

CENTRAL POINT

Grain is ripening fast. With this kind of weather it will be ready to cut when the hay is done. Harvest seems early this year.

UNION MILLS

Our brick maker, Mr. R. Oram, will soon have another brick kiln ready to burn.

MOUNTAIN VIEW

Mr. E. Albright of the firm of Jack & Albright, was a caller at Mountain View last Monday.

CLARKS

Sam Elmer is hauling hay. Mrs. Willie Marshall visited her mother, Mrs. Kleinmeyer recently.

CLACKAMAS

News items are scarce this week, owing to the fact that nearly everyone from Clackamas has been attending the Clatsop County Fair.

LOGAN

Whew! Up to about 95 degrees in the shade for about a week is going some for this Oregon country. It dries the hay in a hurry and wiles the men that work with it very quickly also.

WILLAMETTE

Mr. and Mrs. Lewis Keene and children, of Portland, were Willamette visitors last Sunday.

DR. HARVEY W. WILEY

Dr. Harvey W. Wiley, Federal pure food expert, whose removal is sought for alleged illegal compensation paid for expert assistance.

BRIEF NEWS OF THE WEEK

After having passed 64 measures and after one of the most progressive sessions in the history of the state, the Wisconsin Legislature adjourned.

"A new triple alliance, with Great Britain, the United States and Japan as its components," is the gist of many published opinions in Tokio with reference to the revised Anglo-Japanese treaty.

Following one of the most strenuous campaigns in the history of the commonwealth, the people of Texas will vote Saturday on an amendment to the state constitution providing for state-wide prohibition.

The Canadian Parliament resumed its session early this week. The outstanding feature, of course, will be reciprocity and the program to be followed will largely be determined by the prospects at Washington.

The British-Franco-German Moroccan crisis became more grave than ever when despatches from Gibraltar confirmed reports that a German force had been landed at Cape Juby, Morocco, from the German cruiser Panther which is at Agadir in defiance of French and British protests.

NEWS OF NOTED PERSONS

Field Marshal Lord Kitchener was appointed British agent in Egypt. Aviator Bud Mars, who fell 300 feet with his "Red Devil" plane, while making an exhibition flight at Erie, Pa., will recover.

Mark Twain (Samuel Clemens) left actual property worth \$571,136. An appraisal of his estate places this value on securities and real estate.

John Hays Hammond, special ambassador to the coronation, has arrived home. His secretary said that Hammond would not be the next ambassador to Germany.

Henry P. Dalton, for 17 years assessor of Alameda county, Cal., was found guilty of soliciting and accepting a bribe of \$5000 from the Spring Valley Water Company.

That Archbishop Ireland and Farley will become cardinals when the next conclave is held is the assertion which is being made in Rome, apparently upon good authority.

John J. McNamara, the labor leader, and his brother, James B. McNamara, will be brought to trial October 11 on the first of the indictments found as a result of the explosion which wrecked the Times newspaper building.

Mildred Bridges, for abducting whom Evelyn Arthur See, prophet of the "Absolute Life" was convicted, was awarded to the custody of her father by the Chicago juvenile court, until September, when the case will be finally decided.

D. C. Henny, consulting engineer of the United States Reclamation Service, with headquarters in Portland, will go to Cuba to take his position on the commission recently organized by the Cuban government to formulate plans for an irrigation system in the province of Pinar del Rio.

Britain Bars Fight With U. S. London.—The Anglo-Japanese alliance has been modified to exclude the United States from Great Britain's possible enemies and the life of the alliance has been extended nearly six years by the new version of the treaty, which Sir Edward Grey, the British secretary of foreign affairs, and Count Kato, Japanese ambassador at London, signed.

Foley Kidney Pills are composed of ingredients specially selected for their corrective, healing, tonic and stimulating effect upon the kidneys, bladder and urinary passages. They are antiseptic, antilithic and a uric acid solvent. Jones Drug Co.

TO PARENTS.

A Chicago writer tells the story of a pathetic army—the crowd of at least 3,000 who gather every morning about the gates of the stockyards.

It is a motley army. In it are young and old, men, women and children and grandmothers, sturdy working people and half cripples, and they are about the gates for an hour, until the few chosen are selected at 15 cents an hour for hard labor—and then the majority turn away to come back next morning.

When times are hard therapy grows to 5,000. These are unskilled laborers, who have nothing to sell but the use of their muscles, the army of the unemployed who keep the wages at the stockyards down to the minimum.

And they are glad when they can get a few hours at the pitiful wage. The teaching is plain. Bring it home to you by picturing to yourself your child as a part of that pitiful throng struggling for the pittance that will keep body and soul together. And—

Have your child learn a trade! Aside from the schooling, every boy and girl should know some trade or employment by which the boy or girl is able to make a living.

In these days of manual training and night schools and vacation opportunities it is easily possible. Note this:

In Europe certain of the royal families insist that not only the princes, but the princesses, be taught some trade or handicraft by which they may be able to support themselves if necessary.

Is your child any better than the child of a king? Besides—Your boy will be all the better for

Cookery Points

Preserving Hints.

A veteran housekeeper suggests to facilitate the work on days when fruit preserving is to be done to have all ingredients and utensils ready in advance. If the fruit must be peeled do this early in the morning or even on the afternoon before, dropping each piece in cold water as soon as the skin is removed.

If berries must be hulled, hull them the day before. As to the tedious business of "topping and tailing" gooseberries, engage the children in the family to do this a day ahead of time, paying them a few pennies for the task.

