## "WHITEWASHING" SCARLET FEVER

REV. SPIES SHOWS THE UNPUB-LISHED SIDE OF CASE.

Can They Deny the Charges He Makes Against Them?

(When the state board of health was here last week investigating re-

of this city exonerating aysician Dr. Norris. A report was published in the Enterprise stating that no evidence of carelessness was introduced, and Judge Beatie made the statement that complaints had been made to his office that health officer was too stringent in his enforcement of the health laws. The following letter by Henry Spies is

That paper, which came to Mr. Latourette without being solicited and which was signed by nearly every physician in Oregon City, was undoubtedly aimed at me first, and in the second place it came from men only physician in attendance. who had recently formed a medical association. The association was formed since this investigation was begun. Now why do I say that the gentlemen?
paper was aimed at me? Because my
The dutie name was signed to the complaint against Dr. Norris as health officer. In that paper they set forth that Dr. Norris was a careful, sincere and effective health officer, or words to that effect. Why did they introduce it? To help one of their number out of a bad scrape?

signed this paper in order to influence didn't he go to these places when the state board of health in their de- there? cision,) I do not believe that the gentlemen composing the State Board of Health will do otherwise than decide upon evidence introduced at the investigation. The paper is well gotten county, city, or town health officer it to be such, for he had had water up and is a splendid eulogy, but con-tains absolutely no information in the vital statistics, obey rules and by-own account and had found it such; case pending. Just a word gentlemen, on some of your general statements in that great eulogy: when you stated that he was efficient, careful, etc., the people."

own account and had found it such; that he believed some of the samples that had been sent away to be analyzed had been boiled before it was sent: He stated that 25 years ago that he was efficient, careful, etc., the people.

did you do so after an examination, or did you do it on general principles?

To be sure you made no special ex
what is my motive? Carrying to the Willamette was comparatively a pure mountain river, but that today your number said about the spread it was the largest sewer in Oregon.

Will the gentlemen kindly tell us if have been prevented. a man is careful, sincere, efficient, etc., as health officer when he is told against Dr. Norris? that there is a case of scarlet fever. and after he goes to the place and to decide and I will not anticipate tions without charge for every perfinds it true, he does not even quar- their decision. antine the place, nor does he keep that patient from attending public school after fumigation as the law requires? When he does not tell them what

he would have rigidly enforced the health officer to three cases, and one laws of quarantine in this, which was the first case. There is no other phys- This first case he failed to quaranician upon whom he can throw the tine or keep the patient out of school blame. How does it happen that that the required length of time. The other case was not entered on record? Do two were admitted into the public you call that careful?

Now gentlemen: since it appears from the testimony of at least one of was met and stopped by two of the you that the epidemic of scarlet fever directors of the school, who asked him at Clackamas was caused by the carelessness in these first cases; -and he spoke as an expert-how is it that in these cases which you attended you to continue the school. He gave asdid not cause them to be quarantined? ician a deputy health officer to take such precautions as are necessary until the health officer can be informed See Rule 17 of State Board of Health:

"It shall be the duty of every physician called to atttend a person sick or suspected of being sick, of a contagious disease, to report in writing within 24 hours thereafter, naming residence, etc., to the health officer. Rule 18 makes it the duty of the county health officer where a case of scarlet fever or any other contagious disease is reported, to place, or cause to be placed, in a conspicious place at both front and rear of premises, a card or flag indicating the disease by

Also "It shall be the further duty duty of the county health officer to prohibit entrance to or exit from such house without his written permiss-

Why is it that as physicians you reported cases by phone and waited days before submitting any other report? It is conclusively proven by the testimony given by two physicians of Oregon City, the Health Officer, and health boards of the state cost a conwitnesses brought forward by Dr. Norris himself that at least three of the first cases of scarlet fever near is the preservation of health and the now doing along the cleaning up for the steel for three bridges: (1) Clackamas were attended by physicians who signed above named paper and Health Officer Dr. Norris. That until recently nearly all were re-admitted to the public schools within a few days after being fumigated. Two of them came to school Monday when they had been fumigated the Saturday previous or about three days. And when these had been in school a few days the teacher dismissed them because they had come too soon the health officer gave them certificates which admitted them to school although the required twenty one days days had not passed.

Now honorable gentlemen, you who signed a paper to nullify my charge against Dr. Norris as health officer, do you assume that the above cited flagrant violations of law is to be set aside by a eulogy? If I did not know, or were tolerably certain that the law had been virtually set aside by the health officer, Dr. Norris, in his act-

ions at Clackamas, I would not have made the charges. You are aware, no doubt, that the health officer is remade the charges. You are aware, no doubt, that the health officer is required to keep vital statistics as well as enforce rules of the State Board, Lords Oregon Laws 1905, C. 170 p. 296 (2) 4696. "The board of health of each county shall be subordinate to the State Board of health, and it shall be the duty of the secretary of such county boards to report such county

The Panama Canal will soon complete. The free government locks ment appropriation for deepening the river between here and Portland. And we have NOT anything that even

smells like an adequate dock. Farmers and shippers go to Clackamas and Canby, because they have to stand their teams on their heads to get down to the present dump of a dock-a privately owned concern from which our city gets the enormous income of \$15 a month.

