CHAMPION SKATERS MEET

Amateurs of the United States and Canada to Contest.

Pittsburg, Jan. 29.—Tonight and tomorrow night the best amateur skaters of the United States and Canada will contest in Duquesne Gardens in this city, the largest indoor skating course in America, for the championship of the two countries.

Chief among the entries is Edmund Lamy, the 18-year-old wonder on runners, who is the present amateur champion.

Beehive in Living Rock.

Caldwell, Idaho, Jan. 25.—A beehive in the solid rock of the bluffs near Boise River bridge was the unusual discovery made by three Caldwell men.

The discoverers of the bees' unusual hive proceeded to blast away the rock with dynamite and their reward was a large quantity of good honey. The bees, it was ind upon investigation, had made entry to the bluff through natural crevices.

AT NATION'S CAPITAL

Governor Magoon Wants Maine Wreck Removed From Havana Harbor.

NELSON WOULD CLOSE LANDS

Secretary Garfield Says Special Land Agents Must Help Honest Entrymen.

Washington, Jan. 25.—Governor Magoon, of the provisional government of Cuba, in his annual report to the secretary of war, brings his attention to the wreck of the United States battleship Maine in Havana harbor and recommends that the government take immediate steps to accomplish its removal without further delay. He says:

"It will be necessary in a short time to begin dredging in order to provide proper anchorage for the large amount of shipping now entering the harbor, unless the wreck is removed.

"Even more important than this obstruction to navigation is the fact that this wreck, although it contains the bodies of 63 American seamen, or what is left of them, is apparently abandoned and forgotten by the government and people of the United States. Thousands of Americans and and other nationalities annually enter the harbor of Havana and probably not one omits to express regret and censure for the deplorable spectacle.

"It has become a national reproach and an international scandal. The neglect to remove the wreck is attributed by many, especially the large Spanish contingent in Cuba, to the fear that its removal will disclose the fallacy of the popular belief that the Maine was destroyed by a torpedo or mine instead of an interior explosion."

Senator Nelson, of Minnesota, a chairman of the public lands committee, is author of a bill, recently introduced, which is intended to repeal the timber and stone act, and forever put an end to the sale or disposal of public timberlands. The bill is drawn in line with the conservation policy of the President, and makes a blanket transfer to the Forest Service of all jurisdiction over the entire timbered public domain, reserved and unreserved.

The Nelson bill is of such importance and proposes such a radical change in existing law, that it stands no chance of passage this session.

The proceeds from sales of public timber shall be divided, one-fourth to go to the state territory, to be expended under the direction of the Legislature for roads and schools in the counties where the timber sold was located at the time of sale. In those states affected by National reclamation act the remaining 75 per cent of the money shall go into the reclamation fund, but in other states it goes into the general treasury fund.

Secretary Garfield has received many complaints from Western Senators and Congressmen about the manner in which land office special agents have harassed entrymen who have been endeavoring honestly to acquire title to public lands. One of the most vigorous protestants has been Senator Borah, of Idaho, who has cited specific instances in which special agents have not only failed to carry out instructions with reference to assisting honest setlers, but have gone to the extreme of undertaking to dispossess settlers, without authority of the Interior Department. He also cited instances where special agents, continuing along the lines in vogue under Secretary Hitchcock, had done their utmost to discredit honest settlers who were making every endeavor to comply with the law.

Secretary Garfield has specifically stated that special agents are not to place obstacles in the path of honest entrymen, but must render them all proper asistance.

An early decision has been promised in the case now before the supreme court involving the question of whether the more stringent laws of Oregon regulating the use of purse-nets on the Columbia dominate the lessers laws of Washington, covering the same pursuit.

The case is that of a Washington fisherman, who, while violating no law of his own state on fishing in the Columbia with a purse-net was made to answer in Oregon courts which hold it an offense.

