

Put This Stove in Your Kitchen

It is wonderfully convenient to do kitchen work on a stove that's ready at the instant wanted, and out of the way the moment you're done. Such a stove is the New Perfection Wick Blue Flame Oil Cook-Stove. By using it you avoid the continuous overpowering heat of a coal fire and cook with comfort, even in dog-days. The

NEW PERFECTION Wick Blue Flame Oil Cook-Stove

is so constructed that it cannot add perceptibly to the heat of a room; the flame being directed up a retaining chimney to the stove top where it is needed for cooking. You can see that a stove sending out heat in but one direction would be preferable on a hot day to a stove radiating heat in all directions. The "New Perfection" keeps a kitchen uniformly comfortable. Three sizes, fully warranted. If not with your dealer, write our nearest agency.

The Rayo Lamp is the ideal lamp for family use—safe, convenient, economical and a great light giver. If not with your dealer, write our nearest agency. STANDARD OIL COMPANY (Incorporated)

SERVED THE PEOPLE OF CLACKAMAS COUNTY WITH ABILITY LAST SESSION.

J. U. Campbell, who is a candidate for the Republican nomination for Representative, earned a fine record in the last session of the legislature.

The Portland Telegram after the session ended, published a flattering statement relative to Mr. Campbell's ability and the things he accomplished. In an editorial The Telegram said:

"For forty days a body of men have been engaged in doing public work at the legislature. Some of them have done well, some of them not so well, while a proportion undoubtedly have served rather the special interests than the public. During this long term it is next to impossible for a man to hide from a close and unprejudiced observer where he really stands. On this basis he is entitled to praise or blame, and it is only fair that his constituents, wherever they may be, should be given a line as to the man so that when they next appear for public office, they may know precisely what to expect from them."

Under the heading of "Campbell Clean Politician," The Telegram said: "J. U. Campbell was emphatically a 'feral'ist. He was the best parliamentarian in the House, a resourceful fighter, usually had to battle with the other leaders and the Speaker besides, and yet won as many battles as any member. He introduced few bills and helped kill scores. He fought every big appropriation as a matter of course, whether the appropriation was needed or not, and he caused the majority in the House more uneasy hours than any other half dozen men. No one ever said that Campbell did not fight fair, no one accused him of plugging his support to a measure and then betraying the trust, as others in the House did, and no one ever did parliamentary battle with him without knowing that he had been through something. Campbell is a politician, but a clean one. He was the only man on the floor of the House this session who had backbone enough to stand up and be counted when there were 59 members against him, and the only man who dared cut loose from ties and tell the machine to do its worst. He manufactured a record that will make mighty good reading for his constituents."

Successful Year.

The Clear Creek Creamery near Stone, in Clackamas County, has just closed a most successful year under the management of the directors. The annual meeting of that board was held the latter part of March, at which time the business of the year was gone over. An average of 33 1-3 cents per pound had been paid the patrons for butter fat, and a gross business for the company of \$50,000. There is to be a special social time of \$2000, for the keeping up of the plant and the business was considered in first class condition. At this meeting the following officers and directors were elected: W. P. Kirchem, Pres.; John Hatten, Vice Pres.; L. C. Young, Mr. Mumpower and Frank Hatten.

DODGE.

Joe Keller and daughter Izola, and son Emery, were visitors at Mr. Keller's week ago.

A Sunday school has been organized and is progressing nicely, with Mr. D. Horner as superintendent.

Some of our young people attended the party at Springwater Saturday night, and were very successful.

A Bold Step.

To overcome the well-grounded and reasonable objections of the more intelligent to the use of secret, medicinal compounds, Dr. R. V. Pierce, of Buffalo, N. Y., some time ago, decided to make a bold departure from the usual course pursued by the makers of put-up medicines for domestic use, and so he published broad, cast and openly to the whole world, a full and complete list of all the ingredients entering into the composition of his widely celebrated medicines. Thus he has taken his full position. Thus too he has removed his medicines from among secret nostrums of doubtful merits, and made them Remedies of Known Composition.

By this bold step Dr. Pierce has shown that his formulas are of such excellent quality that he is afraid to subject them to the fairest scrutiny.

