**Chamberlain's Liniment.**  
This is a new preparation and a good one. It is especially valuable as a cure for chronic and muscular rheumatism, and for the relief from pain which it affords in acute inflammatory rheumatism. Those who have used it have invariably spoken of it in the highest terms of praise. Lame back, lame shoulder and stiff neck are due to rheumatism of the muscles, usually brought on by exposure to cold or damp, and are quickly cured by applying this liniment freely and massaging the affected parts. Soreness of the muscles, whether induced by violent exercise or injury, is allayed by this liniment. For sale by Jones Drug Company.

**NAVY ESTIMATE REDUCED**

Taft's Policy of Economy is Being Carried Out.

Washington, May 26.—Secretary Meyer has cut off \$10,000,000 in the navy department estimates for the next fiscal year. This is a sample of what may be expected on the part of other Cabinet officials.

It may not be possible to reduce expenditures in all departments to as noticeable a degree as in those pertaining to the army and navy, but the thing that will be accomplished in all directions is a more

G. VON L. MEYER.

Intelligent idea of the relations between or rather harmonizing of estimates and appropriations.

Secretary of the Treasury MacVeagh expects to have in hand by June 1 estimates of all heads of departments. Between then and the time for the meeting of congress in regular session in December, painstaking study and investigation with a view to ascertaining the exact requirement of various bureaus embraced in different departments, or just what work each is performing and a detailed analysis of results as compared to expense involved, will be carried on.

**"FUROR TRANSITORE" WILL BE MURDERER'S DEFENSE.**

Tacoma, May 24—"Furor transitorio" is the name of the entirely new form of defense Chas. F. Newcombe, who admits murdering Martin Kvalehaug, will make in the fight for his life. His attorney explains "furor transitorio" as being compulsive insanity, or in slang vernacular, "brain storm."

**RAILROAD PAYS FOR FIRE**

Employees Building Tunnel Started Destructive Conflagrations.

Portland, Or., May 25.—The Great Northern Railway Company has paid the government \$2,312.62 for damages caused on the Wenatchee national forest by fires started from locomotives and clearing crews during the summer of 1908. Merchantable timber to the amount of about half a million feet and 7800 cords of wood were destroyed or damaged. In addition to this, much young growth was destroyed.

The company had a large force of men at work clearing for its new electric transmission line, by means of which it is to operate its trains through the Cascade tunnel. The railroad crosses the forest from Leavenworth to the tunnel, a distance of about 50 miles. Eleven fires started during the season and burned over a total of 314 acres, the area of the different fires varying from one-half to 150 acres.

**194 Survivors Reach Seward.**

Seattle, Wash., May 24.—A cable dispatch from Seward, Alaska, says that the mail steamer Dora has arrived there with 194 survivors of the ship Columbia, wrecked near Unimak Pass. The survivors tell a tale of suffering and heroism seldom exceeded. The Dora is a small vessel with accommodations for 86 passengers and she fairly bulged with her load of 240 human beings. They were piled in everywhere, sleeping in lifeboats, in the hold, in chain lockers, in the cabin, all over—thus they had come 1000 miles from the scene of the loss of the Columbia.

**RATE TROUBLE JUST BEGUN**

Coast Cities Will Now Demand Same Treatment as Spokane.

Seattle, Wash., May 24.—Suits against all transcontinental railroads operating trains into Pacific terminals will be commenced within the next three weeks. Actions will be begun simultaneously by the Chambers of Commerce of Seattle, Tacoma, Portland, Sacramento, San Francisco, Los Angeles and every city of importance on the Pacific Coast. The cause of action has its origin in the Spokane rate decision, and lower distributing rates from seaport towns into the interior will be demanded. Railroad commissions of three states will hear the cases as well as the interstate commerce commission.

**Biliousness and Constipation.**

For years I was troubled with biliousness and constipation, which made life miserable for me. My appetite failed me. I lost my usual force and vitality. Pepsin preparations and cathartics only made matters worse. I do not know where I should have been had I not tried Chamberlain's Stomach and Liver Tablets. The tablets relieve the ill feeling at once, strengthen the digestive functions, purify the stomach, liver and blood, helping the system to do its work naturally.—Mrs. Rosa Potts, Birmingham, Ala. These tablets are for sale by Jones Drug Company.

**DOLLAR WHEAT**

MANY WHEAT BUYERS CONTRACT FOR 1909 CROP AT THAT PRICE.

Gilliam County Farmer Who Has Visited Different Parts of State, Predicts a Bumper Crop This Year. Most of it Over Fourteen Inches High at Present.

Wheat buyers are contracting with eastern Oregon farmers for the crop of 1909 at \$1 a bushel. Many wheat growers are glad to accept such a price for the growing grain, others will hold for a higher price.

"Dollar wheat doesn't tempt me at all," declared R. W. Cooke, one of the heaviest wheat growers in Gilliam county. Mr. Cooke has several thousand acres planted to wheat this year. Much of it, he says is now more than 14 inches high and promises an unusually good crop.

"But I am convinced," he added, "that the prospects for a crop in the wheat belt of the central states is so poor that wheat raised in Oregon this year will realize much better than \$1 per bushel. With a sufficiency of rain at the present stake of the wheat's growth Oregon should produce one of the largest crops in the history of the state. Under any conditions the crop should be good."

With Mr. Cooke is P. H. Stephenson, a merchant and wheat raiser from Condon. The two have recently traveled over a large portion of the Oregon wheat belt, and say that generally speaking the prospects for a crop are unusually good. "I only met one man who was willing to accept a low price for his wheat," said Mr. Stephenson, "He is a Wasco county farmer, and he had bad luck last year. He said that he would be willing to accept 80 cents a bushel for his crop, but he is the only man in the county, I dare say, who would accept such a proposition."

Oregon wheat growers who have been in Portland during the past week have estimated that the average cost of raising a bushel of wheat is 60 cents. This includes labor, fertilizer (where used), harvesting expenses and transportation, and allows at the proposed selling price of \$1 a bushel a very fair profit.

Mr. Cooke declared that his land is making him an annual profit of more than 10 per cent and that its increase in value from year to year is also an asset. Some of his neighbors, he says, have been coming to the cities to invest, but he has been putting his savings into more land in the neighborhood where he lives, and has been convinced from the returns that his policy is good.

**Highland**  
There is a great deal of sickness in Highland just now.

Mr. and Mrs. Vandogone are visiting

with their daughter, Mrs. M. Scribner. Henson and Hurst have left their shingle camps for Washington. Ed Ball is moving the Hensen and Hurst shingle mill to Will Clark's place.

Fred Heft has completed his new mill and is now ready for business. John Wallace is going into the bee business on a scientific scale. Grain of all kinds is looking fine in this locality.
