

SOCIAL WORLD

Pleasant Meetings for Those At Home-Summer Coolers.

Wed at Gladstone.

Mrs. Margaret E. Myers of Portland and John Holmes Delno, of Kingston, Mass., were married Thursday evening at 9 o'clock at the bungalow of Wm. LaSalle, brother of the bride, Rev. Mr. Mulkey officiating.

The guests were: Mrs. F. E. Gummer and Mrs. E. Callahan, of California; Guy E. LaSalle, Chehalis, Wash.; Dr. McMillan, Seattle; Howard Newhall, of Vancouver, Wash.; Mr. and Mrs. Leor, Mrs. Berger, Mr. and Mrs. Doyle, Misses Edna and Grace Doyle, Mr. and Mrs. Will Steed, Mrs. Hatch, Miss Helen Hatch, all of Portland; Mrs. Kraus, Misses Mildred Kraus, Nettie Kraus and Grace Miller, Mr. Deede, of Oregon City, and Mr. and Mrs. LaSalle, Gladstone.

The dining room was in pink and white sweet peas, asparagus fern and tulips; the living room in asters and vines; the den in ferns.

Refreshments were served during the evening and the guests left on the 11 o'clock cars for their homes.

The bride and groom will soon leave for their home in Kingston, Mass.

By Moonbeams Bright.

Monday evening at the Gladstone auditorium Miss Juliette Cross gave a quite a large number of friends. The evening was devoted to music, readings and various amusements and the grounds surrounding were brilliantly illuminated with Chinese lanterns and a dainty lunch was served. Those present were: Miss Frances Cross, Mr. and Mrs. William Hammond; Messrs. Thomas Burke, of Eugene; William Robinson, Harry Gordon, Leo Burdon, Percy Canfield, Harry Padlock, Misses Dorothy and Juliette Cross, Miss Maud Galogly, Miss Bossie Galogly, Miss Georgia Cross, Miss Stella Cross.

After a brief visit with friends in this city the Misses Frances, formerly of Oregon City but now of Portland, have returned to their home.

Mr. W. L. Yale, of Duluth, Minn., owner of the Yale Laundry in Portland, and wife, are visiting Mrs. Yale's sister, Mrs. L. M. Conlin.

Miss Clementina Bradford, teacher in Portland schools, is spending her vacation at Locust Farm, with Mrs. Ward B. Lawton of Mt. Pleasant.

Mr. and Mrs. J. J. Taggart of Des Moines, Iowa, who have been visiting at the home of Rev. and Mrs. T. F. Bowen, left for Salt Lake City this week.

Mrs. Franklin T. Griffith and two little girls, together with Mr. and Mrs. T. A. Pope and Miss Laura Pope, left Saturday for Tioga, Long Beach, Wash., where they expect to remain a month.

Mrs. Katie McDuffie, who has been the guest of Mrs. T. M. Conlin of this city for the past two months, left Sunday for a visit with her daughter, Mrs. C. Dompere, where she will remain for some time before returning to her California home.

Anyone who saw the clever production of "On the Frontier" at the Keylor Grand last night will be ready to accept the above recommendation of "Who in Name Only." The play last night was a real good production of a first-class western comedy drama, and it was one which passes from curtain to curtain. Every member of the troupe had his or her part done in good style and there were no uninteresting or dull moments during the whole evening. A western play deal- ing with frontier life is apt to be tiresome, but last night's was not at all so. Nor was it alone the play which pleased; the players were a well balanced troupe of artists who played their parts naturally and without the usual overdone scenes in the class of plays. It was a good show and one worth while.—Evening Statesman, Walla Walla, Wash. Will appear at Shively's opera house Saturday, Aug. 15. Seats 25, 50 and 75 cents.

Heart to Heart Talks.

By EDWIN A. NYE.

Copyright, 1908, by Edwin A. Nye.

A MARY BROWN MONOLOGUE.

"Who is that old maid yonder?" I'll tell you who she is. Her name is Mary Brown, daughter of John Brown. You remember John? He was a good hearted kind of ne'er-do-well.

