

REDLAND

Mr. Hazel, manager of the Northwest Association, has a force of men at work shelling. He has bought Walter Gravel's team and intends to put his ground in shape for getting out his apple trees, of which he has 1000 on hand, consisting of Baldwin, King, a Delicious Steymans and a few other varieties. He also has on the way a gasoline engine for sawing wood, which he intends to use in cleaning up his land. Mr. Andrews has charge of the crew.

A. M. Kirchoff has been doing a lot of survey work for the Northwest Association.

Mr. Bonney and Mr. Kerr have formed a partnership for the purpose of sawing lumber. Having received the contract for road planks. The mill will be placed on Mr. Kerr's place.

Mr. Johnson has hired F. Allen's grubbing machine and is clearing more land.

One of our Redland farmers went to one of Oregon City's butchers and inquired the price of hogs. While discussing prices, a local hotel man stepped in and stated what he knew and didn't know about prices, for which trouble he was called various sundry names, resulting in the farmer landing in the butcher's showcase, enraging the butcher, and landing the farmer in the middle of the street, where they were both nabbed by an officer who took them before a justice who relieved the farmer of \$5. Lesson in proper language should suffice.

In cases of rheumatism relief from pain makes sleep and rest possible. This may be obtained by applying Chamberlain's Liniment. For sale by all good dealers.

Needful Knowledge

Oregon City People Should Learn to Detect the Approach of Kidney Disease.

The symptoms of kidney trouble are so unmistakable that they leave no ground for doubt. Sick kidneys secrete a thick, cloudy, offensive urine, full of sediment, irregular of passage or attended by a sensation of scalding, headache and dizzy spells may occur and the victim is often weighed down by a feeling of languor and fatigue. Neglect these warnings and there is danger of dropsy, Bright's disease, or diabetes. Any one of these symptoms is warning enough to begin treating the kidneys at once. Delay often proves fatal.

You can use no better remedy than Doan's Kidney Pills. Here's Oregon City proof: Frank H. Busch, Jr., Main St., Oregon City, Ore., writes: "I suffered from acute attacks of kidney and bladder trouble for some time and got no relief until I tried Doan's Kidney Pills. The contents of two boxes disposed of my complaint and I have had no return attack. I consider Doan's Kidney Pills an excellent preparation." For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

Portland Railway, Light and Power Company

O. W. P. DIVISION TIME TABLE

Table with columns: Leave, Arrive, Leave, Arrive. Rows for Portland, Oregon City, Canby, and back to Portland.

WILLAMETTE

Mr. and Mrs. Frank Capon spent part of last week in Washington. The little folks were glad to see their parents return.

Mr. and Mrs. James Waldron, formerly of Iowa but now of Jennings, returned last week and guests of Mrs. Millard Hyatt.

Mrs. J. Baine of Canby spent a few days with her parents, Mr. and Mrs. George Zalymski.

Mr. N. U. Calvert was slightly ill during the last few days ago and his housewife and Mrs. Campbell of the garrison at Vancouver, Washington, took pleasant affairs make life worth living.

Several of our ladies attended the Women's Club at Oregon City last week and were very happy to remark that the program are getting better all the time. What about the women of Willamette organizing a club of some sort, civic improvement club for instance?

NEWS FROM AROUND ABOUT

PARKPLACE SCHOOL NOTES.

Miss Eva Wallace, who has been sick and out of school, has returned and taken up her studies. The Parkplace and Clackamas school baseball teams played a game of baseball Friday, April 14th. The game was unexpected, as the former, The score was 3 to 0 in favor of Clackamas.

Marie Holmes has entered the declamatory contest, as the eighth grade representative.

Mary Barons is specializing on the art of writing compositions. The electric lights and furnace fan are not in working order at present. As a consequence the school rooms have very low temperatures at times. Another volume has been added to the school library during the week.

BEE HILLS

Mr. and Mrs. Rabel, who were here making arrangements to build on a homestead that they have taken lately, went home last week to await better weather.

Miss Ola Scott made a week end visit to her parents at Russellville. Mr. Morris is plowing for Chas. Hunter.

Chas. Hunter is improving his home by grading, fencing and general improvement. Herbert and Clyde Pendleton visited relatives here Saturday and Sunday.

