Facts Suppressed and Issues Evaded by Taft Tariff Board

By ROBERT KENNETH MACLEA.

Formerly Consulting Expert of the I ariff Board.

Under the pressure of promise to fight chicanery and fraud in tariff legislad tion, I deem it a public duty not to withhold the facts in my possession relative to the investigation of the cotton manufacturing industry Regretful that my experience with the board warrants such conclusions, I am compelled to present the following indictment:

SUPPRES-

That the tariff board, in its report on manufactures of cotton (Schedule I.) has suppressed indings of vital importance to the cotton industry, to the public and the cotton industry, in timesal to the

to the government, but inimical to the special privileges of a few New England manufacturers who were permitted by Senator Aldrich to write the cotton sched-

by President Taft to congress, drawn any conclusions that would "be valuable in advising the congress and the people" of the changes that ought to be made to make more equitable their the wool and cotten and the people of the changes that ought to be made to make more equitable their the wool and cotten and the congress of the change of ton schedules) effects."
The board did not attempt to draw conclusions, "scientifio" or oth-EVASION

erwise, from its "scien-tifically" collected data, but sidestepped that responsibility by arguing that such seductions as its data justified were not called for under the specifications of its

was offered opportunities for obtaining such data, but did not use them; that such foreign data as were obtained were in some cases suppressed and in others were insdequate for honest comparison, although so utilized.

That the tariff board betrayed the con-dence of American manufacturers by pub-lishing data that should have been held for con-fidential information of legislators; that compet-

itors were given thereby valuable trade secrets, while the foreign manufacturers divulged nothing of similar

That the tariff board's DISINGEN-UOUS

treatment of economic questions vitally affect-ing the relation of the tariff to the prices ex-acted from consumers was disingenuous and

nislending. That the tariff board has proved not to

be the "nonpartisan" and scientific instru-ment promised by President Tafe; that its nembers displayed inexperience in business, incompetence and extravagance. I have been forced rejudiantly after a year's intimate association to accept the opinion that the tariff board has been nothing more than an effective

political machine; that some of the men who clamored most loudly for PARTISAN a tariff board and some

of the men appointed thereto worked all the time complacently in the knowledge that the creation of the that a congressman in the knowledge that the creation of the board was a scheme to prevent genuine term of a statistician and a clork six months to make head or tail of the jumble of data presented as a basis for intelligent tariff a long time discredited.

That such facts as the tariff board has reported sustain the charge, as to both the wool and the cettom schedules, that the con sumer has been robbed outrageously as a conse-CONVICT-ING quence of excessive duties and that the profits

Harriman's \$50,000 For T. R's Fund

Time and again Colonel Theodore Roosevelt, the third term party's can didate for president of the United States, has stated that the famous \$240,006 raised by the late E. H. Harriman in the fall of 1904 was for use in the New York state campaign. He also declared most positively a few weeks ago that he had ordered Chairman Cortelyou of the Republican national committee,

Free Speech by Foul Mouths

There is a foul-mouthed, indecent element in the city of Portland nightly insulting the decent, law-abiding citizens and openly reviling theflag. They have sent their representives to surrounding towns and in the name of free speech denounce the efforts to remove them from the streets. In the name of our wives and children we ask your support and vote for No. 370, Voter's Pamphlet.

The Boycott and Picket

The employers of Oregon are not slave drivers, as claimed by those who live by the sweat of their poor deluded victims. This fact is self evident in any part of the state. The boycott and the picket are the representatives of a low order of inteligence, seeking by fear and the buldgeon to force a bad cause. Remove the cause by a vote for No. 368. See pam-(Paid Adv.)
