WHY NOT WOMAN'S SUFFRAGE?

(From the Oregon Daily Journal.)
Oregon City, May 16.—To the Editor of The Journal—In your issue of the 13th inst, we discovered an "address" by Clarence True Wilson, D. D. against woman's suffrage. While every citizen is entitled to his opinion, we are surprised to find a man of Mr. Wilson's ability and supposed candor to use such argument as he does to strengthen his position. He makes a scientific investigation and a somewhat heavy effort to hide the simplicity of woman's rights.

You mean to tell us, Mr. Wilson, that by nature men are the superior of women? That they are physically, mentally and morally superior to women? You mean to lead us into believing that husbands, fathers and brothers are voting their own sentiments and voice their desires, and at the same time express the desires and aspirations of their wives, mothers and sisters? What rot! We say to you that where women are living natural lives they are physical equals of men who live naturally. In other words, where men and women from birth to manhood and womanhood have grown in similar surroundings, and have been given equal exercise of physical power, they reach equal physical perfection. Yet this has nothing to do with the right of suffrage and though

you try to make it appear of the greatest importance. And if morally and mentally give right to governmental power, then woman is equally entitled with man to the "duty" and responsibility of the ballot-box throughout our state and nation, for we men must take a back seat when compared with our wives, mothers and sisters along moral lines and mentally we have nothing to brag of.

You say you believe woman should be queen of the home. We agree with you. But the man should equally be the king of the home. That is, man and woman should be jointly and equally responsible for the bringing up of the children. The father should be just as loving, just as kind-hearted, just as moral, just as affectionate, true, just as fatherly, as the mother should be motherly and faithful. You do not speak for this sentiment, yet it is difficult to see why a D. D. would take the opposite view.

You marshal evidence to prove that where women have the right to vote their morality is a mockery and justice has been forgotten. As if women by their ballot produced these conditions! What a conclusion for a learned man! I say to you, that in no state where women have a right to vote is corruption and immorality as great as where the voice of the man alone is heard. In nine cases out of every ten the unfortunate condi-

tion of women is caused by man, regardless of mental power or political activity. In no state is a woman's virtue sold as cheaply as in those where manhood suffrage has complete control of government and the dark picture of misfortune you portray of virtue's sale can be multiplied in every state of our commonwealth, yes in every city where men control the means of living. And you know it.

Although you try to make these things appear of the greatest importance, they are not after all so essential as you infer. Society is composed of both sexes. We breathe the same air and partake alike of the same national requirements. Neither half can exist without the other. Almighty God gave every man and every woman a brain by which each should be equally recognized and which each should exercise for the good of all, whether it be the home, church, or government. Society will never lift itself to its highest hopes until it grants to its complete self the full and equal vote in everything. Let us then in our part of the world help to restore to womankind her equal rights and her equal opportunities, with ourselves by giving her a voice in the management of the government which we both equally uphold and support. She who is able to govern the cornerstone of the nation, (the home), is fit to have a voice in the general govern-

ment of ourselves. Let us then, instead of taking the wrong course, outlined by Mr. Wilson, vote yes instead in the coming election on woman's suffrage.

FORTY SCHOOLS REPRESENTED.

Largest Number of Pupils Who Have Taken Eighth Grade Examinations.
Prof. T. J. Gary is busily engaged in marking the examination papers that the pupils of the different county schools took in the recent eighth grade examination. There are 215 candidates, the largest class that has ever taken the eighth grade examination in the county, 46 schools in the county being represented. Mr. Gary visited the schools at Wilsonville, Frog Pond, Union and at Graeme last week, and expects to go to the Molalla country next week. Most of the schools in the county are now closing for the summer vacation. The pupils of the schools are very enthusiastic over Mr. Gary's movement in having the flower and vegetable seeds distributed throughout the county to the children, who have planted and are caring for the plants to secure the premiums that are to be awarded to successful contestants at the coming Chautauque meeting and at the county fair. The prizes that are offered by the Chautauque Assembly will be awarded on Saturday, July 11, when hundreds of school children will be on the grounds. State Superintendent Ackerman, of Salem, and Superintendent Robinson, of Multnomah county, will be present on that day, and will make addresses. Over 100 teachers are also expected to be on the platform on that occasion.

Memorial Day Resolution.

At a regular meeting of Meade Post No. 2, Department of Oregon Grand Army of the Republic, held at Willamette Hall, May 2, 1908.
By resolution a committee was appointed to secure the publication in the press of Oregon City. The First General Orders issued by General John A. Logan on May 5th 1863, designating and establishing Memorial Day, which has been adopted this year by the Department of Oregon Grand Army of the Republic as Memorial Day orders.
General Orders, No. 11.
1. The 30th day of May is designated for the purpose of strewing with

flowers, or otherwise decorating the graves of comrades, who died in defense of their country during the late rebellion, and whose graves now lie in almost every city, village and hamlet churchyard in the land. In this observance no form of ceremony is prescribed, but Posts and Comrades will in their own way arrange such fitting services and testimonials of respect as circumstances will permit.