Leta Carr, who has been working at Mr. Boyer's, visited her parents here over Sunday.

Donald Clark, who is working for Bird Lamb, visited his parents here over Sunday.

Mrs. John Laferty, who has been staying with her parents, Mr. and Mrs. Clark, has returned to her home.

CLARKS

Mr. Rutherford is in Clarks with his wood saw. He is going to saw wood for Mr. Marshall.

Mr. Palmator has moved from the Mefow place to the Cummings house. He is intending to work in the saw-mill.

Mr. Nicholas and family spent Sunday with Mrs. Nicholas' parents, Mr. and Mrs. Larkins.

Marie Henton came home from Washington Sunday, returning Friday.

Sam Elmer was in town on Friday last week.

Numerous hog sales are reported recently. V. Bohlander bought six from Mr. Hottomiller last week.

Charlie Marshall was thrown from a horse Monday and received slight injury to his leg.

Mr. Sullivan is getting ready to put in a good crop of potatoes.

Mr. Sullivan was in town and got a load of powder last week.

Kicked by a Mad Horse

Samuel Birch, of Beotown, Wis., had a most narrow escape from losing his leg, as no doctor could heal the frightful sore that developed, but at last Backlon's Arnica Salve cured it completely. It's the greatest healer of all ulcers, burns, boils, eczema, scalds, cuts, corns, cold-sores, bruises and piles on earth. Try it, 25c at all drug stores.

WILLAMETTE

Mr. and Mrs. Frank Capon spent part of last week in Washington. The little folks were glad to see their parents return.

CRESCENT

The cold and freezing weather that has visited the fruit trees has done great harm to the crop of early fruit.

Mrs. Jones, who met with the bad luck of stepping on a nail some time ago, is able to get around at her work again.

Mr. Imel fell from his back porch last week and was jarred up very much, but is now getting around very nicely.

Mr. Thorston has retired from the hog business. He is missed very much from making his regular trips to town.

The Crescent ball team has played three games this season and lost one of them. The last game was played Sunday with the Pirates of Oregon City.

The Crescent boys can play and get along with any team, but you will have to judge for yourself as to whether or not the Pirates can do so.

Mr. Logan has a game at Logan with the Green Point the 30th, and a game with Green Point the 30th, and a game with Green Point the 30th, and a game with Green Point the 30th.

The Jones boys have made a start toward building their new barn.

Mr. Loek was seen hauling hay into

LOGAN

We extend congratulations and best wishes to W. M. Kirchoff and Charlotte Schwartz, who recently formed a life partnership under the firm name of W. M. Kirchoff and wife.

Word was received last week that Jack Babler had died at his home in San Francisco. He was well known

The FEED is the HEART of the DRILL

Some Drills Have Heart Disease—but Not The HOOSIER

Its Heart is Perfectly Sound

Its feed is a positive force feed, which sows uniformly and accurately, regardless of conditions. It works as well on the side hill, up hill or down hill as on the level, always seeding evenly and correctly. There is no guess work at the quantity you want to sow, and you know that you are seeding just that amount, no more and no less. That is why you should be sure that your drill is a positive force feed machine, and the only way to be absolutely sure is to buy Hoosier. Write for our circular, "The Feeding of The Seed".

MARKS PRAIRIE

Spring appears to have come to a snow—but wait, don't change suits yet.

The heavy frost has almost ruined the early fruit here. A careful examination shows that at least 75 per cent of the cherries, pears and prunes are killed by frosts.

Mr. and Mrs. Frank Capon were Easter visitors at the home of Henry Kravos.

The log yards here are at a run-up report. Several report not over half a stand of good hills.

Our supervisor has been doing some good road work the past few weeks.

Grain is first-class here and a big crop is assured.

Ray Fish will plant twenty acres in potatoes this spring.

One of our sports was seen going down "Ogishy" avenue with a fish tackle and line, headed for Molalla river Sunday.

Every family that has children is liable to have crop; invariably at night. If BALLARD'S HORN-BOUND SYRUP is kept in the house, it saves going after the medicine at an inconvenient time and checks the attack promptly.

Two thieves made a flying trip through Logan recently and secured \$14 from T. A. Mostal, which they found in a pocket of some clothes hanging on the wall.

Land seems to be in demand around here, as some of our citizens have been offered better prices than have been prevailing.