Not only does the wrapper of every bottle of Dr. Pierce's medicines contain a full list of the ingredients, but in plain English, a full and complete list of all the ingredients composing it, but a small book has been compiled, containing very standard medical works, of all the different schools of practice, containing very numerous extracts from the writings of leading practitioners of medicine, endorsing in the strongest possible terms, each and every ingredient contained in Dr. Pierce's medicines. One of these little books will be mailed free to anyone sending address on postal card by letter to Dr. R. V. Pierce, Buffalo, N. Y., and requesting the same. From this little book it will be learned that Dr. Pierce's medicines contain no alcohol, narcotics, mineral salts or other poisonous or injurious agents, and that they are made from native medicinal roots of great value; also that some of the most valuable ingredients contained in Dr. Pierce's Favorite Prescription for weak, nervous, over-worked, "run-down," nervous and debilitated women, were employed long years ago, by the Indians for similar ailments affecting their women.

As made up by improved and exact processes, the ingredients of this medicine are most potent remedies for retaining all the various functions, correcting displacements, as weakness of the digestive system, relieving overworking, painful periods, toning up the nerves and bringing about a perfect state of health. Sold by all dealers in medicines.

Economy in the administration of public affairs and in appropriations. Better attention given to the banking laws, which will afford greater protection to the depositors, decrease of state taxes. There is great need of better roads and my purpose is to improve such conditions. There is no reason why Oregon should not have as good highways as other states. The betterment of our public school and an equal system of taxation, so that all may pay their just proportion. To better preserve the natural resources of our state to the people and an honest and fair legislation, equal privileges to all and favoring no classes. The election of United States Senators by the people as instituted by Statement No. 1.

Coast News Notes

The Oregon advertising fever is both contagious and infectious, and the remarkable part of the present epidemic is that it has spread to the chicken thieves who have been normal now have the highest temperature.

Hon. Paul Morton, formerly Secretary of the Navy in President Roosevelt's cabinet, but now president of the Equitable Life Assurance Society, was entertained in Portland Monday and Tuesday. Mr. Morton is a Western man and is making an extended tour of the Pacific Coast with a view to investments.

People from all parts of Oregon should make it a point while in Portland to visit the Forestry building, and familiarize themselves with the timber wealth of this state. That building is now in charge of M. W. Gorman as superintendent, and he thoroughly knows the forests of the North-west and the value of every acre. Mr. C. C. McChesney, field secretary of the Y. M. C. A. of America, recently visited the Forestry building and remarked that it was the most satisfying and interesting building on this continent and that his hour with Mr. Gorman was the most instructive he had experienced in many years.

A GOOD MOVE.

Let Everyone Lend a Hand.

The Grocers' association held a meeting in the office of O. D. Ely on Monday evening for the purpose of electing a delegate to the annual convention of the National Association at Boston early in May. Mr. Gary, one of Oregon City's prominent grocers, was unanimously chosen to represent the Oregon City Association, and will leave Portland on the special car that will be provided for the delegates of Oregon, Washington and other states. Mr. Gary is well known throughout the county and state, as an instructor, being the present County Superintendent of schools, and is a good father, which will be of great advantage in the advertising of the state of Oregon in the East. A committee has been appointed of the following grocers: Frank T. Barlow, W. Harris, W. W. Myers and H. P. Brightbill, who will wait upon the Board of Trade and the county court with a view of obtaining assistance in securing funds, which will be added to the funds already in the hands of the Association, which is about \$50, which will be used to defray the bare expenses of Mr. Gary on his trip East, who has very graciously offered his time.

The local association is affiliated with the grocers of the state, and it is proposed to send delegates from all of the Oregon important towns to Boston, with the object of having the national convention meet in Portland next year, and the state can be well advertised by the delegates if the people of the western towns take an interest and send literature and pictures relating to the state. This will be of great benefit to Oregon City, Clackamas County, as well as Portland and the whole state. Mr. Gary will be loaded with facts relative to this section.

Mr. Gary leaves May 4th, on a special car which will pick up delegates from other states.
