THE MAN WHO CAME BACK

"I've been dealing here for almost 20 years," a man told us the other day. "Once in a while I have strayed away, but I have always come back. Your store is the most satisfactory drug store I ever traded in and I've made up my mind to stick pretty close in the future." This surely warms the cockles of our heart, and then sets us to thinking of the hundreds of old friends who have stayed with us through thick and thin. It is certainly a pleasure to look back over this time and note the friends who have "kept coming" all these years. It's the "keep coming" kind that have made it possible for us to grow as we have. Here and now we want to thank our loyal friends most heartily for their consistency and to express the hope that our store will be your store for a long time to come.

TALKING MACHINE HEADQUARTERS

This is not an idle boast. There is but one store in Portland that carries in stock all the best makes the same as we do, so that you can compare side by side the different kinds and thus make an intelligent selection. If you haven't heard the late instruments you have no idea of the wonderful strides the industry has made. The \$27 Edison shown here is a far better instrument than any on the market at any price three years ago.

Nature and Science

Drafting rooms no longer depend upon the sun for blue printing. An automatic machine revolves the drawing and blue print paper before the rays of arc lamps and the printing can be done at all hours of the day.

A League of Fruit Growers

On the 28th of this month a mass meeting of the fruitgrowers, shippers, canners, and packers in California, will be held at San Jose for the purpose of forming a fruit growers' league, the object being to secure organized co-operation in the handling and sale of fruit down there.

Oregon's Remarkable Health Record
That Oregon has the most wonderful climate of any part of the earth, and a climate which tends to longevity, is the consensus of opinion of all, as derived from the remarkable report published of Oregon Life Insurance Company at the close of the year 1909, which shows a total of over \$3,365,000 insurance in force on the books, and with \$6,000 death losses sustained by the company since organization, April 12, 1905. This is a most remarkable record, and has never been paralleled in life insurance history. It is said to be unique, and is

attributed by General Manager Samuel to two great causes. First, and of the most importance, is the fact that Oregon's climate is such that it tends towards health; and second, the great record is made through careful selection of risks. What makes these figures particularly interesting to the people of Oregon is the fact that Oregon Life is the only life insurance company which confines all of its business to the state of Oregon exclusively, and no risk is taken on any life greater than \$10,000.

Interesting about Oregon Life is the fact that it was founded by L. Samuel less than four years ago, and has been made to pay its way from the start, and by reason of its careful management has given handsome returns to

its policy holders. What are generally known as stockholders in other companies are simply guarantors in Oregon Life. That is, no greater profit than 7 per cent on the money they have put into this company can ever be earned by them. Their own money is earning it, and their guarantee certificates can be retired when the majority of the policy holders demand it.

It is a credit to Oregon to have so magnificent a life insurance company as Oregon Life. Premiums for life insurance can now be kept in Oregon, instead of being sent east to be manipulated in Wall street.

Inidentally, Oregon Life is a splendid advertisement for the state of Oregon. Its low death rate shows the

healthy condition of Oregon as nothing else possibly could. Oregonians can well afford to unite in giving Oregon Life preference. It is built on right lines, and is conducted by men who are prominent in the affairs of Oregon.

Stump Boring Machine

A boring machine for use in preparing stumps for burning is of considerable interest. The outfit weighs about 60 lbs. and consists of a 1 1/2 in. ship auger about 6 ft. long, mounted on a truck and standard and turned by a crank mechanism. With this machine it is possible to bore holes 5 ft. deep in a very short time, and it is

said that two men can bore and burn as many as 100 pine stumps a day.

Cured of a Severe Attack of Bronchitis by Chamberlain's Cough Remedy

"On October 18th, last, my three year old daughter contracted a severe cold which resulted in a bad case of bronchitis," says Mrs. W. G. Gibson, Lexington, Ky. "She lost the power of speech completely and was a very sick child. Fortunately we had a bottle of Chamberlain's Cough Remedy in the house and gave it to her according to the printed directions. On the second day she was a great deal better, and on the fifth day, October 23, she was entirely well of her cold and

bronchitis, which I attribute to this splendid medicine. I recommend Chamberlain's Cough Remedy unreservedly as I have found it the surest, safest and quickest cure for colds both for children and for adults, of any I have ever used." For sale by Jones Drug Co.
