Republican Candidate for Representative CHAMPION OF STATEMENT 1

(I take the pledge—No ifs nor ands)

Statement No. 1 is a Republican measure, given to the Republican party of Oregon by a Republican legislature. Its purpose is to eliminate graft and bribery in the Republican party of Oregon. To declare that it is going to turn the state over to the Democrats is an admission of weakness on the part of those who make the argument. Others say, "We want to destroy even the possibility of a Democrat being elected to the senate." Now, if you want to strengthen a man before the people of a state or nation, just blind him hand and foot, and put him in the race where he doesn't stand a ghost of a show. Do this often enough and the people will repudiate you bodily. They will turn you down. If a man's cause is weak, give him a show and the people will think more of you and come nearer endorsing your leadership. No man is capable of leadership who is not willing to be guided by those principles of just and right which are as fixed and unchangeable as the eternal hills. Even on the field of battle in times of war, there are certain rights we must respect and accord toward our enemy. If we did not the nations of the earth would turn against us. As sure as the sun shines, Oregon is going to be delivered from that old disgraceful system of graft, bribery, boodle and hold-ups in her legislature, and it is going to be accomplished through Statement No. 1. Have you noticed that those newspapers that are saying Statement No. 1 is a good thing are also saying the initiative and referendum is a bad thing? They are saying the primary law is a bad thing. It puts too much power into the hands of the people. They don't want to see officers take their proper places as public servants; they want to see them as bosses and dictators. But the people are going to do the bossing this time and if they decide the politicians and corporation-hired newspapers can do better for them than they can do for themselves, then they may turn it over to them. But not yet. Let me say to the people of Clackamas county, in God's name hold fast to these rights you have, and let's go forward and upward. If we must, let us fight to the last man, and then we will say to him, "Don't give up the ship!"
