Will You Spend ONE DOLLAR to Elect Wilson President?

How deep is your conviction that this government ought to be in new hands, in clean hands?

How much are you in favor of a clean slate from Wilson and Marshall clear down the line to the very smallest offices in your locality?

The Democratic National Committee has every reason to believe that every progressive voter is willing to spend a dollar to elect Wilson and Marshall and their ticket. And that thousands are anxious to contribute to the Wilson Campaign Fund in

amounts of \$2, \$5, \$10 and \$20. To such we make our appeal. To such we must look for victory.

Time An Important Factor

This is another case where time is money. The enemy have their funds—supplied instantly by the Interests.

We have only a few days and contributions to be effective must be received at once. There is no question of the money of the People being

able to defeat the money of the Trusts. Because it is greater even in volume and will be used in straightforward telling ways. But to be effective it must be received and used within

Quick action is absolutely necessary. Let us have your contribution or the list you make up from your friends and co-workers today if possible, tomorrow sure.

How Your Money Will Be Spent

Woodrow Wilson, our standard bearer, has never had the time or disposition to talk about himself. He has never used spectacular methods to place himself in the spotlight.

His greatest work has been done without ostentation, in the most expeditious, dignified manner. The great mass of voters do not know what a really great man Wilson is. They do not know all he has done. They do not understand all the features of his platform.

To educate this great nation of voters, especially the clear thinking Independent Democrats, Republicans and Progressives who choose their leader on his merits, means the expenditure of a vast amount of money.

We must tell them.

We propose to use your dollars in just this way—judiciously, and without a penny frittered away for an unnecessary item.

We know you have confidence we will do this thing—and

Why the Dollar Counts

In this campaign the issues lie between the forces of Representative Government and Popular Government, In Representative Government only a part of the people have influence — those with no political faith, who spend fortunes in any direction where their own ends are fur-

thered for money. In Popular Government all the people have influence, because their executives and legislators do not dare to

thwart the expressed will of the people, Representative Government, as ever, this year is being supported by the money of the Interests. It is being spent lavishly to give the voters a wrong impression of Wilson. Popular Government, this year, to win, must depend on the truth being told about Wilson. We must publish his record

and platform broadcast so that no one can controvert it, Your \$1, your \$2, your \$5, your \$10 or \$20 will count and ount to win if spent in this work.
