He Saw His Chance and Made a Big Hit in "Hamlet." A company playing "Hamlet" was forced to find an actor to play the second gravedigger on account of the illness of the second comedian of the company. The only actor available was a variety performer who had no reverence for Shakespeare and no respect for the traditions of the classic drama. The second gravedigger was a comedy part, and he knew that he could "get away with it." When the first gravedigger threw off the waistcoat, revealing another underneath, the audience roared. The removal of the second waistcoat brought a loud laugh, and the third produced a roar. The first gravedigger was delighted. He had never played to such an appreciative audience, and visions of good notices in the papers began to loom up before his eyes. As he threw off the fourth waistcoat he turned partially around, and the cause of the unusual hit was disclosed to him. The second gravedigger, being accustomed to build laughs on lines and business of other actors, saw his opportunity and seized it. As fast as the first gravedigger would throw the waistcoats on the ground the variety comedian would pick them up and put them on. The new business was much funnier to the audience than the old, with which it was thoroughly familiar. Not content with having stolen the laughs from the regular comedian in this scene, the new man went further. When the first gravedigger said to him, "Go, get these to Vaughan; fetch me a stop of liquor" (to which there is no reply in the text, the assistant sexton replied: "Vaughan told me to tell you that you couldn't have any more liquor from him (ill) you paid for the last you got."—Emmett C.