The bill providing an appropriation of $50,000 for the establishment of two fish hatcheries on Puget Sound, was brought before the senate by Senator Piles and passed. The bill has already passed the house.

The secretary of the interior has urged congress to pass a bill in the interest of reservation Indians who have taken allotments which have turned out worthless. He urges the passage of a bill permitting Indians to relinquish unsuitable lands and select in lieu lands of equal area from the unappropriated portion of the reservation. He insists that the Indians are entitled to the best lands of the reservation, prior to the opening.

We make a specialty of "Specials," Our customers get the benefit of our lucky buys. Our January, "Clean up" is on now--- It's a month of "Specials."

COLDS THAT HANG ON

So frequently settle on the lungs and result in Pneumonia or Consumption. Do not take chances on a cold wearing away or take something that only half cures it, leaving the seeds of serious throat and lung trouble.

FOLEY'S HONEY AND TAR

Stops the Cough and heals the lungs and prevents

Pneumonia and Consumption

Consumption Threatened

C. Unger, 211 Maple St., Champaign, Ill., writes: "I was troubled with a hacking cough for a year and I thought I had consumption. I tried a great many remedies and I was under the care of physicians for several months. I used one bottle of FOLEY'S HONEY AND TAR. It cured me, and I have not been troubled since."

Cured Hemorrhages of the Lungs

A. M. Ake, Wood, Ind., writes: "Several years since my lungs were so badly affected that I had many hemorrhages. I took treatment with several physicians without any benefit. I then started to take FOLEY'S HONEY AND TAR, and my lungs are now as sound as a bullet. I recommend it in advanced stages of lung trouble."

Three Sizes—25c, 50c, $1.00. The 50-cent size contains two and one-half times as much as the small size and the $1.00 bottle almost six times as much. REFUSE SUBSTITUTES.

DOWN THE LINE

PARKPLACE SCHOOL NOTES.

Parkplace is again preparing for an interscholastic debate, as arrangements are being made for a debate with Woodburn, to take place in about four weeks. The school is ready for work and is waiting for Woodburn to select the question. The team to represent Parkplace is as follows: Leader, Otto Purcell; colleagues Edena Clarke and Olga Hanson; substitute, Fay French. Challenges have been sent to several other schools but as yet remain unanswered.

The debating society held its regular meeting Friday afternoon. The subject, "Resolved that an eight hour work day should be established with in the United States, was handled by Olga Hanson, Fay French and Victor Gault, affiirmative, and Edena Clarke, Lillie Anderson and Otto Purcell negative. The judges awarded the decision to the negative.

Mr. Wilkerson has supplied the high school with a literary table, on which will appear each month the following magazines: Review of Reviews, McClures, Munsey's, Everybody's, Pacific Monthly and Ladies' Home Journal.

Victor Gault, the Parkplace representative, was elected second vice president of the county athletic association, which was organized in Oregon City by a convention held last Saturday.

A change is soon to be made in the high school studies. The tenth grade, having finished their algebra, will begin in geometry, and the twelfth grade will take up political economy.

Hallie Johnson has recently registered for the twelfth grade. He was a junior last year, and pitched on the ball team.

Mr. Wilkerson has begun plans for the commencement exercises, which he hopes to make the best ever given in Parkplace. The senior class has six members this year: Edena Clarke, Clarence Johnson, Arthur McAnulty, Hallie Johnson, Victor Gault and Otto Purcell.

The visitors to the high school during the past week were Miss Sievers and Miss Munson, teachers of Gladstone school, and D. H. Purcell.

On the sick list of last week were Stanford Moore, Ed Reed and Arthur McAnulty of the high school, and Ethel Garde and Albert Johnson of the grammar school. All have returned to school except the last mentioned.

The third grade had a debate for their language lesson Monday. The question was "Resloved that it is pleasanter to live in the country than in the city, "the affirmative side winning.

Four new pupils have been enrolled in the grammar school since vacation. Two of these have entered the eighth grade.