We are organized, comrades as our Regulations tell us, for the purpose among other things "of preserving and strengthening those kind and fraternal feelings which have bound together the soldiers, sailors, and marines who united to suppress the late rebellion. That can do more to assure this result than by cherishing tenderly the memory of our heroic dead, who made their breasts a barricade between our country and its foes; their soldier lives were the revolve of freedom to a race in chains, and in their deaths the tattoo of rebellious tyranny in arms. We should guard their graves with sacred vigilance. All that the consecrated wealth and taste of the nation can add to their adornment and security is but a fitting tribute to the memory of our slain defenders. Let no waif of a nation, nor a child of sorrowful parents, be allowed to pass such hallowed grounds. Let pleasant paths invite the coming and going of such reverent visitors and fond mourners. Let no vandalism of avarice neglect, nor ravages of time testify to the present or to the coming generations that we have forgotten as a people the cost of a free and undivided republic.

If other eyes grow dull and other hands slack, and other hearts cold in the solemn trust, ours shall keep it well as long as the light and warmth of life remain to us.

Let us then, at the appointed time, gather around their sacred remains, and garland the passionless mounds above them with the choicest flowers of spring-time; let us raise above them the dear old flag they saved from dishonor; let us in this solemn presence renew our pledges to aid and assist those whom they have left among us, a sacred charge upon a nation's gratitude—the soldier's and sailor's widow and orphan.

2. It is the purpose of the Commandance with the hope that it will be der-in-Chief to inaugurate this observance from year to year while we survive of the war remains to honor the memory of his departed comrades. He earnestly desires the public press to call attention to this order. Let his friendly aid in bringing it to the notice of comrades in all parts of the country in time for simultaneous compliance therewith.

3. Department Commanders will use every effort to make this Order effective.
By command of
JOHN A. LOGAN,
N. P. CHIPMAN, Commander-in-Chief
Adjutant General.

J. H. Leiper, of Portland Oregon, Writes Letter Which May be of Great Interest to Skin Sufferers in This City.
160 Grand Ave., North Portland, Or.
For about fifteen years I had been afflicted with Eczema and had tried many remedies, to very little purpose, and no cure. Somewhat in desperation I tried D. D. I was soon convinced that the bottle was half empty when I had at least found medicine that was not a deception. Now I have a little left of the third bottle and am entirely cured of the Eczema, and for seven months have had no symptoms of its return.

J. H. LEIPER,
Field Secretary Northwest Sabbath Association.
What D. D. D. did in this case it ought to do for you. This wonderful remedy is now recognized by the foremost physicians and scientists as the quickest and surest cure for Eczema and skin disease of any nature. This is pure water, and is applied directly to the afflicted parts, leaving no bad odor or sticky, salvy substance. The first application gives instant relief, and as far as we have been able to investigate quickly effects the most astonishing and permanent cures wherever rightly used. If you are a sufferer from any kind of itch or skin disease of any nature do not fail to try this remarkable remedy. Pamphlets on skin diseases and their cure, diet, exercise, bathing, etc., free at our store. Howell & Jones.

Mr. Arley Pace and wife spent Sunday and Monday with H. A. Heater and family.
A representative of the proposed new electric road was in the neighborhood the first of the week looking after "right of way" for the road. An electric road would certainly be a grand improvement for this locality and without doubt be a money maker for the company.

Maple Lane school children are rejoicing over the fact that another school year is drawing to a close. A little less than two weeks and teachers as well as scholars will be free for the summer.
Mr. Angel has leased the Britton place for a term of three years. He recently came from Portland and expects to engage in the dairy business in a small way. He has purchased six Jersey cows and a cream separator and will sell cream to the creamery.

SIMPLE WASH CURES ECZEMA.

Itching, Burning Skin Disease Routed Without Use of Injurious Drugs.
Great inventors often have been praised for surrendering the secrets of their discoveries. Practically the same thing happens in the medical world in the case of Dr. Decatur D. Dennis, the eminent skin specialist, of Chicago.
Dr. Dennis, in his own office practice, discovered that pure vegetable oil of wintergreen, properly mixed with other simple remedies was practically a sure specific for Eczema, psoriasis, barber's itch, salt rheum, and other itching skin diseases. But the oil of wintergreen alone was found ineffective. It required other mild ingredients such as glycerine and thymol compounded with the wintergreen, to produce the real eczema cure.
This compounded D. D. Prescription positively takes away the itch at once—the instant it is applied to the skin. This vegetable liquid does away with deleterious drugs so long used in an attempt to doctor the blood, whereas modern science has determined that eczema is first and all the time a skin disease.
If you want to know more about the merits of D. D. D. Prescription, call at our store. We vouch for this remedy. Howell & Jones, Oregon City.
