

Sell All Or Loose It

IN CASE OF FIRE

That is just the position Frank Busch is in with his immense Furniture Stock at Eleventh and Main Streets, Oregon City

THE MAMMOTH STOCK OF FRANK BUSCH

It is without protection by the edict of the insurance companies--they will not insure him against fire except at rates that are positively prohibitive. No conservative business man can carry a \$50,000 stock and carry his own insurance. Mr. Busch has, therefore, but one alternative--to sell out his stock to a point where he can afford to carry it. To accomplish this he has placed his entire stock in the hands of the

National Brokerage & Sales Company

WITH POSITIVE INSTRUCTIONS TO

CONVERT IT INTO CASH IN THE NEXT 10 DAYS

We had the Store closed for three days and with a small army of assistants we re-marked every article in the store--at prices that will start homeward every dollars worth of this stock. And since the opening on Wednesday this place has been a veritable bee hive of bargain hunters and none have been disappointed, for never before has a high class Furniture Stock been sold for so little money.

A Few Bargains Taken at Random