We are working for terminal rates; the Clackamas Southern will soon be bringing in great quantities of freight from the Molalla country; our city is rapidly growing; our city ships in and out more freight than half of Oregon; plats are completed and plans ready life and death conditions. for the building up of the west side by both the Moody and the Willamette companies—AND YET WE HAVE

If we didn't have this magnificert river running through our city, we would want to spend a million or two to dig caanal from here to the Columbia, and make a river.

But because it is here,—as fine a navigable stream as ever ran down hill-because old nature made channel, and the mountains furnish the water free; because it has not cost us anything, we simply refuse to use it for the value we might get out of it; we say "Let George do it," and go

back to sleep. When the Panama canal gets into the shortcut business, potatoes won't be left for the hogs to dig in Clackamas county, for want of a market, and the question is, whether we want to handle the increased business that this big canal will give to this whole coast country or whether we want to let the produce go to other town mar-

kets. Jesse Hazel said in the meeting that a member of the Chamber of Commerce in Portland, stated to him that with the great mills Oregon City did not seem to be alive to its possibili-

ties and future growth. Look at the cities up the valley which we have beaten seven ways for industries, yet they have us skinned for making the most of what they

Let's not embalm this proposition again. Let's keep it alive and raise the dock. If we don't provide a public dock,

the West side will-let that soak in. The meeting had the right ring to it. Unanimously the men declared to let the city council fix the location they deemed best.

Tuesday's Session of Live Wires a Enthusiastic Meeting to Boost Long Were they Afraid to Have the Full Evidence Given to People?

HAS OUR CITY A

This matter of the board of health came up hard at the Tuesday ses- been in cold storage, and it now looks coming to this city to investigate sion of the live Wires, and a clean as if the new public sentiment that is health conditions and health 'fficials; city was a close follower for the lime stirring this old town, was going to the report as published in the Entertake it out of the ice box and put it on prise exonerating the health officer; Twenty-five men, business men and shippers, met in the Commercial Club the statement of Judge Beatie that rooms Tuesday night and unanimously the complaints made to him were not went on record that there was no public matter that would do so much to too lenient, and the published report build up the city, bring in new business and force down lower freight had been carelessness or neglect of rates than a public dock for Oregon duty—all seem very much at variance

When it comes to the matter protecting human life and fighting jail in Salem since his parole here. disease, the Courier doesn't play any steps to give this city a public free dock for shipping and receiving purtor's brother if he were needlength. tor's brother if he were negligent or tried to evade his duty.

The letter in this pape and the acat the falls here will soon (we hope) as far apart as the two poles, and the commenced. We have a governtiey should Tri out whether we have a physic and organization and ce nty officious' sid somety to hang top ther on this matter or whether Mr. Spies is falsifying the reports and misquoting the evidence on this hearing.

It is such affairs as this that put Oregon City in bad, and it is one the explain, or they have got to stand for the verdict the people will render of hanging together for protection.

Now let us see what will come of the affair, and let us see if the people are going to sit and twirl their ago, and some sweet day when the thumbs while others play football with sinesure can't be worked another hour

The dead inside of this matter on the should be laid on the outside. The start. people should know all about it, and if it is not trotted out in the open, the grand jury should trot it out.

Last Friday's Enterprise had a first project was a go.

page article on the state investigation under these heads:

"EVIDENCE FAVORS HEALTH OFFICER. "WITNESSES TELL STATE

BOARD DR. NORRIS IS FAITHFUL "JUDGE BEATIE PAYS HIGH

TRIBUTE. "All Physicians of City Sign Statement Favorable to Officer Accused of Careless-

ness. And then the article opens with this

paragraph: "Evidence was heard by a committee of the Oregon State Board of Health at the county court house Thursday afternoon which was entirely favorable to Dr. J. W. Norris, the county health officer. Dr. Norris was accused by Rev. James Spiess of willful violation of the state health law in connection with the recent epidemic of scarlet fever at Clackamas Station.. The prosecution endeavored to show that the physician did not attend to his duties and that his books did not show complete records of the diseases that were reported to him. No evidence was introduced which showed that Dr. Norris was guilty of willful neglect and

that he had been careless." The Courier editor has before him the report of the evidence introduced, and certain it is that this evidence DOES show that someone was guilty of either neglect or carelessness, and there is no use in the Enterprise trying to dump a barrel of whitewash over evidence that is sworn to and

a matter of record. The physicians signed a statement in defense of Dr. Norris, and among

other things, stated: "Dr. Norris has not only done his duty faithfully, working harder than his physical condition would warrant, but he does the work for less than one-half the remuneration that he is entitled to; in fact it would be difficult to procure another that would be as competent and do the work that Dr. Norris does for twice the money he gets out of it."

The health laws provide mighty iberally for health and the health of-I do not know how many pounds of month. The county records show the