Considerable clover seed has been offered as a sacrifice to Jack Frost, and perhaps a deal of fruit also.

It is intended that some of the horse show prizes shall come to Logan.

Word is received that Mr. and Mrs. Maurice W. are happy over the birth of a son.

CLACKAMAS

Friday afternoon, April 14, the Clackamas school baseball team met the Parkplace high school team on the Chautauqua grounds and defeated them by a score of 3 to 0.

The Parkplace team was out of practice and threw the game away in the first few innings, none of the runs being really earned.

Friday afternoon, April 14, the Clackamas school baseball team met the Parkplace high school team on the Chautauqua grounds and defeated them by a score of 3 to 0.

The Parkplace team was out of practice and threw the game away in the first few innings, none of the runs being really earned.

Both pitchers were working well, which gives much satisfaction to us, as they are both Clackamas boys.

The only hit made during the game was credited to Hawkins, a boy not going to school. The only feature was the number of errors made by the catcher.

Both pitchers were working well, which gives much satisfaction to us, as they are both Clackamas boys.

The only hit made during the game was credited to Hawkins, a boy not going to school. The only feature was the number of errors made by the catcher.

EAGLE CREEK

Eagle Creek Grange held its regular session Saturday. Quite a large number of the members were present and spent a pleasant day together.

Two thieves made a flying trip through Logan recently and secured \$14 from T. A. Mostal, which they found in a pocket of some clothes hanging on the wall.

CUT OUT THE ROBBER COWS.

Use Brains, Keep Books, and Breed up Your Dairy.

Editor Courier—

Some will have surplus cows to sell in the spring. Do you know what you are going to sell or are you guessing at it? Guessing is poor business.

No other class of business men can guess and keep in business. Dairy men and farmers do more of it than anyone else, and they'd be broke, too, if their business wasn't about the surest business a man could be in.

There is no need for the dairyman to guess. It will cost less to buy a pair of reliable scales and a Babcock tester than it will to keep one cow a year that is in debt to you, besides the cow that makes 300 pounds of butter fat a year costs no more to keep than the one that makes 150 pounds.

It doesn't take any longer to milk and feed the good cow than it does the other. Think of the labor wasted on that poor cow, and feed, too, when a good worker had just as well had her stall, feed and care, and the dairyman more to his profit account.

Someone asks, "How are we to get these good cows, if we haven't them?" Buy some high grade dairy heifers, or better, raise them. Place a registered dairy sire at the head of your herd and save your heifer calves.

Many times you will find these heifers with their first calves producing more than you can use, and being more persistent milkers. In a few years you will find yourself with a herd of good producers, and every cow in the herd a money maker, if the rule of saving the best workers is followed.

We are not asking for more cows, not for more dairymen, but better dairymen—thinking, reading dairy-men, liberal feeding, painstaking, not afraid of sticking to their jobs, dairymen that make their brains serve their best, and lastly dairymen that keep a good account on their cows, on every dairy by-product, on their whole farm, and are not afraid to read sound dairy literature.

Other business men study their professions, why not dairymen and farmers? These are the professions that all the other fellows have to depend on three times a day 365 days a year, for their daily fare.

Following is the report of the Clear Creek Creamery Co. for March, 1911:

Table with columns: Item, Amount. Rows for Cream received, Butter fat, Price of butter fat per lb, Amt of sales, Expenses, Maintenance of plant, Amt paid to patrons.

The Clear Creek Creamery salesmen are obtaining the top price for their butter.

The Clear Creek Creamery has been very fortunate in having a first-class butter maker for several years, who puts out first-class butter of good keeping quality.

Patrons should assist their butter maker by sending in a good quality of cream. It is better to have a little less cream, but a better quality of butter, consequently a better price to the patrons.

During the warm season cream has to be carefully handled in order to arrive at the creamery in good condition. Cream should be kept in a cool place, and after separating, placing the warm cream into cold water and not mixing with the other cream until well cooled.

Cream should be well stirred every day to keep it in good condition and keep it smooth, not lumpy. Well stirred cream gives a more uniform test than cream that is not well mixed by stirring.

John Egger, for the month of January, 1911, received \$24 from two cows; for March, from six cows, \$47.00.

