

# NO GAS NO COCAINE

We set the pace in high grade dentistry. We belong to no dental combination but stand on our reputation and are busy all the time. Our prices are reasonable.

**BRIDGE WORK**  
\$5.00 PER TOOTH

**GOLD CROWNS**  
\$5.00

Don't pay those high prices for dental work but before you contract to some dentist your dental work, come and see us.

Examination free.  
Our Motto: "Honest work at honest prices."

Lady Assistant  
Oregon Dental Parlors  
Over Harding's Drug Store

will come to a focus pretty soon for Old Biddle will soon have to go to setting.

The Clear Creek Creamery company had their annual meeting the 14th. All the stockholders that attended the meeting this year failed to get an office. Only six were elected. Fair attendance of stockholders all seemed to be interested. The company has two thousand dollars in its sinking fund and expect to fix up around the creamery building, making things look very stylish.

D. T. Griffith hauled his first load of cream the 16th. Mr. Griffith treated himself to a stylish new team costing \$250. He expects to keep in the middle of the road.

### ESTACADA.

The basket social at the Garfield Grange hall, Saturday night was a great success, notwithstanding the storm. The play was well acted for amateurs and was well received. W. H. Samson of Oregon City, was auctioneer and those who know him know he can't be beat on that line. About 100 persons were present and they were very generous. The gross receipts were \$70.85. It will be used to paper the hall and for such other purposes as the grange sees fit to use it.

Fred Lins and Carl Lins of George, attended the basket social at Garfield Saturday.

Miss Mary Dale, of Estacada, attended the basket social at the Garfield grange hall, Saturday.

Earl Wagner is recovering from his illness, which at one time was thought would prove fatal.

Mrs. W. K. Irvin is able to be out and around again after amonth's illness.

The Rev. U. B. Paronagian is holding revival services this week at Curinsville.

Eagle Creek and the Clackamas river were higher Sunday than for three or four years.

George Dale, of Estacada, began work today as head chairman for the Maury surveying party on the North Fork of Eagle Creek.

Henry Johnson, of George, raised his barn a few days ago. Ed. Hardus and Fred Lins are assisting him.

E. V. Foster, of Eagle Creek is ill with the grip.

F. M. Gill was at Eagle Creek Saturday, circulating his nominating petition.

Ed. Hunt, of Estacada, furnished the music for the basket social at Garfield Saturday night. Mr. Hunt is an excellent violinist. J. T. Irvin rendered an excellent second on the organ.

James Hattan of the Ogle Mountain mines, was a caller at Garfield, this week.

It is freely predicted that Estacada will go "dry" this June. If it does, five saloons will go.

### NEEDY.

Owing to the heavy rain fall, Sunday, some of Needy's best people had to stay at home.

Mr. and Mrs. Frank Fish were visiting at Herb Johnson's, Sunday.

Mr. Molson and Pete, made a business trip to Portland, one day this week.

The Misses Meyers visited at John Gahler's, Sunday.

Alvin Thompson was in Aurora one day last week.

Mrs. A. S. Thompson will soon have in a complete line of Easter bonnets. Jake Owens is thinking seriously of going into the mercantile business in Needy. We all wish you success, Jake.

Owing to high water the Needyites were unable to get to the basket social Saturday night.

Miss Myrtle Smith is home for a few days.

Lee Fish has been a way on business a few days.

Paul Sampson has been quite ill, but is slowly recovering.

Mrs. Solon Kinzer is going to teach the spring term of the Needy school. John Domagala had the misfortune of getting his nose broke while playing a school.

Jake Owens was calling on Miss Mary Price one day last week.

Grandpa Noblitt who is in Oregon City, has been quite ill.

Oh, say! have you seen Otis Townsend's new trotters? They trot best towards that out bin.

Miss Wilda Elliott has gone into the poultry business.

When you go to Needy be careful you don't get shot, as Miss May Price has a new kodak.

Andy Thompson, who is living in Portland, was visiting in Needy a few days last week.

A. W. Elliott will leave in a few days for Sanana, California.

It never gets too wet for "Fish," as the whole family was out, Sunday.

Lame Shoulder.

Whether resulting from a sprain or from rheumatic pains, there is nothing so good for a lame shoulder as Chamberlain's Pain Balm. Apply it freely and rub the parts vigorously at each application and quick cure is certain. For sale by Huntley Bros., Oregon City and Molalla.

## COLD WEATHER CHECKS FLOOD

THREATENING DOWN POUR SWELLS RIVERS TO DANGER POINT ALONG COAST.

### WITH HEAVY GALES

Railroads Suffer the Worst Tie-Up—General—Bridges Out—Immense Slides Obstruct Traffic.

Dispatches from all along the North Pacific Coast first few days of this week brought the news of heavy rain storms, often accompanied by violent wind. Rather early for the Spring Equinoctial and the cooler conditions following to this morning shows it to have probably been a sort of side-sweep from storm center on the Pacific south-west of the coast, as the storms seem to have abated, or at least spent their fury, no new out-breaks are reported.