Miss Wyvel went to see "Ben Hur" Saturday evening.

The pupils of Miss Smith s room are making an effort to attend the remainder of the year without being absent or tardy.

JENNINGS LODGE.

Among the improvements which we have noticed during the past week and which we are always pleased to note, are that Mr. Rice is having a warehouse built adjoining the store. Our well-known carpenter, L. Wilcox, is doing the work.

Mr. Russell has finished the interior of his house and newly papered it.

Mr. Hart has just completed tinting eth walls in his fine new house.

H. C. Painton has finished drilling his well and reports a fine flow of water at 40 feet.

Fred Terry is having sidewalls laid on his property on the river front and Walter Beckner is making a very artistic cobblestone and gravel walk on his property.

J. B. Evans is clearing some of his acreage and Judge Bronaugh has a force of men at work with the grubbing machine on his property near the county road.

Mrs Boys, who is spending the winter in Portland, came out last week and spent the day at her home in this place.

Mr. Martin of Portland was out on Monday looking after his business interests at this place.

I. J. Morris and Miss Grace Morris visited Sunday at the A. F. Russell home. Mr. Morris has decided to locate in Portland.

Mr. and Mrs. Hampton and son Jack spent Sunday with Mr. and Mrs. Allen Brown.

Word has been received of the arrival of a little son at the home of Mr. and Mrs. Rice in Portland. Mr. and Mrs. Rice camped at this place last summer and expect to return again as soon as the weather will permit.

Frank Boardman of Hood River has returned home, after spending a delightful visit with his parents, Mr. and Mrs. G. D. Boardman.

Three valuable horses belonging to Messrs. Solcum, Will Jennings and Carmichael have died within the past two weeks.

Miss Sarah Kaminsky of Portland Sundayed at the H. H. Emmons home.

Mrs. McMonigal is spending the week with her daughters in Portland and Sellwood.

Mesdames Morse and Roberts and Miss Scripture visited at the home of Mr. and Mrs. Silas Scripture in Oregon City on Thursday of last week.

Mrs. Finley and Mrs. Herman Bohlman of Portland were callers at the Wm. Finley home Monday.

Frank Pratt has returned to his work at the paper mills. The mills were closed for a few days on account of high water.

Mrs. George Morse will entertain the club at her home on Thursday afternoon. A short literary program has been prepared.

A very pleasant surprise was tendered Hugh Roberts Monday evening when about twenty of his relatives and most intimate friends gathered at his home to help celebrate his thirty-fourth birthday anniversary. Games were indulged in till ten o'clock, after which dainty refreshments were served.

Mrs. Spooner visited her sister Mrs. Major Clarkson of Portland during the week.

Lloyd Spooner spent Sunday at the Parental home.

Langdon Spooner, who has a very responsible position in a railroad office near Marshfield has returned home after a visit with his parents, Mr. and Mrs. T. Spooner of this place.

MILWAUKEE.

The First State Bank of Milwaukee will open for business next Monday morning.

Rural Route No 1 has been extended to accommodate those people living between John Wise's corner and George Mooney's. Route 2 has been extended so as to accommodate the people in the Wichita district. George Hively, the carrier on Route 2, gets an increase of pay, as the distance traversed puts the route in a class a notch higher. The pay of carrier No. 1 remains the same.

The smallpox scare is about over. All the parties who so tar have contracted it have been quarantined and no further trouble is anticipated.

Ex-Mayor Wm. Shindler has about closed a deal for the Episcopal church property opposite Oscar Wissinger's general merchandise store. The price paid we understand was $2100. It is conceded that Mr. Shindler made an exceedingly good buy.

The all absorbing topic now is, "where will the new bank building be located?" Prices on ground are soaring upward and the more conservative are more likely to land the proposition.

The Sellwood local cars have been taken off and Milwaukee is enjoying the discomfiture of a half-hour service. How long this will continue is a question. Mornings and evenings the Oregon City cars are crowded to suffocation.