Mr. Egger is a native of Switzerland and has been brought up in the dairy business. He has a number of years in the vicinity of Portland, He intends keeping a herd of from fifteen to twenty grade Holstein cows.

At the present time he has several promising Holstein heifer calves. His herd is headed by Oregon Kiske D. Kohl, a very fine Holstein, purchased of Mr. Frakes of Scappoose.

Mr. Egger is laying the right foundation for a good dairy herd by having a good dairy sire. Mr. Egger's products are real calves, fresh cows sold, and Berkeley Huns, besides in sheep a flock of 100 Black Minorca hens that since the laying season opened are averaging four dozen eggs per day.

Mr. Egger has been in Redland about two years, but we predict that he will be a successful dairyman, as he has a great liking for the work and is not afraid of the work and of the business—one of the very necessary essentials for a dairyman.

Two thieves made a flying trip through Logan recently and secured \$14 from T. A. Mostal, which they found in a pocket of some clothes hanging on the wall.

Word is received that Mr. and Mrs. Maurice W. are happy over the birth of a son.

CLAIRMONT

The subject for debate at the next meeting of the Clairmont Literary Society is "Resolved, That the Country Boy Makes a Better Husband than the City Boy." This will be debated by the single young ladies of Clairmont.

A number of the folks from Clairmont went to the Mountain View last Thursday evening to debate. The subject was "Resolved, That Single Tax is Preferable to the Present System of Taxation." Mountain View took the affirmative and Clairmont the negative. Clairmont won.

The regular meeting of the Friday Club was held last Friday at Mrs. John Gaffney's. The program as follows: Solo, Mrs. Warrham; recitation, Mrs. Sutherland; solo, Mrs. Warrley; reading, Mrs. Gaffney. The next meeting will be held at the home of Mrs. Dora Scherrle.

Mrs. J. B. Jackson and Miss Olin spent Sunday with Mrs. Chas. Spangler of Eldorado.

Mrs. Cy Powell of Gladstone visited Mrs. Elliott last Saturday.

A few days ago a shipment of dressed sheep were sold on the San Francisco market in prime condition. They were brought under refrigeration from Australia, a distance of 7,000 miles, and paid a duty of 5 cents a pound.

While fish make their homes in water they must have oxygen, which is always found in fresh water. It is a lack of this element that causes the death of fish in many a shallow pond and lake during the winter season when the water freezes to a considerable depth and prevents its purification by contact with the air.

The Eagle dam, located 100 miles north of El Paso, on the Rio Grande, the building of which has already been started, will create, it is claimed, the largest storage reservoir in the world. The dam is to be 255 feet high and 1,400 feet long on top. It will flood an area of 45,000 acres to an average depth of sixty-two feet and will furnish water for the irrigation of 150,000 acres of land.

Patent stump pullers operated by steam have been invented, and many of them are now being used to clear the cut over pine lands of northern Michigan and Wisconsin. The derrick hoist principle is employed in them, and it is said they will pull and pile from two to three acres of stumps in a day. Many thousands of acres of this land are rich and fertile, well suited to general farming, fruit growing, etc., and the new puller is bound to be an improvement over the tedious and expensive methods of clearing land which have prevailed in the past.

There is a very strict social regulation among seals that a mother shall furnish sustenance only to her own young, and because of this every year thousands of baby seals, left motherless by the sealskin traders, perish by starvation. This condition, which threatened extermination of the seals, has been remedied by the discovery of Boatman J. Thurber of the United States revenue cutter Bear, who has found that by snapping a ligament in the mouths of the young seals and working their gums to aid in the growth of their teeth they can eat solid food and that under this treatment the little fellows thrive very well.

The man who is wise will not only take the precaution of driving a team which he thinks of purchasing for work on the farm, but will insist on the privilege of working them a little before closing the deal. If the owner of the team objects to this arrangement pass them up, for the team may be found as a dollar, but possess some peculiarity or meanness of disposition which would render them practically worthless as a work team. Neither ability to travel nor good looks cut much figure when a fellow is dead anxious to rush his spring plowing and has to spend half his time trying to coax a balky horse to work. And it is certainly exhaustive of a man's store of piety and patience.

Two thieves made a flying trip through Logan recently and secured \$14 from T. A. Mostal, which they found in a pocket of some clothes hanging on the wall.