The storm was severe in many places. A 70-mile gale raged at Juan du Fuca. Straight and no attempts were made to enter the Columbia river for 48 hours. At North Head the wind reached a velocity of 68 miles an hour, Sunday.

Widespread damage throughout the Columbia River Valley followed the heavy downpour. Trains were stalled, bridges swept away, farms overflowed and towns cut off from communication with the outside world. The rain swelled the smallest stream to a torrent. Logs and driftwood were swept away, carrying destruction to everything in their path.

Several log rafts piled up on the Madison-street bridge at Portland, Monday and threatened to carry that structure away. Later the tug Sampson crashed into the bridge, damaging the draw pier. The bridge is out of alignment and was closed to all traffic except persons afoot.

The worst effects of the storm are believed to have passed. The cold weather stopped the melting of snows in the mountains and all streams are expected to subside quickly. In fact, many of the rivers tributary to the Willamette and Columbia commenced falling Tuesday. However, it will require more time for these streams to reach their highest point.

Towns along the lower Columbia River on the Washington shore have suffered from the floods. Woodland streets are under water in a part of the town. Kalama is in darkness on account of floods, and the Lewis and Cowlitz rivers are running banks full. Logs and shingle bolts have been swept away in large quantities.

The upper Columbia country is also threatened by floods. Streams are high and logs are being swept toward the Columbia in large numbers. For the most part, however, the timbers is being saved through the efforts of timbermen, who are doing everything to hold the logs in bounds.

The Eastern Oregon country is experiencing the most trouble of the winter from floods. Bridges were carried away, and there is great damage to towns and farms.

Train service on the O. R. & N. to the East is probably not yet restored, although construction crews are working like mad to open the line. Bridges have been washed away in many places and embankments are gone. There are gaps in the track of several hundred feet that will have to be rebuilt with pile drivers.

The Spokane, Portland & Seattle Railway, which was to have opened for traffic Tuesday, cannot operate a schedule this week. A big slide covered the track for a long distance at Carson. A steam shovel is in the track, and logs jammed in the Washington river piled up against the railroad bridge and carried away several bents. Piling in the approaches was broken. There was 5,000,000 feet of logs banked against the bridge.

In other places bridges were weakened so that trains dare not cross. The mountain streams running into the Columbia became torrents and ran up level with the banks.

Water in the Cowlitz is falling. No harm has been done, beyond the loss of timber, which will not be heavy, because the big boom at the mouth of the river has most of the logs and bolts.

Yamhill river has risen 15 feet and is still rising. This makes sawmill men happy, as several million feet of logs will be loosened up on Mill and Willamina creeks.

The Lewis river was on a rampage, but the water has fallen about 12 inches. The school house and the office of the Woodland Echo could only be reached by boat or high rubber boots. Peterson's boom, a mile above Woodland, went out and about 1,000,000 feet of logs went down the river. These, with other logs and debris, were jammed above the Northern Pacific bridge.

Besides being an excellent remedy for colds and throat troubles, Chamberlain's Cough Remedy is unequalled as a cure for croup," says Harry Wilson, of Waynetown, Ind. When given as soon as the croupy cough appears, this remedy will prevent the attack. It is used successfully in many thousands of homes. For sale by Huntley Bros., Oregon City and Molalla.

## FARM NOTES

The milkman's profit in dairying is attained only by feeding up to the highest point all of the time that the cows are being milked.

No unnecessary delay should be allowed between any of the processes in the manipulation of the milk or the manufacture of the butter.

It is claimed that butter made from the cream and milk of cows that have not been fed grain is different in flavor and taste.

When milk is allowed to become sour, it is more or less waste. The sugar turns to acid, thus lessening the feed value.

While the hard should be comfortable, it should also be well ventilated. Some barns are hotbeds for tuberculosis germs.

Dairying adds to the wealth of the community as well as the individual and the evidence is at hand in every dairy community.

The dairy bull should be fed like a working horse, and should receive plenty of exercise. Work him in a tread power.

The making of good butter begins with the care of the cows, and is followed up until the butter is placed on the market.

The Iowa State Dairy Commission has discovered that it takes from six to twelve cents to make a pound of butter.

The Phenomenal Blackberry is exactly what its name implies. It is a wonder in the blackberry line, both in size and in production. It is one of Burbank's greatest production.

The best aid toward making a success of the private dairy is to have private customers—customers who will take the product at a fixed price all through the year.

Not only must the dairyman select the breed adapted to the kind of dairying he is pursuing, but a careful selection of individual animals must be made.

Keep a record of the breeding of each cow, so you will know when she is due to calve, and then allow her to go dry six weeks before calving.

Have you noticed that the lean cow with the big barrel always gives the most milk? It isn't produced on the dual purpose plan, either.

