Everybody have their grain cut and ready for the threshing machine.

Tom Foster started on H. A. Allen's house Monday.

Young Jack Hindell and wife were out for a ride Sunday, accompanied by Mr. Foster and Mrs. Bonney.

Woodburn.

Woodburn is glad to announce that an electric line will be here in a few days. All the money asked for but \$1,000 has been raised already and the rest will be easily raised.

Several young people from Woodburn have been attending summer school at Salem and taking the teachers' examination.

The school bonds offered for sale a few days ago have been bought and now bids are wanted to build a \$6000 school house in East Woodburn. Who can say things are not moving in Woodburn?

With an electric line, a new school house, the principal streets paved and the stork paying visits in all directions, Woodburn will soon have a large population.

Prof. H. F. Durham, Woodburn's new school superintendent, was here Tuesday, house hunting.

Threshing at J. M. W. Bonney's last week brought to light the fact that he had obtained 667 bushels of wheat from 15 acres and 707 bushels of oats from 9 acres. Last year Mr. Bonney sold \$625 worth of potatoes from the 15 acres.

The grain yield is turning out good around Woodburn. 2,500 bushels of oats were threshed for Mr. Frank Settlemier before noon one day.

Miss Mabel Rittney is taking the place of Miss Lucy Morcom in the Farmer's & Mechanic's Bank while the latter is taking a month's vacation.

Mrs. Livesley entertained sixteen ladies and their babies on the lawn at her home Tuesday afternoon in honor of the first birthday of her son, Philip. Refreshments were served and a picture taken of the happy group. Babies and all enjoyed the out-door treat.

Russellville.

Another big shower of rain visited this country on the evening of the 14th, which soaked everything outside. Hay was mostly in the barns, but wheat that was in the shock fared the same fate that our hay did some weeks ago.

Miss Grace Ritter, the Needy central girl, is visiting Russellville's folks, who will miss her when she returns to her home.

Percy Ritter and family are visiting with the Wingfield family. Mr. Ritter and family have just returned from a visit in Washington where they spent some months recuperating, as Mr. Ritter had been the victim of typhoid fever.

Mr. Newman cut grain for Mr. Wingfield with his new binder, which works like a charm. It is a Piano pattern.

O. S. Boyles and son are in the mountains cruising a big lot of timber and will be out some time. We think the recent shower moistened their work some.

Many pleasure seekers are now at the summer resort, the noted Soda Springs.

Mr. and Mrs. Wood, of Russellville are the happy finders of a brand new girl. All are doing well. This is the third one in this corner lately.

Scott Carter has a new binder for his harvesting.

J. W. Thomas got tired of waiting on the wind, and has laid another pipe line up the hill. Now the Fair banks-Morse furnishes abundance of water between winds.

Fall grain is turning out quite well and is of good quality.

The Molalla cheese factory is turning out splendid cheese now, something that melts in your mouth with a rich sensation.

Miss Nannie Thomas, of Cameron, Mo., principal of the Rosedale High school of Kansas City, has returned home after a six weeks' visit with relatives in the Willamette Valley, greatly pleased with our climate and enterprising state.

Joe Buchtel, wife and daughter, of Portland, have been visiting old time friends at Oak Point Farm for a few days, returning home Monday.

The Church of Christ at Molalla, will have services next Sunday. Everybody welcome.

Photographer Jones of Silverton, is "taking" Molalla in its "fixing" when the babies all come to town looking their sweetest.

C. H. Trullinger, Hubbard Optician, will be at Molalla, Saturday, August 21.

At Shubel Church.

Mr. H. Mau, a candidate for the ministry at Olympia, Wash., is at present taking care of the Lutheran congregation at Shubel. Every Lord's day at 10 A. M. German service is held. On August 22 there will be English service also at the church at 7.30 P. M. Everybody is cordially invited to attend.

H. MAU.

A heavy shower fell last Saturday evening, causing quite a delay in clover hauling and making the roads very bad for the Sunday excursion to Willhoit Springs, and yet there was a goodly number there in spite of the mud.

Rev. and Mrs. Quinn visited near Beaver Lake last Sunday with an aunt of the latter's, who has lately arrived from Washington, where she has resided for several years. She has come back on account of feeble health and will stop a while near Willhoit Springs with her daughter, Mrs. James Nicholson.

Sunday School next Sabbath at Tenzel Creek at 10 A. M., the memory verses beginning with "I". All are invited to come out and take part.

These cool mornings makes us think of the writer that is coming later as it seems cool enough for October, yet I believe there has been no frost as yet.

Billions for Improvement

Arthur Hooker, secretary of the National Irrigation Congress, which convened in Spokane presented a resolution memorializing the Congress of the United States to issue five billion dollars of bonds for the improvement of the West.

The proposed bond issue contemplates the vast work of internal development ever conceived by any nation. It is an undertaking worthy of the United States, the greatest nation in the history of the world.

Every good American will be interested in this five billion dollar bond issue. The fund will be devoted to the following specific purposes:

One billion dollars for drainage of

banker, as it does now for the huge irrigation projects being constructed under the national irrigation law. The returns from the improvements will pay off the bonds. The issue will provide ample funds to carry out this vast work. At the same time it will give the best possible security to those investing in bonds. The entire five billion dollar bond issue will not be issued at any one time, but as developments require it. The bonds will bear three per cent interest and run for one hundred years. And they can be retired from time to time.

