Roding, Go. August ST, 1906, MRRANS, R. C. DAWITT & Co., Chicage, Ille.

Gentlemen:

In 1897 I had a disease of the stemach and bowels. Some physicians told mail twas Dyspeesia, some Consumption of the Lungs, others said consumption of the Europe, others said consumption of the Bowels. One physician said I would not live until Spring, and for four long years I existed on a little boiled milk, eods biscults, doctors' prescriptions and Dyspepsia remedies that flootied the market. I could not digest anything i ats, and in the Spring 1903 I pleaded up one of your Almanacs as a poor sewadated Dyspepsia wrack will grasp at anything, and that Almanac happened to be my life saver. I bought a fifty cent bottle of KODOL DYS-PRENIA GURE and the benefit I received from that bottle ALL THE GOLD IN GEORGIA COULD NOT BUY. I kept on taking it and in two months I want back to my work, as a machinist, and in three months I was well and hearty. I still use a little oecasionally as I find it a fine blood purifier and a good tonic.

TWO LABOR SAVERS

The Manure Spreader A GOOD CROP

HE ROSS Manure Spreader is entirely automatic. The Web never has to be cranked back into position. It has a bottom that is a great improvement over the endless bottom. It breaks up the manure very fine and distributes it evenly no matter what the condition may be. It has extra heavy chains and gearing and is in every way a perfect manure spreader.
