SOCIALISM. Idaho Writer has Correction for Mr. Crabtree's Article. Burke, Idaho, March 14, 1912. Editor Courier:— In your issue of the 28th I read an article by a Mr. Crabtree in which he tells us "Where Socialism Stands." In the main the article is very good but in the second paragraph he says that it has no deal with economics, which expresses itself in political action. Now I wish to take exception to that, for Socialism is based upon the scientific research of economics or in other words the industrial conditions upon which society has its existence and "expresses" itself in "Political Action" through the use of the franchise. In regard to the relation of Socialism to the church or clergy, Mr. Crabtree is correct, for the clergy must serve its economic master just the same as any ordinary workman, the only difference is that the workman can do his day's work and think and express his thoughts "honestly" whereas as to the contrary the clergy, to hold their jobs, must conform to the society, from which they draw their substance, or go down and add join the ranks of the worker whom they claim to love so well and yet one could not see a callous on their hands with a microscope. The church and Socialism certainly have nothing in common. A Socialist has eliminated the word "fear" from his vocabulary and doesn't believe in a God who has a nice little hell in which to roast his handiwork. The God of an intelligent Socialist is a God of Love.

SHUBEL. There will be an entertainment and picnic social March 29th for the benefit of the baseball team. A good program is being prepared. They want to buy new suits and put the grounds in good shape. A grandstand will be erected for those who like to occupy a high seat. Mr. and Mrs. Chester Elliott and Mr. E. P. Elliott and Mrs. Baker made a short visit here Sunday. Mr. Elliott says the roads are pretty rough for a machine. I would add for other vehicles also. The furniture and household goods have been delivered and in this case means two weddings soon. At the German Congregational Church they had confirmation exercises last Sunday. The following were confirmed: two sons of Mr. Posie, Fritz Kamrath, Irene Vogt, Minnie Stegeman and Frieda Moser. A good many farmers are buying hogs to get rid of their surplus potatoes. They are throwing them before the swine. Wm Menke has just about cleared out all of his timber and is thinking of selling his sawmill machinery. Miss Rae Kirbyson, who went over to Washington for the benefit of her health, is reported as getting along nicely. Considerable business was transacted at the Directors' meeting of the telephone association. Over one-half of the system is still on the bum, and something will have to be done soon, as a good many are getting tired of paying central dues and getting no service. About time to enforce our Constitution and by-laws and if we can't let's find it out at least and then try something else. Quite a number have tried the streams to see if the trout will bite and according to reports they surely do.

SEVENTY-ONE PER CENT DRY. Prohibition is Growing and We Should Add Oregon Next. (W. C. T. U. Correspondence.) The dawn of a new day is coming to the people of our nation. While the battle has been an arduous one to the few, the ranks are being strengthened every day. On Feb. 9th, the Webb Bill was passed by both House and Senate. This bill was vetoed by Pres. Taft but passed over his veto by a good majority in both houses. This bill will take effect July 1st and is a protection for prohibition states. It is certainly a triumph for the Temperance Cause. It will do away with the business of illegal selling of liquor by those who manage to get their wares into forbidden territory. The "boot leggers" and "blind pigs" will have to quit and engage in a more legitimate way of making a living. There are today 46,000,000 people living in the U. S. under some form of prohibition. 71 per cent of this country is "dry." Total prohibition is seven states: Maine, Georgia, Kansas, Mississippi, North Carolina, North Dakota and Tennessee. Now if we can launch Oregon on the "dry" dock we will feel repaid for the seemingly futile efforts of the past. There are surely enough men and women in Oregon to fight this evil and overthrow it. When we read every day in our morning and evening papers of the divorces that are granted in the courts, and note the number of little children whose homes are broken up by intemperance, it only would influence good people to vote to crush this evil. Scarcely a day goes by but our Oregon Police gather up a drunken man or two. The women of this state should stand together and vote on all questions for the betterment of conditions and I believe they will. MRS. R. M. C. BROWN.