Canyon City Eagle: To Huckleberry Flat in 40 days is the schedule on which the construction crew for the extension of the Sumpter Valley railroad is now working. There are several camps established along the route and the clearing of the right-of-way down the mountain this side of Huckleberry Flat is now in progress. Nearly every day additions are being made to the crew and there is now in the neighborhood of 250 men at work.

John J. Lentz has expressed the following as his idea of the difference between a statesman and a politician: "A statesman lies awake nights thinking how he may do something for everybody; a politician lies awake nights thinking how he may do every body for something."

Verses 23-27—Does the successful presentation of truth always mean a war with evil?

When the general welfare of the people is injured by the business of the few, is it not the duty of the State to make such business illegal?

Can you give examples where the spread of Christianity as in this case has closed up injurious business enterprises?

What is the general influence of Christianity upon business enterprise? Should a worker for God cease his efforts if he sees he is hurting some person's business?

If the spread of Christianity hurts a class of business men, should we compensate the losers?

If Demetrius himself had become a Christian, would it have been in his business interests in the long run?

Can a man be true and honorable who protests, for business reasons, against the application of Christian principles to the community?

Verses 28-29—How much sense or reason is there in an excited and angry individual or crowd?

Which is generally the more unreasonable, if not insane, an angry individual or an angry crowd?

Was it the danger to their business, or their religion, which most stirred the anger of these people?

Which interest most influences the average man, his business or his religion?

Who were Gaius and Aristarchus, and what influenced their illegal arrest?

Verses 30-31—Should a man risk his life for ever so good a cause, when he knows it will do no good?

Should a man ever refuse to risk his life for a good cause if, by doing so, he can conserve its interests?

What principles should guide us in running risks for the cause of God, which is always the cause of humanity?

Was Paul's first impulse right to rush in among this angry crowd?

When should we, and when should we not be governed by the first impulse?

Verses 32—In the usual riot or mob, what proportion of the crowd know what they are contending for?

Verses 33-34—What did Alexander want to say to this mob?

Why did the people cry down Alexander?

Can any man reason correctly who is blinded by religious prejudice?

Verses 35-41—How do you estimate the character of this town clerk?

Are we under much obligation to take good advice from a heathen or an infidel as we are from a Christian? (This question must be answered in writing by members of the club.)

Who was the goddess Diana supposed to be, and what did her worship stand for?

Was it superstition pure and simple or is there any ground for belief that the image of the goddess Diana did fall down from heaven?

Is it ever wise to act when under the influence of anger or passion?

Does it often happen that one cool headed man can disperse a mob?

THE HOOVER POTATO DIGGER

Digs Them All and Digs Them Right

No farmer would ever return to the old method of digging potatoes after he has once used a Hoover Digger. This digger gets them all. It does not chop or scrape the potatoes but leaves them clean on top of the rows. It is an extremely light draft machine and is exceptionally well made. We also have in stock the Hoover Picker Digger a machine which not only digs potatoes but deposits them in a box or crate fastened to the machine and saves the labor of picking up the potatoes. These are machines which ought to be of interest to every potato grower. Let us know if you are interested and we will send you our catalogue and circulars.

When You Think

Of the pain which many women experience with every month it makes the gentleness and kindness always associated with womanhood seem to be almost a miracle. While in general no woman rebels against what she regards as a natural necessity there is no woman who would not gladly be free from this recurring period of pain.

Dr. Pierce's Favorite Prescription makes weak women strong and sick women well, and gives them freedom from pain. It establishes regularity, subdues inflammation, heals ulceration and cures female weakness.

Sick women are invited to consult Dr. Pierce by letter, free. All correspondence strictly private and sacredly confidential. Write without fear and without fee to World's Dispensary Medical Association, R. V. Pierce, M. D., President, Buffalo, N. Y.

If you want a book that tells all about women's diseases, and how to cure them at home, send 21 one-cent stamps to Dr. Pierce to pay cost of mailing only, and he will send you a free copy of his great thousand-page illustrated Common Sense Medical Adviser—revised, up-to-date edition, in paper covers, in handsome cloth-binding, 31 stamps.

overflowed and swamp lands, thus reclaiming an area equal to 100,000,000 acres, or almost four times the size of Ohio.

One billion dollars for the irrigation of 40,000,000 acres of arid lands now partially or wholly waste.

One billion dollars to construct and improve deep waterways to develop thousands of miles of territory now without adequate transportation facilities.

One billion dollars for good roads and national highways, the lack of which causes a loss of five hundred million dollars to the farmers each year.

One billion dollars for forest protection, and planting the forests anew, thus assuring timber and lumber supplies for centuries to come.

Five billion dollars is an enormous sum. Beside it the wealth of a Rockefeller is insignificant, though it is no more than is actually required to carry out the great plans of this government to give the young man the chance his father had.

But five billion dollars is a small sum indeed compared with the enormous profits that will result to the nation from the investment.

It is less than one-fourth of the total assets of the railroads of the United States.

One hundred years ago we had no railroads. The men who conceived and helped build the railroads accumulated enormous fortunes. They fore saw the future.

The work planned under the five billion dollar bond issue is vaster in scope and will give returns incalculably larger than those which have to come to the nation or to the promoters through railroad enterprises.

In all this vast bond issue Congress will not be asked to appropriate a penny.

The government will simply act as a
