There are places along the trail where one had to take the hand holds on either side and swing over some little depression, and in that depression there is hardly any evidence of a path. I figured it out that only the youngsters who couldn't take the span had to crawl down in the depression.

couldn't take the span had to crawl down in the depression.

Then there were places (one in particular 1 will never forget) where rocks from above had fallen across the path. This was a slab that a dozen men could have lifted, but they didn't—they let it lay and crawled over it. And over the surface of this fallen stone the path is only cut about half as deep as in the rest of the trail.

You may now have some other range in your kitchen. Never mind that. You cannot afford to put up with its wastefulness and discomfort any longer. Come to us and we will put in a Favorite Range that will positively save from \$5 to \$10 every year on fuel bills alone.

Favorites are built from the best materials. They practically abolish repair cost—and contain features you would expect to pay \$15 to \$20 extra for, although they are given you without any additional cost.

Such features as the ventilated oven-evenly heated-that insures perfect baking, Heat indicator that

enables you to control the oven temperature. A sectional lid for small utensils. A cast flue back that will not wear out in 25 years. A glass oven door, giving full viewinside the oven. Accurate, tight fitting of the registers and doors-insuring complete control of the fire at all times and maximum economy in the use of fuel.

Favorites are built on the unit system—with interchangeable parts. Tell us your requirements-we will build a range for you that will exactly suit your needs. With all these advantages, Favorites cost no more than the ordinary kind. Why not throw out that misfit cook stove in your kitchen? Learn the Favorite Way of eliminating waste, worry and work
