JENNINGS LODGE

When we see the discussion that is being fostered among humanity, kicking and complaining and cursing the Author of our existence, is it any wonder that people don't find more happiness and are forever complaining of their condition? Let us look a moment and see if we can't find the reason—the real reason and not the apparent reason why we are not more successful, more happy and better satisfied.

If we will persist in complaining, kicking, and don't get rid of our "grouch," we will die "unknown, unhonored, unwept and unsung." It is only when we lose the sight of an eye, the use of a limb, or, worst of all, the power and faculty of discernment and appreciation that we become an object of pity and contempt. To be worthy of more happiness we have to be happy with what we have. To be better situated in every way we have to use and appreciate what we already possess. When we look around us and see the pitiable condition of humanity, unkept, unloved and unloved, and we are so happy and thankful we ought to be to know we have a chance to use our every faculty, unhampered by the common ills of everyday life; how we ought to lift our voices in everlasting thanksgiving to Him for every bit of good that comes

THE STOVER ENGINE is an ideal farm power. More than that it is a practical farm power. The Stover Engine is simple and strong. It has few parts. Take the cut of the stover shown here and compare it with the picture of any other engine on the market. Compare the engines themselves if you can. Note the difference. Notice that the Stover is stronger and better in every detail. Now, why don't you get next to the fact that you are cheating yourself by not owning one of these engines? Everyday you are doing lots of work that could be better and more cheaply done by a Stover Engine. Get the idea that an owner of a gasoline engine has to be an engineer out of your head. He doesn't—that is, if his engine is a Stover. A few minutes instruction will make you able to operate your Stover as an old hand. That's why we say that the Stover is an ideal farm power. It is made right. It is giving satisfaction to 2500 hundred users right here at home, in Oregon, Washington and Idaho. We sell them in sizes ranging from one to sixty horse power.

PARKPLACE SCHOOL NOTES
The Parkplace school has settled down to business and the school work is progressing very nicely. There are several new teachers this year, namely, Mr. Jolley, principal, and wife, Miss Horner and Miss Mack.

The different classes have elected their officers for the coming year, as follows: Senior class, Mildred Barnett, president; Myrtle Holmes, vice president; Fay French, secretary and treasurer. Junior class, Grace Barnett, president; Pearl Jones, vice president; Kenneth Hendricks, secretary and treasurer. Sophomore class, Amy Peckover, president; Mary Barnes, vice president; Vera Hendricks, secretary and treasurer.

The debating society held a meeting Friday, October 7. The new officers were inaugurated and the new members initiated. A good program followed, which included songs, recitations, speeches and a debate on the question "Resolved, that the railroads of the United States should be owned and operated by the federal government" which resulted in a victory for the affirmative. The society held its meetings every other Friday. Visitors are welcome.

Several greatly needed improvements have been made upon the school building. A new heating and ventilating system has been installed, electric lights placed in the rooms, a new clock purchased and other improvements made which tend to make things comfortable for the pupil and increase his learning capacity. Everything appears favorable for a successful school year.

For Constipation
A Medicine That Does Not Cost Anything Unless It Cures

The active medicinal ingredients of Rexall Orderlies, which are odorless, tasteless and colorless, is an entirely new discovery. Combined with other extremely valuable ingredients, it forms a perfect bowel regulator, intestinal invigorator and strengthener. Rexall Orderlies are eaten like candy and are notable for their agreeableness of action. They do not cause griping or any disagreeable effect or inconvenience.

Unlike other preparations for a like purpose, they do not create a habit but instead they overcome the cause of habit acquired through the use of ordinary laxatives, cathartics and harsh physic and permanently remove the cause of constipation or irregular bowel action.

We will refund your money without argument if they do not do as we say they will. Two sizes, 25c and 10c. Sold only at our store—the Rexall Store, Huntley Bros. Co.

A good attendance and a chicken dinner is the announcement for the next meeting of the Harding Grange there to be a general discussion of the initiative measures to be voted on at the next election. This is a move in the right direction, for it seems to us that it is as much the duty of the voter to acquaint himself with the proposed laws as it is for our legislators who go to Salem. We should use the power that has been given into our hands and not abuse it. There should be as much patriotism in casting the ballot in time of peace as in shooting bullets in time of war.
