## News of the County

#### MOLALLA

At this time of the year our rural mail carriers are having the struggle of their lives to make the "rounds," facing all kinds of weather with cold feet and hunched fingers. Inasmuch as Uncle Sam is doing all this for the convenience of the rural people, we should all strive to assist him in his great work by complying with the following suggestions as set forth in a circular letter to postmasters by the fourth assistant postmaster general, dated December 10, 1909: "From a recent count made by rural carriers in one of the counties in the state of New York of coins deposited by patrons in their boxes for the purchase of stamp supplies, it was found that each carrier in the county was collecting an average of 115 one-cent coins each week. This average applied to all the routes in operation throughout the country, would give the enormous total of about 300,000,000 one-cent coins. As most of these coins are deposited loose in boxes it is desirable that you and the rural carriers, in a tactful and polite way, put forth your best efforts to induce patrons to provide themselves with stamp supplies in advance of their needs and to equip their boxes with suitable coin-holding receptacles. It should be explained to patrons that the picking of loose coins from boxes not only results in needless hardship and suffering to carriers in winter weather, delays the delivery and collection of the mails, but frequently results in actual money loss to the carriers, for if in collecting coins from boxes they drop them into the snow or on the ground without recovery they are required to replace the amount out of their own funds." Now just have a little talk with your rural "Uncle Sam" the next convenient opportunity about arranging to cut out much of this coin collecting from your mail boxes.

#### SHUBEL

Wm. F. Mueller is taking the short course for farmers at the Oregon Agricultural College at Corvallis. The Literary and Debating Society at the school house near Dix Bros' mill is becoming quite interesting. Nearly everyone is taking hold to make a success of it. The best of order is being kept. John Heft is building a new barn for himself and having built barns for many of his neighbors. Mrs. Hettman, who fell from the steps a few weeks ago, is able to be up and around again. Nearly everyone is clearing some more ground and so they can pay more taxes, as taxes increase a little every year. If not in mills, it is a raise in valuation. Will Mau is building a barn for Mrs. Fred Kiebe. What next, Bill? At the annual meeting of the Beaver Creek Telephone Association it was decided to complete the organization as a company. There is some objection, but no doubt when properly understood the plan will be appreciated by the objectors. It was just the same way when we started the system. They could see no use for a telephone for farmers, and said it wouldn't work, but it did. It takes longer to explain than others to see the good there is in anything, and when found all right it is "I told you so." Let us give it a fair trial and not ask the impossible as some are doing, for everyone came into the association of their own free will, knowing the situation, also knowing that if they had demanded certain things they would not have been admitted as members. It looks now as if some of the fall sown grain must be re-seeded. There is no doubt but that considerable snow has fallen. Some will object, but no doubt when properly understood the plan will be appreciated by the objectors. It was just the same way when we started the system. The sure cure for coughs, colds, bronchitis and all pulmonary diseases in young and old. Sold by Jones Drug Co.

**CHERRYVILLE**  
 Mr. Ewing, who is teaching the Salmon River school, made a trip to Portland last week, stopping to visit his daughter, Miss Constance Ewing in Cherryville. Mr. Shibly of the forestry department left Thursday inspecting Mr. Coffman's homestead. The Ashoff brothers of Marmot spent Sunday in Cherryville. Miss Myrtle and Kath Friel also Mr. Kohn and daughter Minnie attended a surprise party at Marmot on Saturday evening. Mrs. Douglas sold his fat beef cattle to Larson Bros. of Pleasant Home recently. Two of them weighed 3100. Mrs. Ed Revenue and daughter Ruth of Sandy spent a few days with Mrs. Douglas last week. There was an unusually good congregation at our church service on Sunday last.

**DOVER**  
 Well! It does seem that cold weather has come to stay. Alex Bova is on the sick list this week. Guy Woodie has moved back to his home on North Eagle Creek. He has been living on A. J. Kitamiller's place near the M. E. church. George Wolf is quite ill with rheumatism. There is going to be an entertainment at the M. E. church here Friday night, January 21, 1910. There will be a moving picture show and afterward an apple pie supper. Everyone is cordially invited. Come one, come all. The young people around this neighborhood seem to have plenty of fun, for on Friday night, Jan. 14th, they gave Mr. Evans' family a surprise party and after that they went to entertain the family of Mr. Roberts in honor of their son, Birch's, wedding but the humorous part of the situation is that they made a mistake and were serenading a single bachelor.

**EVERY MOTHER**  
 is or should be worried when the little ones have a cough or cold. It may lead to croup or pleurisy or pneumonia—then to something more serious. Ballard's Horehound Syrup will cure the trouble at once and prevent any complication. Sold by Jones Drug Co.

### MULINO

All are glad to see a change in the weather. About one-third of the potatoes in the ground were frozen. Several have had severe attacks of cold, but all are better at the present time. At last the long looked for woodsaw has come. Mr. Schamel arrived Monday evening amid the rejoicing of many.

