Friday, February 19th, exactly at two p. m., has been chosen as the date when the business men of Portland will talk to the pupils of the public schools upon the importance of their co-operating with the business helping to increase-the travel which will come as a result of the one-way colonist rates during the months of March and April. The boys and girls in attendance upon the schools will be asked to write to their relatives, acquaintances and friends living in the older states, regarding these rates, and also to give their im-pressions of Oregon as they know it Already a number of other cities and towns throughout Oregon have decided to adopt this date, and it is hoped that not less than fifty thousand school boys and girls throughout the state may be induced to write letters. If they do, no one can estimate the value of this advertising vehicle, as the great majority of these letters will be read and re-read again and again. Within the past week announcement has been made that in addition to the \$25 fare from Missopri river points, \$30.50 from St. Louis and \$33 from Chicago, a proportionate rate is good from every point in the United States. For instance, New York \$50, Boston \$49.45, Cleveland \$39.75, Birmingham \$40.25, and Jacksonville \$50.75 are given as illustra-tions.
