

NEWS OF THE COUNTY

GLADSTONE.

Mr. Hull of the furniture factory has purchased lots between the Johnson and Harrington homes. Part of the material has arrived from the mills and as soon as a well can be sunk Mr. H. will begin the erection of a handsome residence.

Mr. Thompson of Portland has purchased a number of lots in west Gladstone. One house purchased is to be moved upon another lot where the foundation is now being prepared, and on the lot vacated Mr. Thompson expects to erect a handsome bungalow.

We wonder why some men, or men, means does not build a number of cottages for rent. It would certainly be a safe investment. Every day there are inquiries about houses and there is no doubt but what could be rented before school opens, September 20, if they were available.

While the carpenter work is not yet all done on the school house, it is now in the hands of painters, and as the window frames are being set it begins to give hints of its taste and architectural beauty. As soon as the material can be procured the plastering will be begun.

Articles of incorporation legalizing the recent organization of the Church of Christ have been filed. The officers and members of the church are considering plans and it is hoped they will soon begin the erection of a church edifice. Rev. Mulkey, the promoter of this project, was in Portland this week to meet the Oregon Missionary Board on business connected with this work.

Miss Rose Miller started this week for eastern Oregon, where she has contracted to teach in the high schools at Vale. While there she will make her home with her brother, B. W. Mulkey, who is now serving on his second term as county clerk of Malheur county.

Ray Bekley of the Hawthorne Fuel Co. of Portland was in Gladstone looking after the purchase of a quantity of wood. He will buy any quantity of oak and old-growth fir, paying therefor the highest market price. The firm handles wood, coal, hay and grain.

Mr. White is erecting a good-sized cottage on his lots near the Gladstone spot. There are hints that this is more significant than a desire to improve the town.

Pigeons for Profit.

Good stock is the secret of success. A lack of vigor offers inducements for disease.

Keep the visitors out of the loft, as their presence excites the stock and does harm.

Homers are of such a rugged condition that they thrive in any part of the United States or Canada, in all seasons.

Some permanganate of potash, enough to color the bathing water crimson, it is said, will help to keep the young birds in good health.

It is a mistake to allow food continually before the birds, as the old ones are apt to help themselves from time to time, but neglect to feed the young in the nests.

If the old birds with eggs appear uneasy and leave the nest very frequently to indulge in nothing but picking themselves, investigate at once, and you will probably find lice.

The American Stock-keeper says that if one of the flock should choose to be "cock of the walk," and fight for possession of the main portion, the plan of scattering feed about on the floor allows the timid to partake. Much can be said in support of this system of feeding on the floor, as it provides a natural way to keep the tips of mandibles in proper trim, thus doing away with a necessity of cutting for sake of comfort.—From August Farm Journal.

In making marmalades and butters of peaches, plums and like fruits, leave a few seeds in while cooking, and you will find that the fruit is less apt to stick to the kettle and burn.

THE HOOVER POTATO DIGGER. WILL DIG YOUR POTATOES TO YOUR ENTIRE SATISFACTION. The Hoover Potato Digger is the only successful potato digger used in the Northwest. It is built to do the work required and the manufacturers have spared no pains to make it the best digger on the market. It is made as light and as strong as possible. It has a twenty-two inch frame, which enables it to get all the potatoes. The vine attachment separates the vines and dirt from the potatoes, leaving the latter clean on top of the rows.

Do you take the Courier? If not, Why not? The Year only \$1.50. MAKING CREAM SEPARATOR HISTORY. The year 1908 will mark an important period in centrifugal Cream Separators. Probably never again will such a large number of valuable Separator improvements be brought forth as are now shown in the new improved 1908 De Laval machines. After thirty years of ceaseless testing and experimenting, the really perfect Cream Separator has at last been produced in the New De Laval. Nothing anywhere near like it has ever been made before and all who have seen and examined it marvel at the great degree of perfection attained in every feature of the machine from the supply can to the base. Although the improved De Laval has only recently been placed on the market it is already SWEEPING ALL COMPETITION ASIDE and experienced buyers everywhere are saying of it—"YOU DON'T CLAIM NEARLY ENOUGH." The many new De Laval improvements are of almost equal importance with the invention of the separator itself and must be seen to be fully appreciated. To this end you may have a free demonstration of the machine in your own home for the asking.

A Faithful Friend. "I have used Chamberlain's Colic, Cholera and Diarrhoea Remedy since it was first introduced to the public in 1872, and have never found one instance where a cure was not speedily effected by its use. I have been a commercial traveler for sixteen years, and never start out on a trip without this, my faithful friend."

All the Gold IN GEORGIA Could not Buy. Roding, Ga. August 27, 1908. Messrs. R. C. DeWitt & Co., Chicago, Ill. Gentlemen:— In 1897 I had a disease of the stomach and bowels. Some physicians told me it was Dyspepsia, some Consumption of the lungs, others said consumption of the bowels. One physician said I would not live until Spring, and for four long years I existed on a little boiled milk, soda biscuits, doctors' prescriptions and Dyspepsia remedies that flooded the market. I could not digest anything, and that Autumn happened to be my life ever. I bought a tiny cent bottle of KODOL DYSPEPSIA CURE and the benefit I received from that bottle ALL THE GOLD IN GEORGIA COULD NOT BUY. I kept on taking it and in two months I went back to my work, as a machinist, and in three months I was well and hearty. I will use it occasionally as I find it a fine blood purifier and I say you live long and prosper. Yours very truly, C. N. CORNELL. CONFORMS TO NATIONAL PURE FOOD AND DRUG LAW. This is only a sample of the great good that is daily done everywhere by Kodol for Dyspepsia.