Mary looks a little old—yes, even when she is "fixed up." But she has a good face, don't you think? And she is just as good as she looks. She is a woman "with a past," but the past of Mary has nothing dishonorable in it.

She is the oldest daughter and takes after her mother, who was a mighty nice woman who never had a chance. If you remember, they lived upstairs over a store building on Main street. John Brown worked, when he "felt well," at painting and wall papering. He complained that he had contracted "painter's colic" and had never got over it. Well, John never was very strong, and that's true. And one day when he was a substitute over at the stove factory a big knife machine cut off his right hand. After that he couldn't do much except at odd jobs.

Mrs. Brown? A smart little woman and ambitious. She always kept the kids looking neat and clean—three of them besides Mary—two boys and a girl. The woman just literally worked herself to death over the wash tub. Mary did the housework and helped.

Linen Shower for Bride Elect.

Miss Laura Gintner, one of Oregon City's most popular young ladies, was last night given a linen shower at the home of her sister, Mrs. C. Grazier, on Madison street. The shower was tastefully decorated with carnations and ferns, the dining room and hall with set palms. The greater part of the evening was given up to the game known as "Show." Prizes were awarded to Miss Mabel Francis for the most comical, while Miss Winnie Jackson captured the prize for the most quiet and amiable young lady. Later refreshments were served by the hostess, assisted by Miss Grayce Brown, Miss Blanche Miller, Miss Bertha Frederick and Mrs. Johnson of Vancouver. Miss Gintner was showered with many beautiful and costly linen pieces. As the hour hand pointed at the small hours of the night the guests departed, leaving the bride elect most happy wishes. Those present were Misses Hazel Francis, Mabel Francis, Gulialia Schubel, Winnie Jackson, May Bamby, Bertha Frederick, Edna Hamilton, Rheta Carothers, Elora Gintner of Portland, Pearl Miller, Wava Harrington, Grayce Brown, Blanche Miller, Laura Gintner, Mabel Scott, Mrs. H. Johnson of Vancouver, Mr. and Mrs. C. Grazier.

Annual Shirt Waist Dance.

The great dance given by the young men of this city at Canemah Park Friday evening was a humming success and a large number of people from this city attended. The pavilion was beautifully decorated and the music, which was excellent, was furnished by Parson's orchestra of Portland. The patronesses were Mrs. Charles D. Latourette, Mrs. A. L. Beattie, Mrs. Linn E. Jones, Mrs. Lowellyn Adams, Mrs. L. L. Pickens, Mrs. J. B. Lewthwaite, Mrs. E. A. Chapman. Those present were Misses Pratt, Draper, Shaw, Long, McClure, Frost, McFarland, Block, Baner, Cheney, Moore, King, McQueen, Rakel, Barnett, Shannon, Thompson, Pope, Franklin, Barnette, Holman, Hamilton, Hollister, Pope, O'Malley, Donelson, Bernice Kelley, Mr. and Mrs. L. L. Pickens, Charles Gottling, Linn E. Jones, L. Adams, E. A. Chapman, Franklin Griffith, Ted Osmond, J. E. Hedges, Henry O'Malley, H. S. Moody, A. C. Warner, and Messrs. Lee, C. S. Moore, Stratton, M. J. Cottrell, Robinson, Adams, Price Telford, T. S. Miller, Coe, Roberts, C. A. Schram, Beach, Stanton, Baker, E. Gordon, Avison, Good-fellow, Fletcher, Stipp, Swafford, Wentworth, T. Meyers, J. Richards, P. Chauld, G. E. Sullivan, E. Gannon, W. J. Mulvey, L. O. Smith, A. R. Barnett, C. M. Steinger, and Earl Lutz.

Mrs. Blount Entertains.

