We have W called your attention time and again to your opportunity in the shape of a Boosier Drill and we are going to keep on telling you of it until you see the wisdom of our larguments and purchase a Hoosier. You can date your prosperity from that time on. The Boosier has the only feed which will sow uniformly under all conditions and its general construction is in harmony with its feed. The Foosier has the only feed which is positive in action, which absolutely cannot fail. We guaran= tee the Hoosier to do as good work as any other drill on the market. Write for our FREE Hoosier catalogue, it explains the Hoosier Drill and the Boosier Positive Force Feed in a way so that you can't help but admire the extreme simplicity and absolute accurateness of the hoosier Drill.