We have at last found a man with a saw that is a man of his word; not one of these fellows that will promise and in the meantime engage all the work he can and keep you waiting; not one of those fellows that expects you to keep your word regardless of how he keeps his. Mr. Schamel is assisted by Fred Wallace and will be busy in the neighborhood for some time. We will remember him when we need him again. J. J. Mallatt, Sr. and Richard Wright attended Pomona Grange at Gardfield last Wednesday. They report an interesting meeting and a good time. Superintendent Gary visited the Mulino school Tuesday afternoon. He was well pleased with the progress of the school, which is under the direction of Miss Inez Snodgrass.

W. A. Woods moved his family to their new home near Philomath last Friday. Their many friends were sorry to see them go. Mrs. M. S. Howard and Mrs. Lillian Howard visited Central Grange at Beaver Creek Saturday. Mrs. M. S. Howard installed the officers, being assisted by Mrs. T. H. Davis. While that Grange hasn't a very large membership it certainly is a jolly and hospitable crowd to be among. The Maple and Udell families spent

### PARKPLACE SCHOOL NOTES

A basket ball game was played at Clackamas between Parkplace and Clackamas. The game was very exciting all through. At the end of the first half the score was ten to four in favor of Clackamas, but in the second half the Parkplace boys braced up and tried to take the lead. In spite of good playing the score at the end of the game stood at nineteen to sixteen in favor of Clackamas. After the game the players were treated to refreshments. One of the two state teams in the High School Debating Society will debate with Hood River on the evening of January 23, at Hood River. The other team would have debated with Tillamook on the same evening, but owing to a misunderstanding Tillamook had previously debated the same question. Owing to this fact the debate of the other team was postponed until some other arrangements can be made. Several more reference books were received in the past week and were added to the library. A number of pupils are out of school on account of diphtheria. Two cases have proved fatal. The pupils of Miss Rieling's room moved up stairs to the vacant room for the reason that the former room was not heated well.

**MOUNTAIN VIEW**  
 Our cold, freezing weather seems to be over and it is raining and blowing. Mr. and Mrs. Molloy have gone to Portland to the home for old people. Mrs. Hall is out at the Superior mill this week visiting with her sister, Mrs. Noah Carlson, and family. Mr. Hall expects to go to Kansas soon to visit his mother, who is quite poorly. Mrs. Osmon entertained company from Portland last Sunday. Mr. Hamlin is on the sick list this week and Dorothy has symptoms of measles. Lyman Mack had the misfortune to lose a horse last week.

### LOGAN

The frost is gone, and now we suppose it will be in order to have rains to interfere with plowing. It seems the weather man in Portland should arrange it otherwise, as we had rain enough in November to catch up with our average rainfall. The mule teams are still hauling the big loads of lumber, which is very hard on the roads since the thaw. Mr. Schroek, the dairy "spectra", has been here and says that Clackamas dairies score a little higher than those of Washington county, so far as he has worked them. Mr. Schroek will speak at the next meeting of Harding Grange and Judge Dimick will probably lecture on the good roads question. Ed A. Reineck was out from Portland last week in the interest of the M. B. A. lodge and a substantial increase in membership will be the result. Mr. Vincent is getting along well since his recent severe injuries.

**WOMEN AS WELL AS MEN ARE MADE MISERABLE BY KIDNEY AND BLADDER TROUBLE.**  
 Kidney trouble preys upon the mind, discourages and lessens ambition; beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased. Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh, or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose. Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of **Swamp-Root** is soon realized. It is sold by druggists, in fifty-cent and one-dollar bottles, and is the most reliable remedy known. In writing Dr. Kilmer & Co., Binghamton, N. Y., be sure and mention this paper. Don't make any mistake but remember the name, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

**\$100 Reward, \$100**  
 The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address F. J. CHENEY & CO., Toledo, Ohio. Beware of cheap imitations. Take Hall's Family Pills for constipation.

Mike Bowman was a guest at the Bradel home on Wednesday of last week. "Cub" McArthur, a pioneer woolly dog of the early '90's, turned up missing last week. D. McArthur, his master, made diligent search and inquiry for his whereabouts but no trace could be found. For several years "Cub" never missed a meeting at Warner Grange. J. L. Hoffman was in Portland Tuesday on telephone business. A new switchboard with a capacity of one-hundred lines and two operators will be installed at our Mutual central office in Canby within a few days. **Women as Well as Men are Made Miserable by Kidney and Bladder Trouble.**  
 Kidney trouble preys upon the mind, discourages and lessens ambition; beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased. Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh, or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose. Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of **Swamp-Root** is soon realized. It is sold by druggists, in fifty-cent and one-dollar bottles, and is the most reliable remedy known. In writing Dr. Kilmer & Co., Binghamton, N. Y., be sure and mention this paper. Don't make any mistake but remember the name, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

**Farm Wanted.**  
 The undersigned wants to rent a farm of not less than 40 acres in cultivation and not more than 8 or 10 miles from market. Will rent on shares. Address, M. R. RIGDEN, Milwaukie, Clackamas Co., Oregon. R. D. 1, Box 5 A.