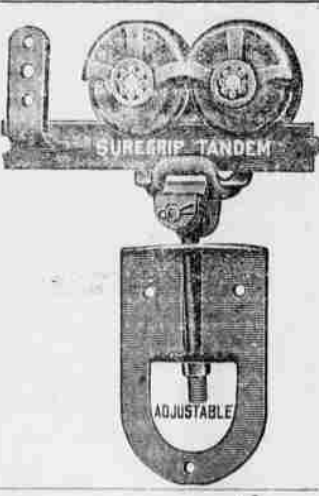

FAIR DOINGS. Some of the Changes Outlined for the County Fair this Year. M. J. Lee, of Canby, was in Oregon City Saturday and states that already arrangements are being made for the Clackamas County Fair to be held at Canby in September. Mr. Lee was recently elected to the office of secretary. Arrangements have been made with H. W. Lee, who owns considerable property adjoining the County Fair property, to open a roadway from the main roadway near the Southern Pacific Railroad, and the two other entrances will be closed, this doing away with several gate keepers. It is also Mr. Lee's plan to have re-admission tickets thus allowing the visitors to the fair grounds to visit Canby if they so desire, and not have to pay an extra gate admission when returning to the fair grounds. Many of the visitors from this city and from other places have found it tiresome to remain on the fair grounds all day, and if they are given the privilege of going to Canby during their stay at the fair ground there is no doubt but this will be a great inducement. There will be two superintendents of the poultry department and these will be furnished with two assistants. The poultry will have the best of care. The poultry building will be enlarged and several have bids on the improvement, the lowest bid to be \$75, and was awarded to the person making this. It is the intention this year to provide for the horses and cattle as well as poultry, with feed, providing they are exhibited for prizes. It has been the custom of the owners to pay the feed. Mr. Lee will come to Oregon City during the Booster Day show, when cattle and horses will be on exhibition, and he will at that time arrange for exhibitions in this line. The Booster Day in Oregon City will be in April and Judge G. B. Dimick, who probably has the finest registered Poland China hogs in the county, will exhibit his stock again this year. He has his own buildings at the fair grounds, having erected them at his own expense. The race meet at the fair grounds, will be held as usual in May, when some of the best trotters, pacers and runners will be seen. Do You Want a Home? See Clyde. He has some bargains in small or large tracts. If you want to make money buy some good tracts for Portland property. H. S. Clyde, Room 4, Wehard Bldg., Main St., Oregon City. The Causes of Rheumatism. Stomach trouble, lazy liver and deranged kidneys are the cause of rheumatism. Get your stomach, liver, kidneys and bowels in healthy condition by taking Electric Bitters, and you will not be troubled with the pains or rheumatism. Charles B. Allen, a school principal of Sylvania, Ga., who suffered indescribable torture from rheumatism, liver and stomach trouble and diseased kidneys, writes: "All remedies failed until I used Electric Bitters, but four bottles of this wonderful remedy cured me completely." Maybe your rheumatic pains come from stomach, liver and kidney troubles. Electric Bitters will give you prompt relief. 50c and \$1.00. Recommended by Huntley Bros. Whereas to the contrary the clergy thru the teaching of fear, have kept the working man in subjection and betrayed him to his economic master. Socialism at least holds out to the worker the hope of industrial freedom. It is based entirely upon scientific "facts" found in our economic system. Whereas to the contrary religion is based upon a belief and has no "facts" to sustain it. Yours for truth, H. SIEBKEN. Local Evidence. Evidence that can be verified. Fact is what we want. Opinion is not enough. Opinions differ. Here's an Oregon City fact. You can test it. Theodore Hueth, Park Place, Oregon City, Oregon, says "For a long time I suffered from lameness across my back, and there was a steady ache over my kidneys. The trouble was not severe enough to lay me up, but caused me great distress, especially when I stooped or lifted. On a friend's advice, I used Doan's Kidney Pills, and they removed my trouble. The endorsement I have previously given in favor of Doan's Kidney Pills still holds good. This remedy made a permanent cure in my case." For sale by all dealers. Price 50 cents. HOW CHRONIC COUGHS Are Being Cured by Vinol. Did you ever cough for a month? Then just think how distressing it must be to have a cough hang on for three months. Mrs. Maria Primrose, of 87 Newell Street, Brooklyn, N. Y., says: "I had a very heavy cold which settled into a chronic cough, which kept me awake nights for fully three months, and felt tired all the time because my rest was broken so much. The effect of taking your cod liver and iron remedy, Vinol, is that my cough is gone. I can now get a good night's rest, and I feel much stronger in every way." It is the combined action of the medicinal elements, cod's livers, aided by the blood-making and strength-creating properties of tonic iron which makes Vinol so efficient in curing chronic coughs, colds and bronchitis—at the same time building up the weakened, run-down system. Try a bottle of Vinol, with the understanding that your money will be returned if it does not help you. Huntley Bros. Co., Druggists Oregon City Oregon.

The Best Light AT THE Lowest Cost

ELECTRIC LIGHT is the most suitable for homes, offices, shops and other places needing light. Electricity can be used in any quantity, large or small, thereby furnishing any required amount of light. Furthermore electric lamps can be located in any place, thus affording any desired distribution of light. No other lamps possess these qualifications, therefore it is not surprising that electric lamps are rapidly replacing all others in modern establishments.
