Sunday School Lesson
By Rev. Dr. Linscott
July 18th, 1909.

Paul's Second Missionary Journey—Thessalonica and Berea. Acts xvii: 1-15.

Golden Text—Thy word have I in mine heart, that I may not sin against thee. Ps. cxix: 11

Verses 1, 2.—Is church going a good habit, and what do they lose who have not formed it?

How many times a day should a person attend church?

What is the value of a good habit, and how are habits formed?

Verses 3.—Did Paul mean to say that it was necessary for the Jews to have put Jesus to death, and if not what did he mean? (This question must be answered in writing by members of the club.)

(The position taken by the present writer is, that the Jews ought to have accepted Jesus, and that their putting him to death is the colossal crime of history, and the calamity of calamities that has befallen the Jews. That there are two distinct lines of continuing prophecy in the Old Testament, either one of which being fulfilled, would cancel the other; and that the prophecies concerning the perpetuation of the Jewish nation and the throne of David with unparalleled splendor, were cancelled by the fulfillment of these concerning the rejection of Christ. God sent Jesus in good faith, and they voluntarily rejected him, when God's first and best plan was that they should accept him. God then proceeded to do

through the death of Christ, that which would have been done more speedily by his life.)

Is it necessary for us to adopt all Paul's opinions, in order to be well-pleasing to God?

Were all Paul's opinions correct concerning the time of the second coming of Christ?

In what sense was it true, "that Christ must needs have suffered?" (See Luke xxiv: 26, Jer. xxiii: 5-6, Mich. v: 2, Matt. ii: 4-6.)

In what way do the Old Testament Scriptures bear testimony that Jesus is the Christ?

Verses 4, 5.—How do you account for it that the same facts and reasoning which converts some only serves to harden others?

How is it that women are generally in the majority of Christa converts?

Why were the Jews moved with jealousy.

Can a jealous man, at the time, either be a true man or a correct reasoner?

How do you characterize a person who is jealous of another in doing good works?

Have we any modern example of the way these people acted?

Verses 6.—Is the world, to-day, upside down or right side up?

Is the world getting better or worse?

Verses 7.—When people oppose the word of God do they generally confine themselves to the truth in their objections, or do they ever confine themselves to the truth?

Do objectors to the truth knowingly falsify or do they do it in blind ignorance or through prejudice?

Verses 10-12.—Is there ever any virtue in exposing ourselves to danger, when it is not necessary in the interests of the truth?

What is the difference between the religious people of Thessalonica and those of Berea?

Is a truth seeker sure to find it?

Is it ever right to suppress the truth in the interests of the Kingdom of God?

Verses 13-15.—What it is which prompts men to work so hard, and persistently in opposing what they know to be the truth?

Lesson for Sunday, July 25th, 1909—Paul's Second Missionary Journey—Athens. Acts xviii: 1-16-34.

The Cause of Many Sudden Deaths.

There is a disease prevailing in this country most dangerous because so deceptive. Many sudden deaths are caused by it—heart disease, pneumonia, heart failure or apoplexy are often the result of kidney disease. If kidney trouble is allowed to advance the kidney-poisoned blood will attack the vital organs, causing catarrh of the bladder, back-ache or sediment in the urine, head-ache, back-ache, lame back, dizziness, sleeplessness, nervousness, or the kidneys themselves break down and waste away cell by cell.

Bladder troubles almost always result from a derangement of the kidneys and better health in that organ is obtained quickest by a proper treatment of the kidneys. Swamp-Root corrects inability to hold urine and scalding pain in passing it, and overcomes that unpleasant necessity of being compelled to go often through the day, and to get up many times during the night. The mild and immediate effect of Swamp-Root, the great kidney remedy is soon realized. It stands the highest because of its remarkable health restoring properties. A trial will convince anyone.

Swamp-Root is pleasant to take and is sold by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle and a book that tells all about it, both sent free by mail. Address, Dr. Kilmer & Co., Binghamton, N. Y.

When writing mention reading this generous offer in this paper. Don't make any mistake, but remember the name, Swamp-Root, and don't let a dealer sell you something in place of Swamp-Root—if you do you will be disappointed.
