man, who is eminent in any science, and then to use it as legally acquired. and pass the source in total silence .-Horace Walpole.

though we could never see why the barrel scald. That is, they have be-breakfast table was uniquely expen-come discolored by being mottled sive as compared with the dinner or with a brown colored disease of the breakfast table was uniquely expensive as compared with the dinner or supper table; but there is a peculiar-sity of the American table of the well to do, (and by the way there is no other kind in America) in that butter appears there three times a day. It is a fact well known that American butter of the choicest brand is sold in Europe at from five to ten cents a In cold storage this is especially had. Europe at from five to ten cents a pound less than it can be bought for in the country of its origin. The reason is that there it competes with the butter of Lenmark, Holland, England Switzerland, France and the could storage this trouble has been. In cold storage this trouble has been, to the president's denunciation of him. What could be more unseemly for the head of a nation of eighty millions!

The first two days' registration at the condess of Aldersea and the could storage this trouble has been. It to the president's denunciation of him. What could be more unseemly for the head of a nation of eighty millions!

The first two days' registration at land Switzerland, France and the Islands of Alderoey and Jersey. The butter of the United States is protected in the markets of a nation of S5, 000,000 of inhabitants where the tariff has routed competition. This winter butter will reach fifty cents a pound. There is a butter trust octopus which the home sorpely, demands stage has been reached than in the food is a thing of the past Everything in the dining room is highly taxed except coffee, ten and pepper.

These are the only articles, by the way upon which the Briton pays His butter, meat bread, linen, table, chairs, fruits and vegetables are free and he gets them at a lower price than they can be bought else-where in the world. One of these days the political issue will be cheap food and it will sweep the country Taft may not share the fate of the an epidemic. Cold storage sheep "innocent bystander" and beef from Argentine and frozen rabbits from Australia will be brought in free with butter from Denmark and Ireland to reduce the out-rageous price that the trusts have imposed on the very means of life.

In the hurly burly of the presiden tial campaign occupying so much of the time and thought of all, we are apt to overlook happenings and indiapt to overlook bappenings and indi-cations that would at other times be accounted of importance. News has come that an illustrious Chiraman. Tang-Sino-Yi, is on his way from the Celestial Kingdom accompanied by a content of the c variegated retinue only less brilliantly decorated than himself. He comes bearing gitts from the Sun of Heaven himself, as the Chinese express it, and a letter to the president express-ing thanks for a return of about eleven millions of dollars of the Boxer indemnity tund which the United States gave back to China. It is probable that not one Chinaman in a thousand has ever heard of the return of this fund and it would take nothing short of a liberal education in a language unimagined in China to language unimagined in China to make the nine hundred and ninety-nine Chinamen cognizent of the fact and it would take much more than that to make them understand the mitive of it. Of those however who have heard of it, the majority believe and boast that the United States have been impressed and even appalled by the might and glory of the Celestial Empire and that they have returned the great sum in fear and as a polite bribs to be spared the further anger. bribe to be spared the further anger of the San of Heaven. Even govern-ment officials an 1 men of high intelligence in other matters share this

great imp rtance of good roads again; if all do not realize the importance. the majority certainly do, and know how greatly any community will be white benefitted by good roads. If this be tree. true, the work now is not so much to conduct a campaign of education as to devise ways and means by which move forward to attain the desired This can be done to some extent by single communities-as it has been done in the Alsea neighborhood, been done in the Aless Assets. It can be for instance, and in others. It can be done under the law by counties, and much will be done in this way. But much will be done in this way. But in the near future it is probable that the state itself will take an active. affirmative hand, aiding counties with state founds. The money expended under such a law, if wisely used, would return to the communities, the counties and the state many fold, within a few years. A start has been made. Everybody should help the movement along. Good roads are of prime importance.

Alaska, which a few years ago as-tonished the world with the magni-tude of its gold discoveries, no longer leads the list of American gold producing states and territories. It may be surprising to many thousands who have rushed into the dangers of the far north and suffered all of the discomforts and expense of an Alaskan dren's trip to learn that civilized, easily Scattle. accessible Colorado last year produced \$20,897,000 in gold, compared with \$18,489,400 produced in Alaska. Ever California, a state in which gold mining can be followed with at least some of the "comforts of a home. was very close to Alaska with an ontput of \$16,858,500. These official fig-ures, which have just been issued by the government, show that it is not yet necessary to go beyond the con-fines of the United States in order to find gold in paying quantities.