Saturday afternoon Mrs. A. Blount entertained at her home in Gladstone for Mrs. S. D. Simons who for several years has resided at that place and who left for her future home at Tacoma, Wash. The house was beautifully decorated with clematis and vines and refreshments were served. Mrs. C. A. Baxter, Mrs. Homer Rockwell, Mrs. S. D. Simons and Mrs. Whitcomb also entertained with Mrs. Blount and the entertainments on the afternoon were an animal drawing contest, the prizes being awarded to Mrs. Kennedy and Mrs. Dan, and an observation contest, in which Mrs. Clark and Mrs. C. B. Johnson captured the prizes. Those present were Mrs. S. D. Simons, Mrs. B. Fraytag, Mrs. H. E. Salisbury, Mrs. W. A. Williams, Mrs. E. Edward Harrington, Mrs. W. E. Johnson, Mrs. P. G. Wells, Mrs. T. S. Gault, Mrs. Grant Olds, Mrs. C. T. Toozie, Mrs. A. F. Parker, Mrs. Whitcomb, Mrs. Clark, Mrs. Rockwell, Mrs. Kennedy, Mrs. Barton Barlow, Mrs. J. Blount, Mrs. Dan, Mrs. C. A. Baxter, Mrs. Holwell, Mrs. Niederhouser, Mrs. C. B. Johnson, Mrs. A. Blount, Miss Blount.

Finely engraved announcement was received by Mrs. W. A. Shewman, Jr., of this city, Tuesday, stating that William Egbert Wheeler the Second, had arrived at the home of Mr. and Mrs. John E. Wheeler, who reside at St. Helens Court, Portland, July 31. Mr. Wheeler is the resident manager of the New York and Penna. Redwood Company, holding large tracts of the timber in Mendocino county, Calif., and Egbert, the second will undoubtedly be trained to be a good judge of trees when the time comes.

Mr. Mortimer Latourette returned to this city Tuesday evening with his bride, they having completed their wedding trip, taking in on their route a steamer ride from Seattle to Victoria and to Vancouver, B. C., and stopping for some time at a number of Sound cities and pleasure resorts at Seaside. Oregon City young people welcome Mr. and Mrs. Latourette back in their midst.

teen years of age. Yes, Mary is just thirty years of age.

Well, in all that fourteen years Mary Brown has scarcely had time to raise her eyes from her sewing at the cloak factory. She got a dollar a day for several years. She is a forewoman now and gets \$9 a week.

And, would you believe it, Mary Brown has kept those boys and the girl just as well dressed as the average? She kept her sister in school through the grades. One brother, John Junior, graduated last year in the high school. He helped Mary a good deal by selling newspapers. The other boy took a course in the business college, and Mary can now take a long breath.

The old man? Oh, he earned a dollar occasionally. And he was pretty handy round the house. Died a year ago. He had a very decent burial—Mary's money.

That's who Mary Brown is. And somehow, when you know what Mary has been and done, she is a pretty good looking woman, don't you think? Good? She's as good as gold.

And I'm telling you no secret when I say one of the best men in this town is going to marry Mary in the fall. He knows what Mary is, and he thinks a lot of her.

Say, there's many an old maid in this world just like Mary. I don't know how things would get along without some of them. But all of them are not as lucky as Mary, more's the pity.

LIBERAL.

There will be a dance at Wright's Springs Saturday, August 15th. Everybody is invited to attend and enjoy a good time.

POINTS FOR THE DAIRYMAN.

A spring scale with a pointer for the tare of the pail now makes the weighing of the milk easy and quick. This scale can be had from almost any hardware store at a small price, and the milk pails can be made of uniform weight by putting a little lead on the bottom of the lighter ones. The producer can buy milk record sheets, good for a month, with spaces for keeping the weights of milk from over thirty cows, morning and night, at a cost of 15 cents a year. These sheets, tagged on a board near the scale, with a pencil hanging by a string, make it easy to weigh and set down the result, which shows at a glance what every cow is doing in quantity of milk. This, carried out through the year, will be a great surprise to the producer, disclosing unsuspected good and bad qualities in his cows.

The yield of milk, however, is only a part of the value of the cow. To

WEIGHING THE MILK

really know her value one must apply the Babcock test. If he is not able to do this himself his state department station will test samples without cost to him, except the express charges. The average of two tests made from a two day composite sample of milk from each cow will give a very close approximation to the test of the whole year. By multiplying the number of pounds of milk for the year by the per cent of fat obtained from the two tests made on each cow at about six weeks after calving and again at about six months after calving he can know about the value of each of the cows in his herd. The advantage is that he can understandingly weed out the boarders from his herd, thereby increasing the net profit, and can tell which are his best cows to save calves from to add to the herd.—C. M. Winslow, Secretary Ayrshire Breeders' Association.

