bottle one-half ounce Fluid Extract Dandelion, one ounce Compound Kargon, three ounces Compound Syrup Sarsaparilla. Take as a dose one teaspoonful after meals and at bedtime.

No change need be made in your usual diet, but drink plenty of good water. This mixture, writes one authority in a leading Philadelphia newspaper, has a peculiar tonic effect upon the kidneys; cleansing the clogged-up pores of the eliminative tissues, forcing the blood to the ureic acid and other poisonous waste matter, overcoming Rheumatism, Bladder and Urinary troubles in an hour while.

A New York druggist who has had hundreds of calls for these ingredients since the first announcement in the newspapers last October stated that the people who once try it "swear by it," especially those who have Urinary and Kidney trouble and suffer with Rheumatism. The druggists in this neighborhood say they can supply the ingredients, which are easily mixed at home. There is said to be no better blood-cleansing agent or system tonic known, and certainly none more harmless or simple to use.

We are not troubled with snow here in Oregon, but in colder climes inhabitants often run up against something like the following: "A tall, angular man who was recently walking down a steep hill when a piece of ice under the snow caused him to lose control of his feet. He began to slide and was unable to stop. At a crossing half way down he encountered a large, heavy woman, and before either realized it a collision ensued and both were sliding down the hill, the thin man underneath, the fat woman on top. When the bottom was reached, and the woman was trying to recover her breath and feet, these faint words were borne to her ears: 'Pardon me, madam, but you will have to get off here. This is as far as I go.'"

Neighborhood Favorite. Mrs. E. D. Charles, of Harbor, Maine, speaking of Electric Bitters, says: "It is a neighborhood favorite here with us." It deserves to be a favorite everywhere. It gives quick relief in dyspepsia, liver complaint, kidney derangement, malnutrition, nervousness, weakness and general debility. Its action on the blood, as a thorough purifier makes it especially useful as a spring medicine. This grand alternative tonic is sold under guarantee at Howell & Jones' drug store, 50c.

The Crown of Womanhood is Motherhood.

The crown of womanhood is motherhood. But uneasy lies the head that wears the crown of motherhood. The crown, when there is a lack of womanly strength to bear the burdens of maternal dignity and duty. And how few women come to this critical time with adequate strength. The reason why so many women sink under the strain of motherhood is because they are unprepared. Is preparation then required for motherhood? asks the young woman. And every experienced mother answers— "Yes." "I unhesitatingly advise expectant mothers to use Dr. Pierce's Favorite Prescription," writes Mrs. Stephens. The reason for this advice is that Dr. Pierce's Favorite Prescription is the best preparative for the maternal function. No matter how healthy and strong a woman may be, she cannot use "Favorite Prescription" as a preparative for maternity without gain of health and comfort. But it is the women who are not strong who best appreciate the great benefits received from the use of "Favorite Prescription." For one thing its use makes the baby's advent practically painless. It has in many cases reduced days of suffering to a few brief hours. It has changed the period of anxiety and struggle into a time of ease and comfort.

MOTHER OF THE FAMILY. The anxious mother of the family often carries the whole burden of responsibility for the home medicine of common ailments of the girls or boys is concerned. The cost of the doctor's visits is very often much too great. At such times the mother is invited to write to Dr. Pierce, of Buffalo, N. Y., for medical advice, which is given free. Correspondence is held strictly confidential. The ingredients of the "Favorite Prescription" is a matter of public knowledge, being printed on each separate bottle wrapper.

Perfect safety is assured with Doctor Pierce's well known medicine because no harmful ingredient is contained in them. No alcohol, opium or harmful narcotic is contained in the "Favorite Prescription." Nearly forty years ago Dr. Pierce discovered that chemically pure glycerine of proper strength is a better solvent of our native medicinal plants than is alcohol. Besides glycerine is of high nutritive value in building up fatty flesh—much "crassating" liver oil. The ingredients in "Favorite Prescription" beside the glycerine are Lady's Slipper root, Golden Seal root, Black Cohosh and Blue Cohosh root, and Unicorn root.

Dr. John Fyfe, Editor of the Department of Therapeutics in THE ELECTRIC REVIEW says "Unicorn root (Helonias Dioica) one of the chief ingredients of Dr. Pierce's Favorite Prescription: "A remedy which invariably acts as a uric acid invigorator and always favors a condition which makes for normal activity of the entire system, cannot fail to be of great usefulness and of the utmost importance to the general practitioner of medicine." "In Helonias we have a medicinal which more fully answers the above purposes than any other drug with which I am acquainted. In the treatment of diseases peculiar to women it is seldom that a case is seen which does not present some indication for this remedial agent."

Of another important ingredient Prof. John King, M. D., says: "As a paralytic protractor, Blue Cohosh has enjoyed a well-merited reputation, for when used by delicate women, or those who experience painful labors, for several weeks previous, it gives tone and vigor to all the parts engaged, facilitating its progress, and relieving much suffering." Prof. Hale testifies of women who have taken Caulophyllum, all had very easy labors and made good recoveries. Blue Cohosh acts as an anti-abortive by relieving the irritation upon which the trouble depends. He continues, "It has been employed to relieve irritation of the reproductive organs dependent on congestion. It controls chronic inflammatory states of organs and gives tone in cases of debility."

The foregoing are only a few brief extracts taken from among the volumes of endorsements which the most eminent medical writers have given the ingredients entering into Dr. Pierce's Favorite Prescription. "Favorite Prescription" is the only medicine for women, the makers of which are not afraid to print their formula on the bottle wrapper, thus taking their patrons into their full confidence.
