A \$12,000 Check

DO YOU THINK the postman will leave at your door, next New Year's Morning, a \$12,000 check? That very thing would happen every year of your life had you invested \$1,000 in Munsey's Magazine when that enterprise was young. But of the thousands who listened to the **Munsey Idea**, few had faith in it. These few are the ones who every year receive twelve times their original investment in dividends. Perhaps you would have passed up the **Munsey Idea**. Perhaps you will pass up the **Bonville Idea**. You will also, some day, look back to the neglected opportunity of investing \$100 where it would have yielded you a comfortable living for the remainder of your life. You may also be one of the few who will grasp the idea that will yield such reward as befell the **Munsey faithful**. Back of the **Bonville Idea** is a half-million dollar guarantee, subscribed by substantial business men. The great work that guarantees great success is accomplished. The few dollars that are required to perfect the undertaking will be furnished by those who dare to be leaders—not by those who pursue a lifelong journey in beaten paths. You may be such an one. If so you are invited to investigate, possibly you may go away convinced that the **Bonville Idea**, in the magazine world, is greater than the **Munsey Idea**. Perhaps you may return to back your conviction with an investment of \$100, \$200, or even \$1000

Every person without a single exception who reads this should resolve to give a single hour to looking into a proposition such as presents itself but once in a life time.
