There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it to be a local disease and prescribed local remedies, and by constantly falling to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address: F. J. X STAR WIND MILLS

Suburban Wind Mill Outfit

WHY?

Because there is no other windmill outfit that will compare with the STAR. Not only will it furnish plenty of pure water for domestic purposes, but it will maintain a pressure for use in case of fire, thus lowering your insurance rate.

This windmill outfit will pump plenty of water for your stock and for sprinkling purposes. Many farmers use them for irrigating. Galvanized after making every part thoroughly coated, no part can rust. Galvanized Bolts, Double nutted, can't get loose and rattle. Ball bearings in the turn-table. Turns freely in the wind.

Ball Bearing thrust in the wheel, runs in lightest wind. Least possible amount of power absorbed by friction. Greatest possible amount of power reserved to perform the work to be done. Weight Regulators—always the same. Do not vary with age and temperature as does a spring regulator.

All Star outfits should be equipped with Myer's Pumps, then you have the best possible in every feature of your water supply plant.

A pontoon bridge, of the draw pattern (Supposed to be drawn out of the river before a flood) has been maintained for two seasons.

The Molalla school is progressing nicely under the instructorship of a Jay(ful) Ridings, Case and if names count anything we'll have a good school.

A GOOD STOMACH. Means Good Health, Cheerfulness, Ambition, Persistency and Success.

Relief is not cure; opium will stop the most excruciating pain, but it won't cure the disease.

And it is just the same with alleged dyspepsia cures which contain opium. The opium will stop the pain, but the stomach is left in worse condition than it was before.

You don't want any opium to digest your food; you want the natural juices of your stomach to digest your food. If you have dyspepsia or any stomach trouble, you want to make your stomach so strong that it will digest its own food.

You can make your stomach so strong that you can eat what you wish and all you want any time you want it, without distress.

MI-ONA will cure your dyspepsia or any other stomach trouble by building up the flabby walls, and making the stomach so strong that it will digest food without artificial aid.

Jones Drug Co. is the agent for MI-ONA in Oregon City and they say to every reader of the Oregon City Courier whose stomach is weak, who has indigestion or dyspepsia, that MI-ONA is guaranteed to cure or money back.

The price is only 50 cents a box, and one box is all you will need to prove that you are on the right road to health and happiness.

"I can't say enough about MI-ONA tablets; they have done more for me in one week than all the doctors have for the two years I have been under their care, and I will do all I can to recommend it to my friends. You can also use my name in your ad, if you like, for MI-ONA is better than gold to me. I am like a new man, and am able to work once more for the first time in over a year."—W. A. Drink Talk. There is hardly a spot inside of the tropic zone where tea or coffee cannot be grown, possibly barring the Sahara Desert. So it is natural to suppose that there are a hundred different qualities of teas and coffees.

It is a matter of your personal taste as to what suits you best. In Japan the natives brew tea that Americans would not care to drink—you would probably call it "vile stuff."

The way to find tea or coffee that is just exactly what you like is to keep trying different brands until you find yours.

Our understanding of the tea and coffee situation has made it possible for us to select a number of grades that pretty nearly cover the whole scale of variation in taste.

We can just about guarantee to give you the finest "cup" you ever tasted if you will sample a few of our brands.