H. C. Carmack, who constructed the pulp mill here for the Hawley Pulp & Paper Co. of Oregon City, has about completed it. He had steam in the boilers last week and everthing works nicely A large raft of logs is waiting for the mill to get in readiness. There is always a lot of detail work in getting a new mill started and Mr. Carmack wants everything just so before he puts the plant in operation.

Many parties are catching logs these days and more than one family has a stock of winter's wood laid by. The flood is over now, however, and the river is resuming its normal stage.

The Seventh Day Adventists are holding nightly meetings in the Grange Hall.

Samuel Pearson and Alex Korpstein have taken over the holdings of Jos. Robbins and are repairing the flume incidental to starting up the Oregon Felt Works and Carding Mill on a more extensive scale.

CATTLEMEN IN CONVENTION

Meet in Los Angeles to Discuss the Grazing Industry.

Los Angeles, Cal., Jan. 26—Questions of great importance to cattlemen throughout the country, especially in the west, will be discussed at the 12th annual convention of the American National Live Stock Association, beginning here today and lasting three days. Hundreds of delegates, among whom are owners of some of the biggest of western ranches, throng the streets of the city.

Among the important questions which will come before the convention will be the proposed revision of the tariff in its relation to meat, hides, wool and other products of the live stock industry.

It is expected that the association will adopt resolutions favoring the enactment of laws for adequate railroad service, the furnishing of plenty of freight cars and other problems of transportation.

TO STOP HORSE RACING

Pool Sellers Are Struck by Consternation—Farms Will Suffer.

San Francisco, Jan. 25.—That racing in the state of California is doomed and that the present season at the famous Emeryville and Santa Anita courses will mark the passing of the "sport of the kings," is the opinion of the majority of race followers at Sacramento.

The passage of the Walker-Otis anti-racetrack bill by an overwhelming majority in the lower house has spread consternation in the ranks of the opponents of the proposed law.

The bill as passed by the house is similar to the Humphreys anti-racetrack bill which has suppressed poolselling in New York. The poolsellers in California will be allowed 60 days in which to wind up their affairs from the time the document is signed by the governor..

The effect of the closing of the racetracks in California will be widely felt. The county fairs, at which trotting meets are annually held in various parts of the state during the summer months, will be forced to abandon these events. The great breeding farms which have made this state famous the world over, will receive a death blow.

In the event of the closing of the racing establishments in this state, it is fairly certain that racing will be shifted to Nevada or Lower California.

VOTE AID FOR MITCHELL

United Mineworkers Give Old Leader $2500 for Appeal.

Indianapolis, Jan. 25.—A resolution to appropriate money to assist in defraying the expenses of John Mitchell, former president, in his defense against the jail sentence pronounced in Washington upon him and Messrs. Gompers and Morrison, has been passed by the United Mineworkers' convention.

The convention on motion of President Lewis, voted $2500 as a preliminary aid for Messrs. Gompers, Mitchell and Morrison in the contempt cases. The resolution adopted also instructed the miners' international executive board to appropriate in the future as much as is necessary to give those men proper defense.

Now Is the time

to visit

California

When summer has passed in these northern states, the sun is only mild under the bright blue skies of Southern California. This is one of nature's happy provisions—eternal summer for those who cannot endure a more severe climate.

CALIFORNIA has been called the "Mecca of the winter tourist." Its hotels and stopping places are as varied as those of all well regulated cities. Visitors can always find suitable accommodations, congenial companions, and varied, pleasing recreations.

SOUTHERN PACIFIC CO.

Will be glad to supply some attractive literature, describing in detail the many delights of winter in California.

Very low round trip excursion tickets on sale to California. The rate from **Oregon City** to Los Angeles and return is

$55.00

Limit six months allowing stopovers in either direction. Similar excursion rates are in effect to all California points.