Take care of the young stock for they are the nursery of the dairy; and as they are bent as calves they will be inclined as cows.

In spite of the best efforts of medical men, catarrhal troubles are increasing not only in Oregon City, but all over the country.

Catarrh is a germ disease, and to cure it germ life in the breathing organs should be destroyed, and to do this no other treatment has such positive and beneficial action as Hyomei.

When the mucous membrane is irritated and raw and the tissues weakened, there is an ideal lodging place for catarrhal germs. Breathe Hyomei and see how quickly it soothes the membranes, vitalizes the tissues and destroys all the disease germs, rendering catarrh no longer possible.

There is no dangerous stomach drugging when Hyomei is used; no tablets or liquid mixtures destroying digestion.

Breathed through the neat pocket inhaler that comes with every Hyomei outfit, the healing balsams penetrate to the most remote air cells of the throat, nose and lungs, destroying the catarrhal germs so that quick recovery follows.

Huntley Bros. & Co. agree to refund the money to any purchaser of Hyomei who does not find that it does all that is claimed for it. The complete outfit costs but \$1.00.

Having placed a line of The Boyd Tea Company's High Grade TEAS, COFFEES, SPICES AND EXTRACTS in the room adjoining the Wells, Fargo Co.'s Express office, I solicit your patronage.

Our goods are all uniform and your second order will be of the same quality as the first.

## MIXTURE CURES RHEUMATISM

SAYS MANY PERSONS HERE CAN BE MADE HAPPY AGAIN.

### PRESCRIPTION IS GIVEN

Tells How Any One Can Prepare Simple Home-Made Mixture, Said to Overcome Rheumatism.

There is so much rheumatism here in our neighborhood now that the following advice by an eminent authority, who writes for readers of a large Eastern daily paper, will be highly appreciated by those who suffer:

Get from any good pharmacy one-half ounce Fluid Extract Dandelion, one ounce Compound Kargon, three ounces of Compound Syrup Sarsaparilla. Shake these well in a bottle and take in teaspoonful doses after each meal and at bedtime; also drink plenty of good water.

It is claimed that there are few victims of this dread and torturous disease who will fail to find ready relief in this simple home-made mixture, and in most cases a permanent cure is the result.

This simple recipe is said to strengthen and cleanse the eliminative tissues of the Kidneys so that they can filter and strain from the blood and system the poisons, acids and waste matter, which cause not only Rheumatism, but numerous other diseases. Every man or woman not healthy and active, or who suffers from any urinary trouble whatever, should not hesitate to make up this mixture, as it is certain to do much good, and may save you from much misery and suffering after awhile.

Our home druggists say they will either supply the ingredients or mix the prescription ready to take if our readers ask them.

### No Use to Die.

"I have found that there is no use to die of lung trouble as long as you can get Dr. King's New Discovery," says Mrs. J. P. White, of Ashboro, Pa. "It would not be alive today only for that wonderful medicine. It loosens up a cough quicker than anything else and cures lung disease even after the case is pronounced helpless." This most reliable remedy for coughs and colds, la grippe, asthma, bronchitis and hoarseness, is sold under guarantee at Howell & Jones' drug store. 50c and \$1.00. Trial bottle free.

Letter List for Week Ending March 20  
Woman's List—Bergschmidt, Miss Etta; Stewart, Miss Mable; Wilson, Margaret.  
Men's List—Allen, W. J.; McVey, Donald; Wilson, S.

The Beaver State Herald at Gresham has changed hands, H. A. Darhall, of Lents, Or., having purchased the plant and business from Timothy Brownhill.

## The Rhodes Double Cut

PRUNING SHEARS  
(PATENTED)

EVERY fruit grower will appreciate the advantages of a pruning shears that has a double cutting edge, as all the pruning shears heretofore on the market have had only one cutting edge, and the other edge being dull would bruise and peel the bark from the limb and injure it so it would not heal up smoothly, but the Rhodes Pruning Shears having a double cutting edge, cuts from both sides of the limb and does not bruise the bark, but leaves a clean, smooth cut that heals up rapidly.

All previous attempts to make a double cutting pruning shears have been failures, as the shear blades would draw together and cut themselves; but with the Rhodes Double Cut Pruning Shears this difficulty has been overcome by the overlapping points, as you will notice by the cuts that the points of the Rhodes Shears pass by each other before the shears cut into the limb far enough to draw the blades, and it is impossible for the blades to draw together themselves after the points pass each other.

The Rhodes Double Cut Pruning Shears are finely finished and are made from the best quality of material. The shear blades are forged from tool steel and are carefully ground and tempered. The handles are maple. The ferrules are of wrought iron four inches long, with an extra ferrule one inch long on the end. There is a rivet put through the ferrule, handle and shank of the shears which keeps the ferrule and shears from coming loose from the handle. "Blades of Wood Handle Pruners are the same size for all lengths.
