

Oswego. The Oswego Women's Club will meet at the home of Mrs. Smith, Wednesday. The club is taking French History as a study for the year, and find it very instructive and entertaining.

The new shop has not as yet resumed operations, but the hope is that it will start after election. Several new houses are being erected, and Oswego will in the near future be one of the most important suburbs of Portland.

The O. I. & S. Co. are having some of their houses painted. Frank Davidson took his little son to the hospital this week to undergo an operation.

S. E. Cox is taking orders for the Lafayette Nursery this week.

Boring. Some excitement was caused last week by the rapid rate at which F. K. Jones' cream wagon came down the avenue.

The horses started a short distance from the creamery and stopped by running into a stump near the Methodist church. The harness and wagon received slight damage.

The addition to the flour and feed mill is nearing completion.

Mark Wilmarth has accepted a position as agent in the F. R. L. & P. Co.'s freight office at Boring.

The well at the schoolhouse has been completed and a pump installed. The grounds will be enclosed by a neat wire fence in the near future.

There are at present 65 pupils enrolled in the school, and the attendance is unusually good for this time of the year.

Seeks News of Husband. Mrs. Charles Zieselman, of Portland was in this city Wednesday forenoon in an endeavor to learn of the whereabouts of her husband, Charles Zieselman, who has been missing about six weeks. The missing man is of German extraction, about 35 years of age, with light hair. He was in Portland for six weeks, and went from there to Salem in the hopes of finding work, and he was in the latter place about 3 weeks. Since that time Mrs. Zieselman has not heard from him. Hearing from a friend that a man was found in the Clackamas river about a month ago, Mrs. Zieselman came to this city and sought Coroner Holman in the hopes of establishing the identity of the man. The coroner knew nothing about there being a man found in the river, and told the woman that her neighbor must have been misinformed about the place where the body was found.

Will Open Night School. Professors W. C. McKee, superintendent of the Oregon City schools, and A. K. Hill, principal of the Eastham school, are making preparations to open a night school in this city. It is their intention to teach a grammar school course, and courses in bookkeeping, shorthand and type writing, but those desiring can receive individual instruction in almost any line of study. The school will open November 16, but the exact location has not been decided upon as yet. There has been a crying need for an institution of this kind in this city, as many young men and women leave school in the lower grades, to work in the mills and factories, and growing a few years older, realize their folly when they are too old to attend the public schools.

Two Attachment Suits Filed. Two attachment suits have been filed in the circuit court this week. O. A. Ratliff, through his attorney, George Brownell, has commenced an attachment suit against A. J. Rosier to recover \$275 still due him for constructing a residence in Oswego, and \$189.30 for extras for the same building, ordered at the instance of the defendant. He seeks for the \$464.30 and a reasonable rate of interest.

A. L. Womack has instituted a suit against Frank Beck. On October 24, Beck purchased the fixtures of the Portland House and the lease on it from the plaintiff agreeing to pay \$1200 for the same. So far he has only paid one-half of this sum, and through Dimick and Dimick, Womack seeks to recover the other \$600.

Erickson Again in Hot Water. It seems that the troubles of August Erickson, proprietor of the Clackamas-Health Resort, will never cease. It was thought that he got it "rubbed in" ban enough when he was arrested on charges of selling liquor without a license, but this was followed by a suit to recover money due for painting and papering the tavern. No sooner was this suit dismissed, than another was instituted, this one by C. G. Miller, to recover \$254.75, still due for furnishing electrical supplies for the tavern and for repairs for the big red auto that has been continually on the road between this city and the tavern. He appears to have forgotten to pay his bill with the Olympia Brewing Company, as Miller is endeavoring to collect \$90 due them.

Why Colds Are Dangerous. Because you have contracted ordinary colds and recovered from them without treatment of any kind, do not for a moment imagine that colds are not dangerous. Everyone knows that pneumonia and chronic catarrh have their origin in a common cold. Consumption is not caused by a cold but the cold prepares the system for the reception and development of the germs that would not otherwise have found lodgment. It is the same with all infectious diseases. Diphtheria, scarlet fever, measles and whooping cough are much more likely to be contracted when the child has a cold. You will see from this that more real danger lurks in a cold than in any other of the common ailments. The easiest and quickest way to cure a cold is to take Chamberlain's Cough Remedy. The many remarkable cures effected by this preparation have made it a staple article of trade over a large part of the world. For sale by Huntley Bros. Co., Oregon City and Molalla.