It is announced that the Harriman lines will place steel passenger cars in service on all of their lines, an order for 220 of the new type having been placed with the Pullman company. A steel car will not prevent accidents when a careless enigneer runs past danger signals and collider with another train, but in the ensuing smash the steel cars will undoubtedly be the means of saving many lives which, with the wooden cars now in use, are either crushed out of exis tence or consumed with fire that nearly always accompanies a bad train-Safety appliances have worked wonders on many of our railroads, but, so long as there is so much dependent on the individual, and the Individual is subject to the occasional fatal lapse, there will be disasters in which a steel car will be the means of preventing loss of life. When to Gather Apples,

The special time when each variety of apples is in the proper condition to gather is a very serious question. Not only do the varieties differ but the seasons as well, so that no set rule can be laid down that will al-ways apply wit good effect. There are frequent mistakes made by gathering too early and also too late, There have been very careful experiments conducted for several years in succession to determine at what stage of maturity, as indicated by color, It is a special trick of low cunning to squeeze out knowledge from amodest man, who is eminent in any science, trees until well colored rather than those picked before that period, provided they were at once put in a very cool storage room or in cold storage Much is said about the disappear-immature, or even moderately so, ance of the cheap breakfast table, have often been badly affected with though we could never see why the barrel scald. That is, they have be-

limits the home supply, demands stage has been reached than in the whatever price it chooses and sends north, and the warm autumn days its surplus to Europe for any price it will bring. In a country of more abundant plenty than any other cheap less judgment that can be mustered

It is to be hoped that in the three cornered scrimmage between Messrs.

There are said to be 90,000 women in New York who are over seventy years of age. This of course does not take into account the New York chorus girls who are on the road.

Excitement prevailed on the streets and in public places at Medford, Ore., Thursday, when it became known that oil had been struck two and one-hal miles east of that town. Many

The numerous Hearst publications have been personally represented throughout Oregon and Washington recently by kay Washington Taylor, who is writing a series of articles showing agricultural, industrial and horticultural actualities in this portion of the United States. Mr. Taylor is on the staff of the San Francis-

Satisfied that he can get better prices for his fruit than the eastern buyers are now offering, J. I. Dumas. proprietor of the Pomona ranch at Dayton, Wash., will, soon after the first of October, start for the east in Anent the proposed new railroads first of October, start for the east in through Oregon the Portland Journal ac effort to find his own market. The says: "More sailroads will not obwagon roads; will rather increase that necessity. It is hardly necessary to go over the arguments that show the great importance of good roads again; and Yellow Newton Pippins. There are upwards of 8000 apple trees on the ranch, from nine to twelve years old, which will average six boxes to the

There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp-Root, the great kidney remedy, ed Dr. King's New Discovery. I began taking it, and three bottles affected a complete cure." The fame of this life saving cough and cold remedy, and lung and throat healer is world wide. Sold at Jones Drug Co. 50c and \$1.00. Trial bottle free.

Swamp-Root, the great kidney remedy, fulfills every wish in curing rheumatism, pain in the back, kidneys, liver, bladder and every part of the urinary passage. It corrects inability to hold water and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go often during the day, and to get up many times during the night. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists in fifty-cent and one-dollar sizes.

ARE MICROBES IN YOUR SCALP Many Explanations of Baldness Have

Been Advanced. The Most Cor-rect is That of Microbes. The term "microbe" refers to a par-

sitic plant or fungi also called bacteria. A microbe is so small that it can only be detected by the aid of a microscope. Some microbes are harm less, while others produce various disises, and derive their titles through the form of their growth or of the diseases they create, which disases are infectuous or contagious.

Prof. Unna of Hamburg, Germany and Dr. Sabourand, the leading dermatologist of France, discovered that a microbe caused baldness, and their theory has time and again been amply verified through research experiments carried on through observation of eminent scientists. lodges in the Sebum, which is the nat-ural hair oil, and if permitted to flourish, it destroys the hair follicles, and in time the pores entirely close and the scalp gradually takes on a shiny appearance. When this happens there is no hope of the hair growth being

Dandruff is a contagious disease which a microbe causes, and later produces itching scalp, falling hair and baldness. Dandruff is causer by the microbe diseasing the sebaceous matter, which dries up and scales off. Sometimes the cuticule surrounding the hair allows the natural oil of the hair to force its way between the flakes force the mapart and they scale and the microbe being between the flakes force them apart and the scale off in dandruff. We have a remedy which positive-

ly will remove dandruff, exterminate the microbe, promote good circulation in the scalp, tighten and vitalize the hair roots, grow hair and cure baldness. We back up this statement or our own personal guarantee that this remedy, which is called Rexall "93" Hair Tonic, will be supplied free of all cost to the user if it fails to do as promise. It will also restore gray and faded hair to its original rich. glossy color, if loss of color has been caused by disease, yet it is in no sense a dye. Rexall "93" Hair Tonic accomplishes these results by making every hair root, follicle and pigment gland strong and active, and by stimulating a natural flow of coloring pigment into the hair cells.

Rexall "93" Hair Tonic is entirely free from grease or sediment, is ex-ceedingly pleasant to use and will not gum the hair or soil the clothing or

pillows. We want everyone troubled with hair or scalp ailments, even though they are bald in spots, to try Rexall "93" Hair Tonic on our guarantee, and simply ask you to give it a thorough we will refund the money paid us Huntley Bros. Drug Co., Main Street, Oregon City.

CAN DRAW CHECKS

THEN you open a checking account with a bank you are given a Psss Book in which your deposits are entered and which is your receipt for same. You are also given a Check Book from which you make checks on the account in settlement of bills that you may wish to pay. This saves you the trouble of making frequent trips to the Bank and also avoids the danger of keeping money at home. It is not necessary to have a large amount of money to open a checking account.