Feeding Young Cows.

My practice in feeding heifers from calfhood has been to give rations which would induce growth of bone and muscle, notwithstanding a generous supply of fat forming material, so that the little creatures were symmetrical beauties, says a prosperous dairyman.

When they began to milk I still gave them enough of such food to keep them from becoming thin, believing, for the manufacture of the greatest supply of milk they were capable of producing, they should be furnished the materials in their food and not be required to take it from their own bodies, and I believe if this method of feeding were more generally practiced there would be less tuberculosis among the dairy herds of the country.

Flaxseed Meal For Calves.

Ground flax is an excellent substitute for butter fat to be fed to calves. Use a heaping teaspoonful to every feed of milk while the calf is from two to six weeks old, provided you are feeding skim milk. As the calf grows older gradually increase the flaxseed meal until the calf is getting about a heaping tablespoonful with each feed. This flaxseed may be mixed with the milk, but never mix cornmeal or any other ground feed that contains a good deal of starch with the milk, as that is very apt to produce scours.

The reason for that is that starchy foods must be mixed with saliva before digestion can take place, and anything that is drunk with the milk does not become mixed with saliva, and consequently it fails to become digested and acts as an irritant to the alimentary tract.

Salting the Butter.

It is needless to say that nothing but the best grade of salt should be used in salting butter. I would prefer the flake salt, as it dissolves more readily and is not so liable to make mottles, says a dairyman. Salt adds flavor to the butter and materially increases its keeping quality. Buttermakers differ as to the amount of salt which should be used in butter. Very high salting, however, has a tendency to detract from the fine, delicate aroma of butter, while at the same time it tends to cover up slight defects in flavor. Salt very readily absorbs odors and must therefore be kept in a clean, dry place, where the air is pure. It should be of the same temperature as the butter when used.

Fly Cover For Cows.

To keep flies off the animal while milking is in progress a coarse woven fly cover can be thrown over her, and in a bad season such covers can be left on during the day to good advantage.

Diarrhoea Cured.

"My father has for years been troubled with diarrhoea, and tried every means possible to effect a cure, without avail," writes John H. Zirkle of Phillips, W. Va. "He saw Chamberlain's Colic, Cholera and Diarrhoea Remedy advertised in the Phillipi Republican and decided to try it. The result is one bottle cured him and he has not suffered with the disease for eighteen months. Before taking this remedy he was a constant sufferer with the disease. He is now sound and well and, although sixty years old can do as much work as a young man." Sold by Huntley Bros., Oregon City and Molalla.

WOUNDS OF LIVE STOCK.

How Injured Animals May Be Treated by the Farmer.

By GEORGE H. GLOVER, D. V. M., Veterinarian Colorado Agricultural College.

Animals on the farm are continually being injured by accidents that happen in a thousand different ways. Barbed wire cuts are most frequent, and a word or two of advice as to the proper treatment in the hands of farmers will not be amiss.

The ordinary wound will heal of itself if not interfered with. This interference may be from germ infection, parasites or too much meddling with various applications on the part of man. Now, let us suppose a case. A horse has a badly lacerated leg from contact with a barbed wire. The first thing to do, of course, would be to stop the bleeding. This can be accomplished by a tight bandage of clean white muslin tied directly over the wound or above it. Often the bleeding artery will protrude, and a thread can be run under it with a needle and the artery tied. Do not use flour, dirt or colicels or anything of that sort on the wound. They are unnecessary and may produce a dangerous infection.

Having stopped the bleeding, remove the clots of blood and cut off the ragged edges of muscles with shears. A pan of antiseptic solution should be provided. After having cleaned out the wound wash it thoroughly with the antiseptic solution. See that there is good drainage from the wound at the bottom. Do not allow it to start healing with a pocket that will hold pus. As it is practically impossible to keep a wound on a horse antiseptic, it is not advisable for the farmer to tie up the wound. Leave it exposed to the air and apply the antiseptic wash several times a day. Three good antiseptics are corrosive sublimate, which can be purchased at the drug stores in tablets all ready for use; formalin and boracic acid solution.