To Hear McCalley. Many from this city will go to Milwaukie Friday evening to hear Chas. Riley McCalley, the violinist and reader. Mr. McCalley has given a number of entertainments in this city and was well received in every instance. His readings from the droll writer, James Whitcomb Riley, are fine and he has been styled Riley the Second, because of the likeness that he puts into the readings. The following Monday Mr. McCalley starts on a tour of the Willamette valley which will take him up to the first of the new year, and will continue the balance of the season through the southern part of the state and will later take in the Coos Bay country.

Two Men Receive Bad Fall. F. S. Black, foreman of the men who are building the addition to the Eastham school, and his son, F. S. Black, Jr., received a bad fall yesterday while they were at work on the building. Some scaffolding on which they were standing gave way at noon time, and the two fell twenty feet. Fortunately, no bones were broken, although the two were badly shaken as a result of their mishap. They were taken to their home in Portland, and will remain there till they have recovered from the effects of the fall.

CONFIDENCE.

We Back Up Our Statements With Our Personal Reputation and Money.

We are so sure that we can cure constipation, no matter how chronic it may be, that we offer to furnish the medicine free of all cost if we fail. It is worse than useless to attempt to cure constipation with cathartic drugs. Laxatives or cathartics do much harm. They cause a reaction, irritate and weaken the bowels and make constipation more chronic. Besides, their use becomes a habit that is dangerous and often fatal. Constipation is caused by weakness of the nerves and muscles of the large intestine or descending colon. To expect a cure you must therefore tone up and strengthen those organs and restore them to healthier activity. The discovery of the active principle of our remedy evolved the labor of the world's greatest research chemists. It possesses all the best qualities of the remedial active principle of the best known intestinal tonics, and it is particularly prompt in its results. We want you to try Rexall Orderlies on our guarantee. They are exceedingly pleasant to take and are ideal for children. They act directly on the nerves and muscles of the bowels. They have a neutral action on other organs or glands. They do not purge or cause any inconvenience whatever. They will positively cure chronic or habitual constipation and the myriads of associate or dependent chronic ailments. Try Rexall Orderlies at our risk. Huntley Bros. Co., druggists, Main St., Oregon City.

Frank Walsh Dies in California.

Word has been received from Sacramento of the death in that city, on Sunday, October 18, of Frank Walsh, formerly of Milwaukie, Oregon. The deceased was born in New York in 1872, and came west with his parents in the year 1877. At the outbreak of the Spanish-American war he enlisted in the Second Oregon Volunteer Regiment, which was stationed at the Presidio. While there he took the scarlet fever, from which was contracted Bright's disease, which disease was the cause of his death. The last year he spent in traveling, in hopes of regaining his health. He is survived by his widow and three children, a mother, four brothers, and two sisters. His wife and children were at his bedside at the time of his death.

Dies in Portland Hospital.

John Francis Miller, a former resident of this city, died Saturday night, received a bad fall Tuesday Portland. Deceased was 73 years of age. The funeral services were held in Holman's undertaking parlors in Portland Monday, and the body was shipped to this city and buried in Mountain View cemetery, Rev. T. F. Bowen of St. Paul's Episcopal church performing the services at the grave. The pall bearers were all former friends of the deceased.

Mr. Nicholas Longworth says that we should have eight years of Taft and then eight more years of Roosevelt. Truly the thoughts of youth are long, long thoughts.

Asking Too Much.

I believe there's a story told of Mark Twain that in youthful days, being sent out by his mother to weed a certain flower bed, and finding more weeds than flowers, he came back in and asked if he might not "flower the weed bed." Our little Alfred probably has as great an aversion to work as had the youthful Clemens. Admitted to pull some rather large weeds in the back yard, after a faint-hearted lift on one of them, he shouted: "Mama, how do you think I'm going to pull these weeds when the whole world is hitched onto them?" —November Woman's Home Companion.

Weak Eyes Made Strong

Thompson's reputation for Fitting Eyes has been established by years of Honest Treatment. His first concern is to maintain this record. Your Eyes deserve the best

Thompson's Glasses are wonderfully successful because back of them is a Man who knows his business

Moree, Germany's Foremost Physician, says: "The rapidity and accuracy with which Thompson corrects eye troubles is nothing short of marvelous." The British Optician, London, May 29, 1908, says: "The wonderful skill with which Thompson discovers the various defects of the eye has caused quite a sensation among the eye specialists of Europe." That many of the cases fitted by Thompson are absolutely incurable by methods other than those he employs is a fact that cannot be successfully disputed. Over fifty of Portland's best physicians now send Thompson their patients when they suspect eye strain, "because," as they themselves express it, "of the superior methods of his examination."

No charge for Expert Examination and advice. Perfect Fitting Glasses as Low as \$1.00. All Corrections Guaranteed.
