A WORD WITH WOMEN Valuable Abvice For Oregon City Readers Many a woman endures with noble patience the daily misery of backache, pains about the hips, blue, nervous spells, dizziness and urinary disorders, hopeless of re-lief because she doesn't know d lief because she doesn't know what is the matter.
It is not true that every pain in the back or hips is trouble "peculiar to the sex." Whe nthe kidneys get congested and inflamed, there are many such aches and pains and the whole body suffers.
You can tell if it is kidney trouble if the secretions are dark and calored, contain sediment; the passages ar etoo frequent or scanty. sages ar etoo frequent or scanty. Then help the weakened kidneys. They can't get well alone. "Suffered day and night the tor-ment of itching piles. Nothing helped me until I use dDoan's Ointment. It cured me permant-b."-Hon. John R. Garrett, may-or, Girard, Ala. SEE DILLMAN & HOWLAND FOR

when completed. At the completion of the I. O. O. F. building on Second and G Street, Canby can be proud of one of the handsomest I. O. O. F. build birthday gifts. Among those who were invited were old time resi-dents of Glackamas county and Canby and were Mr. and Mrs. Scottan, Mr. and Mrs. Bridges, Rev. and Mrs. Jossiyn. Mrs. Combs was born at Dogwaad, near Brownsville, Pennsylvania, December 5, 1817, and came to Oregon in 1903, making her home with her son, J. L. Combs and family. She is enjoying the best of health and a few days ago vis-ited several of her friends in this city and visited several stores, if ngs in the state, as the one now under construction in this city is is handsome in every respect. The corner stone of this struc-ture was laid with appropriate extended by several hundred visitors and members of the L O. O. F. odge. The main building will over a space of 58x100 feet, becity and visited several stores, i being her custom to shop only at Christmas time. She never uses a cane in making her trips to Can-by and spends much of her time in needle work. Mrs. Combs since cover a space of 58x100 feet, be-ing of two stories with full ce-ment basement, this being nine feet deep. The first floor is to be arranged for a department store with large plate glass windows doors, while the second floor will be for a lodge room this to be 50x60 feet, with banquet hall ad-loining and which will be 20x60 coming to Canby has endeared herself to many, who extended their congratulations on her 95th birthday anniversary, and wished her many more happy birthdays. uning and which will be 20x60 cet; kitchen 16x20 feet with ho and cold water. Opening into the lodge room will be the property

Never before in the history of Camby has there been such a building boom as there is at pres-ent, and the hotels as well as the boarding houses have done a flourishing business during the past few months.

past few months. Work is being rushed on the Canby railroad and a large force of men is being employed. Tent, houses belonging to the railroad company, are seen in the northern part of the town. The work on the Canby high school building, under the super-vision of S. Simmons of Portland, representing the Bross Construct naturai fir.

O. F. building completed about the middle of February, at which time the dedication will take place representing the Bross Construc-tion Co. of that city is being bush-ed along at a rapid rate, and will be read yfor occupancy in Decem-her. When the building is com-pleted it will be one of the hund-somest and most convenient and The building will cost about \$12. The band hall owned by the lanby band is another structure that Canby is proud of. F. E. Dodge designed and constructed the hall, which is a credit to any city. The building was erected at somest and most convenient and up to date school buildings in the state. Its location is most sight-ly, commanding a vine view for miles around. The building is of concrete, having eight class rooms, principal's office, teach-ers' office, girls' gymnasium, boys' gymnasium, assembly halt, girls' recreation room, hoys' rec-reation room, chemical and phys-ical labratory, store room, library a cost of \$1300, and is used for entertainments and balls. At the rear is a stage 25x50 feet, with lve wings, and five drop curtains. A stairway at the rear on each side leads into the ladies' and centlemen's dressing rooms, each of which are large and roomy and well ventilated. Over the stage is an archway of electric lights while reation room, chemical and phys-ical labratory, store room, library besides two large corridors. The tower, 65 feet high, is in the cen-ter of the building. There will be a double set of swinging doors, opening into the first floor and these open into two stairways. the corridor of which is reached by the latter.
