Your valuable paper of April 24th suggests various ways for women to earn money so not to be obliged to ask John for it. Looking at the question from an old maid standpoint, why should a wife ask for that which rightfully belongs to her as much as it does to John. Doesn't she earn it as well as he?—Does she enjoy half the leisure moments he does. Where could he hire a servant to do what the wife does for her board and clothes. Why shouldn't John come to her for money, or better still, why is there not more of a community of interest?

MAKING CREAM SEPARATOR HISTORY. The year 1908 will mark an important period in centrifugal Cream Separators. Probably never again will such a large number of valuable Separator improvements be brought forth as are now shown in the new improved 1908 De Laval machines. After thirty years of ceaseless testing and experimenting, the really perfect Cream Separator has at last been produced in the New De Laval. Nothing anywhere near like it has ever been made before and all who have seen and examined it marvel at the great degree of perfection attained in every feature of the machine from the supply can to the base. Although the improved De Laval has only recently been placed on the market it is already SWEETING ALL COMPETITION ASIDE and experienced buyers everywhere are saying of it—"YOU DON'T CLAIM NEARLY ENOUGH." The many new De Laval improvements are of almost equal importance with the invention of the separator itself and must be seen to be fully appreciated. To this end you may have a free demonstration of the machine in your own home for the asking. Mr. W. P. Kirchem, the agent for Oregon City, has arranged with FRANK BUSCH to have one of the machines in his store where the merits can be fully examined and catalogues be obtained. Call at FRANK BUSCH'S STORE. And see the new DE LAVAL SEPARATOR.

WHAT'S UNDER THE PAINT ON THE BUGGY YOU HAVE?

Are there cracks in the sides that have been puttyed up in order to make you think you are getting your money's worth? Are there knots and defective blotches in every part under the paint? If your buggy is a Staver, you could scrape off every particle of paint and more than that, take every portion of the body and examine it thoroughly and you could not say that the buggy is not what it is represented to be--the best in the buggy line. The Staver buggy is in a distinctive class of its own. The manufacturers do not wait until some other firm has put out an improvement and then endeavor to copy that improvement. They are generally the first to add a new style to their line. When you buy a Staver, you do not get a copy, you get the original. Staver gears are made of the best air dried seasoned hickory. Reaches are ironed on both sides full length. Staver springs are of the best quality oil tempered graded steel and are thoroughly tested before sent out. Woodwork is primed with lead and oil and rubbed in the wood by hand, giving it a durable, handsome finish.

SIMPLE WASH CURES ECZEMA.

Itching, Burning Skin Disease Routed Without Use of Injurious Drugs.

Great inventors often have been praised for surrendering the secrets of their discoveries. Practically the same thing happens in the medical world in the case of Dr. Decatur D. Dennis, the eminent skin specialist, of Chicago.

Dr. Dennis, in his own office practice, discovered that pure vegetable oil of wintergreen, properly mixed with other simple remedies was practically a sure specific for Eczema, psoriasis, barber's itch, salt rheum, and other itching skin diseases. But the oil of wintergreen alone was found ineffective. It required other mild ingredients such as glycerine and thymol compounded with the wintergreen, to produce the real eczema cure.

This compounded D. D. Prescription positively takes away the itch at once—the instant it is applied to the skin. This vegetable liquid does away with deleterious drugs so long used in an attempt to doctor the blood, whereas modern science has determined that eczema is first and all the time a skin disease.

If you want to know more about the merits of D. D. D. Prescription, call at our store. We vouch for this remedy. Howell & Jones, Oregon City.