See to it that glasses and jars are scalded and rinsed out in cold water and ready to be filled. Be sure that the jar lids fit tightly and that the rubbers are new and unbroken. A defective rubber will cause the fermentation of an entire jar of perfect fruit. A pair of kitchen scales is an important article at preserving time.

Use agate or porcelain lined kettles for preserving and jelly making. Have a spoon with such a long handle that the steam from the contents of the kettle will not scald your wrist and hand as you stir them. A wooden or agate spoon is better than one of metal, upon which the acid of the fruit may cause a chemical action.

ABLES GOING GREAT GUNS.

Youngster Who Was Sent Back to Minors Now Wander on Coast. Great is Harry "Big Mitt" Ables—the minor leaguer. Since he joined the Oakland team the huge left hander, who still belongs to the New York Americans, has been mowing down the heavy sluggers in great shape.

Oakland fans say he can have the city. He had a mortgage on the place to start with after pitching a few four and

five hit games for shutout scores, but when he put over a no hit game a short time ago he was able to forecast. He is the big star of the west coast in the baseball world right now and is regarded as unbeatable.

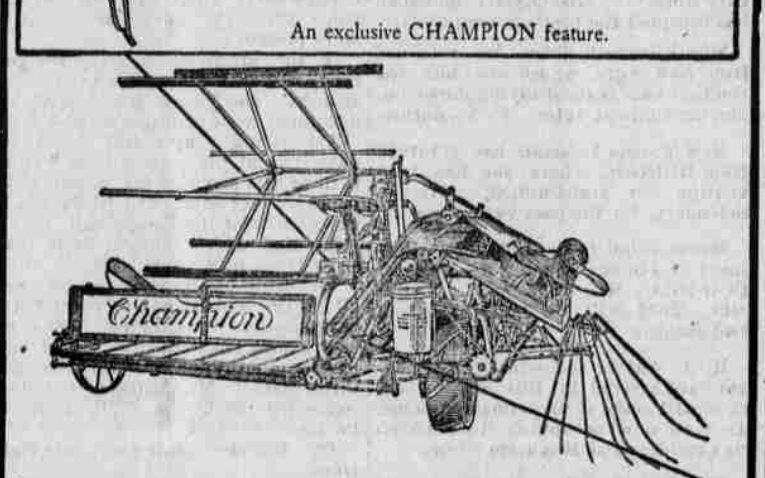

Ables is one of those minor league "beats" and is possessed of so much ability that it is hard to understand why he has so far fallen just a bit short of the majors. Chasen is confident that he will some day be a great pitcher. Ables has the largest hands of any baseball player. He can almost cover the entire horsehide with his big left hand.

Escaped With His Life

"Twenty-one years ago I faced an awful death," writes H. B. Martin, Fort Harrelson, S. C. "Doctors said I had consumption and the dreadful cough I had looked like it, sure enough. I tried everything I could hear of for my cough, and was under the treatment of the best doctor in Georgetown, S. C., for a year, but could get no relief. A friend advised me to try Dr. King's New Discovery. I did so, and was completely cured. I feel that I owe my life to this great throat and lung cure. It's positively guaranteed for coughs, colds and all bronchial affections. 50c and \$1. Trial bottle free at Hantley Bros. Co., Prescription Druggists, Oregon City, Hubbard and Mollala.

CHAMPION

The Relief Rake prevents the grain from bunching between platform and elevator—keeps all grain, particularly short stuff, from gathering at the inner end of cutter bar and insures a steady flow of grain to the elevator. Invaluable when in tangled or badly lodged grain.

The Force Feed Elevator and the Relief Rake Make the Champion Binder the Best Machine You Can Buy

These two features alone should be sufficient to convince any careful buyer that the Champion Binder is the most serviceable machine in the field, but when you consider the many other advantages found on the Improved Champion Binder, among them the balancing Sectors which keep the machine perfectly balanced in all heights of grain, the ball and roller bearings which make it light running and easy pulling and the simple, efficient driving mechanism, there remains no room for doubt of the superiority of the Champion. It represents the greatest possible binder value for the money.

Drop us a card for our big free Champion Catalog and testimonial circulars or pay the nearest Champion Agent a visit. It will be to your advantage.

HIGH GRADE IMPLEMENTS & VEHICLES. PORTLAND, ORE. Branches at Spokane & Boise

yer or preacher or editor or farmer if he has learned the use of tools; your daughter will be all the better business woman or wife or mother if she is able to make an independent living.

Fortune is fickle, and you do not know what may happen when you are dead. Silk O'Loughlin, the American league umpire, says Ty Cobb is the hardest man in the league for an umpire to please. Cobb, Silk says, gets into more close plays than any other player. He takes big chances, generally has to be tagged and gives the baseman only a foot to touch him.

"They say Cobb spikes more players than any one else," said Silk. "If that is true it's because he has more chances to spike basemen. He has ten chances to spike basemen where most players have one.

"I have been on top of many plays in which Cobb was the runner, and I never saw him spike anybody intentionally. Ty is always going away from the baseman. If the man with the ball is in front of the base Ty goes behind it, and if the baseman is behind the base Ty goes in front."

What's the use of Idle Machinery?

Whether it be Mill Machinery, Automobile or Launch, you paid out your good hard cash when you made the purchase — your money is tied up, doing you no good and your Machinery is going to the dogs.

Report Your Machinery Troubles to US and your sleep will be free from wrecking hallucinations and visions of spokeless wheels and divers things. TRY IT!
