Life on Panama Canal

has had one frightful drawback—malaria trouble—that has brought suffering and death to thousands. The germs cause chills, fever and ague, biliousness, jaundice, lassitude, weakness and general debility. But Electric Bitters never fail to destroy them and cure malaria troubles. "Three bottles completely cured me of a very severe attack of malaria," writes Wm. A. Fretwell, of Lucama, N. C., "and I've had good health ever since." Cure stomach, liver and kidney troubles and prevent typhoid. 50c. Guaranteed by all druggists.

Disagreeable at Home

Lots of men and women who are agreeable with others, get "cranky" at home. It's not disposition, it's the liver. If you find in yourself that you feel cross around the house, little things worry you, just buy a bottle of Ballard's Herbine and put your liver in shape. You and everybody around you will feel better for it. Price 50 cents per bottle. Sold by Jones Drug Co.

MACKSBURG.

Our burg has not been heard from for a long time, but she is still on the boomerang. Some of the farmers are cutting their crops for hay as they are too short to make a crop of grain. Bernhard Luebben, who had been sojourning in Germany, has returned a week ago, and gave a party Saturday night in honor of his return, he brought his niece with him, a bright young lady of eighteen summers.

Miss Orlie Shaver and Miss Edna Westerfield are enjoying a stay at the ocean side.

Frank Davis has just completed his fine cottage and at this writing has moved in. If the Lodge had more houses of this kind what a boost it would give us in the right direction, for it is surely a credit to Mr. Davis and also the Lodge.

The good kind people of Jennings Lodge
Decided to have an arch;
So they passed around the great big hat
To see how much they could get in that,
To give the arch a start.
Some helped with a dollar, some with a dime;
Some had to give a part of their time.
There were a few tight ones that knocked from the start,
Because the people wanted the arch.
But the arch is nearing completion
And the knockers are on the run.
For when you decide to do a thing
Get busy and see that it is done.

We often hear the remark "what could I not do if I only had the chance." We invariably think that we have not the advantages of accomplishing results, because hampered by a string of circumstances,' all or a part of which we can only blame ourselves for existing. We complain at our lot in particular and people in general Whether it has suited a divine providence to give us all the same chance we should not complain.

Some of us think that the great playright in giving us our part to play, has not seen to it that we were given congenial roles, or ones of much importance. But through more defective vision how are we to ascertain whether we are happily cast or otherwise. One thing is certain, that we will have to content to play "bits" until we can prove ourselves competent to play more advanced roles. He is not going to give us a leading part when we fall down on a four line part that a little child can play.

We think 'Oh I wish I had that fellows part, couldn't I play it like he meant it to be played," and the chances are we are making a miserable failure of the "bit" that we have been assigned to. No matter how small or weak our part may be, we can make it a strong virile part, by enlivening it with our hard and unflagging energy, and making ourselves better perfect in the part of the under study. But one thing is certain, if we insist in playing the "villian's" role, we must accept the "villian's" honors and laurels, if of honor there be any. We cannot expect to receive the honor and glory that comes from right living when our whole lives are nothing but a mockery and a travestry, so far as purity, virtue and integrity are concerned. For whatever our lives are so will our rewards be. Rottenness has not its inscription in purity, neither does corruptness father integrity. We are making the men and women of the future, so let us labor and wait that our children may claim heirship to something beisde a misspent life and wasted youth.

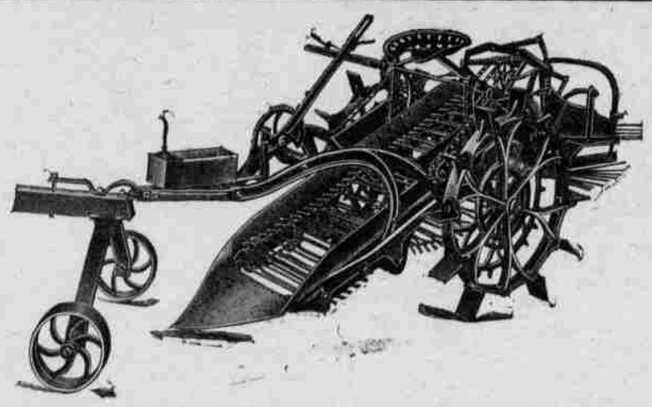
The Hoover Digger



Indispensible to the Up-to-Date Potato Grower

SAVES TIME, LABOR, MONEY

Does the work of many men and does it better. Digs clean, gets them all and deposits them on top of the row. Does not bark or cut the potatoes, which is a common complaint with other diggers, imitations every one of them and poor ones at that. Its vine separator is the envy of all would-be rivals and the satisfaction of all Hoover owners. It does its work in a thorough manner, cleanly separating the vines from the potatoes.

The Hoover is light draft and under ordinary conditions can be handled with two horses. The use of the Hoover Digger means dollars in the pocket of the user.

The HOOVER PICKER DIGGER. The machine that not only digs the potatoes but deposits them in a crate or basket placed on a side stand attached to the Digger, thus saving the expense of picking up. This machine will do very satisfactory work under favorable conditions and is worthy of your careful consideration.
