70 Years with Coughs

We have had nearly seventy years of experience with Aver's Cherry Pectoral. That makes us have great confidence in it for coughs, colds, bronchitis, weak throats, and weak lungs. Ask your own doctor what experience he has had with it. He knows. He can advise you wisely. Keep in close touch with your family physician. No alcohol in this cough medicine. J. C. The Hoover Digger

Indispensible to the Up-to-Date Potato Grower

SAVES TIME, LABOR, MONEY

Does the work of many men and does it better. Digs clean, gets them all and dedeposits them on top of the row. Does not bark or cut the potatoes, which is a common complaint with other diggers, imitations every one of them and poor ones at that. Its vine separator is the envy of all would-be rivals and the satisfaction of all Hoover owners. It does its work in a thorough manner, cleanly separating the vines from the potatoes.

The Hoover is light draft and under ordinary conditions can be handled with two horses. The use of the Hoover Digger means dollars in the pocket of the user.

The HOOVER PICKER DIGGER. The machine that not only digs the potatoes but deposits them in a crate or basket placed on a side stand attached to the Digger, thus saving the expense of picking up.
