MAKING CREAM SEPARATOR HISTORY. The year 1908 will mark an important period in centrifugal Cream Separators. Probably never again will such a large number of valuable Separator improvements be brought forth as are now shown in the new improved 1908 De Laval machines. After thirty years of ceaseless testing and experimenting, the really perfect Cream Separator at last has been produced in the New De Laval. Nothing anywhere near like it has ever been made before and all who have seen and examined it marvel at the great degree of perfection attained in every feature of the machine from the supply can to the base. Although the improved De Laval has only recently been placed on the market it is already SWEEPING ALL COMPETITION ASIDE and experienced buyers everywhere are saying of it—"YOU DON'T CLAIM NEARLY ENOUGH." The many new De Laval improvements are of almost equal importance with the invention of the separator itself and must be seen to be fully appreciated. To this end you may have a free demonstration of the machine in your own home for the asking. Mr. W. P. Kirchem, the agent for Oregon City, has arranged with FRANK BUSCH to have one of the machines in his store where the merits can be fully examined and catalogues be obtained. All the Gold IN GEORGIA Could not Buy. Roding, Ga. August 27, 1908. Messrs. R. C. DeWitt & Co., Chicago, Ill. Gentlemen—In 1897 I had a disease of the stomach and bowels. Some physicians told me it was Dyspepsia, some Consumption of the Lungs, others said consumption of the Bowels. One physician told me it was not till Spring, and for four long years I existed on a little boiled milk, soda biscuits, doctors' prescriptions and Dyspepsia remedies that flooded the market. I could not digest anything I ate, and in the Spring 1903 I picked up one of your Atlantas as a poor associated Dyspepsia wreck will grasp at anything, and that is what happened to be my life saver. I bought a five cent bottle of KODOL DYSPEPSIA CURE and the benefit I received from that bottle was THE GOLD IN GEORGIA COULD NOT BUY. I kept on taking it and in two months I went back to my work as a machinist, and in three months I was well and hearty. I still use a little occasionally as I find it a fine blood purifier and I live long and prosper. Yours very truly, Q. N. CORNELL. CONFORMS TO NATIONAL PURE FOOD AND DRUG LAW.