After about a week it is well to change to dry dressing. A powder composed of equal parts of boracic acid, charcoal and iodoform makes a very good dry dressing. Clean air slaked lime powdered over the wound twice daily is very satisfactory. The so called "proud flesh" is only unhealthy granulation. It is seldom advisable for the farmer to interfere with this condition by using caustics. The results are usually disastrous. Better in this case to call in a qualified veterinarian. If maggots should get into the wound a little turpentine or chloroform will help bring them to the surface, where they may be picked out. I did not mention sewing up the wound for the reason that in case of the ragged barbed wire cut it is very seldom worth while to do so.

A wound to heal properly must be got perfectly clean and free from germs from the start and then kept clean. Remember that it is largely a matter of keeping dangerous germs out and giving nature a chance. Too much interference is often the cause of tardy healing of wounds.

Feeding the Cow.

Feed the cow all the hay or other roughness she will eat, even if she is running on good pasture. Her appetite tells her better what she needs than you can tell.

THE DAIRYMAN.

The following remedy is recommended for the cow that slobbers: Ammonia chloride, one ounce; gum camphor, one-half ounce; pulverized gentian, two ounces; add molasses to make a paste. Put some on tongue twice a day until relieved.

Experiments in Buttermaking.

The following conclusions were reached after tests made in some Ontario experiments: Sweet cream was churned in less time than ripened cream. Buttermilk from sweet cream contained more fat than buttermilk from ripened cream. The moisture content of the butter was fairly constant, averaging 13.79 per cent. Butter made from gathered cream was as good as that made from cream separated at the factory.

Drains For Dairy.

Every dairy room or cream skimming room should have good drains, cement floors and plastered and whitewashed walls, and the floor should have slope enough to carry off all water to the drains. Sanitary methods do not mean expensive methods, but that all of the buildings, tools, utensils and men employed must be neat and tidy and kept free from bacteria. Some of the best and most sanitary creamery rooms are the least expensively equipped.

Remedy For Ropy Milk.

Ropy or stringy milk is oftener than otherwise caused by the cow drinking stagnant water or water from an impure source, such as a marshy, mucky spring branch. The remedy is to supply absolutely pure and absolutely clean drinking water, just as good as you provide for your family. In addition, give the cow two drams of bisulphate of soda once a day in the drinking water.

Good Sires.

As the average farmer is not generally able to invest in a herd of full blooded stock to commence with, the next best course will be to grade up from the herd owned by the use of pure bred sires of the best type. In every herd there should be some good cows, very good ones, of real dairy type. Raise the heifer calves from these, but never from an inferior cow. The idea should be to get rid of the poor cows as fast as possible and replace them with the heifers that are being grown for the purpose.

Granulated Sore Eyes Cured.

"For twenty years I suffered from a bad case of granulated sore eyes, says Martin Bord, of Henrietta, Ky. "In February, 1903, a gentleman asked me to try Chamberlain's Salve. I bought one box and used about two-thirds of it and my eyes have not given me any trouble since." This salve is for sale by Huntley Bros., Oregon City and Molalla.

Oregon City Courier for one year, and beautiful oil painting, all for \$2.00. Send in your subscriptions at once. Over 200 paintings to select from.

Phonograph!

YOU CAN'T KEEP IT OUT

The Phonograph is bound to get into every home. How long will you keep it out of yours? The charming music; the delightful fun; the refreshing entertainment of which you never tire—all these you owe to yourself and family.

What a Dollar WILL DO

A DOLLAR A WEEK buys a Victor, Columbia or Edison, and you have it while you are paying for it. A dollar a week gives you the living voices of the greatest singers; the stirring music of the world's greatest bands; instrumental solos, duets and quartets, by accomplished artists; the popular songs of the day; the best dance music, in perfect time and rhythm and loud enough for dancing; sacred music; comic music; all kinds of music and all kinds of fun. Come and learn particulars of our easy payment plan.

We will duplicate any offer made by any Victor, Columbia or Edison Dealer in the United States
