

HOT FLASHES.

Women in middle age often complain of hot flashes. They are at that stage of life—when their delicate organism needs a tonic and helping-hand which only Dr. Pierce's Favorite Prescription can give them.

Doctor Pierce's Favorite Prescription.

Mrs. J. Lamo, of 221 S. Bentall Street, Baltimore, Md., says: "I wrote you about nine months ago, telling you of my condition. I have a fine baby girl—she weighed nine pounds when born. She is my third child and the strongest of them all. My suffering was only for two hours. I took several bottles of 'Favorite Prescription' and one of Dr. Pierce's Smart-Work. I never had a well day before I took your medicine. I was surprised how well I felt—could eat—was always hungry, and never had a sick stomach. The nurse who was with me said this medicine was wonderful because I got along so nicely after having had so much trouble before. She intends to recommend it to all her suffering patients. Everybody is astonished at me because I only weighed 122 pounds before and now I weigh 135. I have had several ladies come to me and ask about Dr. Pierce's medicine. I am willing to recommend it to all who suffer and want help. If any want information I will be glad to give it to them."

Mrs. Lamo & Child.

Another Grange Credit. Thousands of rural schools in a number of states began the teaching of agriculture in the fall. The grange has been an earnest advocate of this. So far as we know, the first agitation for the teaching of agriculture in the rural schools was started by T. B. Harwell at the national grange meeting, November, 1878.

Public Comfort Room. A new idea now being talked up by some of the granges is the establishment of a public comfort room in the city where most of them do their trading, where the farmer's family can feel they are free to go and rest or pass the time.

The Open Door SCIENTIFIC NEW DISCOVERIES.

By the electro-magnetic telegraph an operator can exactly locate a fracture in a submarine cable nearly 3000 miles long. A few fossils seen through a microscope enable him to accurately determine the rock formation from which they are taken. This he can describe as perfectly as if the rocky formation was before him on the table. So, also, in medical science. Disease has certain unmistakable signs or symptoms. By reason of this the physiologists and specialists connected with Dr. Pierce's Invalids' Hotel and Surgical Institute at Buffalo, are enabled to accurately determine the nature of many chronic diseases without seeing and personally examining their patients. In recognizing diseases without personal examination, the patient, who does not claim to possess miraculous powers. They obtain their knowledge of the patient's disease by practical and well-established principles of modern science. Certain diseases display certain peculiar traits. Subjected to scientific analysis they furnish abundant material for the judgment of the skillful practitioner. This method of treating patients at a distance, by mail, has been so successful that there are many cities or villages in the United States that is not represented by one or more cases upon the records of practice at the Invalids' Hotel and Surgical Institute. Such rare cases as, for example, not treated in this way, which require surgical operations or careful after-treatment, or electrical treatment, receive the services of the most skillful specialists at the Institution. Dr. R. V. Pierce long ago established this Invalids' Hotel and Surgical Institute with a full Staff of Physicians who were expert in their specialties. These physicians may be consulted, by letter, free and without charge, by the patient, who would assume to lecture in all departments with equal ease and proficiency would be severely ridiculed by his colleagues, and it is just as absurd to suppose that the general practitioner can keep himself informed of the many new methods of treating that are being constantly devised and adopted in the several departments of Medicine and Surgery. People who have been patients at Dr. Pierce's Invalids' Hotel and Surgical Institute, have much to say in regard to this wonderfully equipped Sanitarium, where all the latest electrical apparatus, as well as electric water baths, hot and cold, and electric machines, high-frequency current, and other most modern and up-to-date apparatus are used in the cure of chronic diseases. The treatment of chronic diseases that are peculiar to women have for many years been a large part of the work of the Invalids' Hotel and Surgical Institute. The violet-ray treatment, which is another interesting proceeding, is carried out by concentrating the rays of the violet or chemical rays, from an arc light with a specially prepared carbon, upon any portion of the body that may be the seat of pain. Sufferers from neuralgia, sciatica, rheumatism, strains, sprains, also from those obscure exhausting pains (the origin of which cannot at times be accurately determined) frequently find immediate relief from a single treatment and usually with a little persistence in the use of this ray, comfortable health or perfect recovery is obtained. Then, there is the incandescent light bath, consisting of a cabinet in which the patient is bathed in the combined rays of many electric lights. It has produced really wonderful results in diabetes, sciatica, rheumatism, obesity, anæmia, and some forms of heart and heart trouble. It has also proven valuable in chronic bronchitis, bronchial asthma and the various skin diseases. As a general hygienic measure its efficiency can scarcely be overestimated. In medicine there has been rapid and real progress during recent years, and Dr. Pierce has kept up with the times in that he has had the manufacture and ingredients in his well-known remedies improved in a modern laboratory by skilled chemists, the greatest care being exercised to see that the ingredients entering into his well-known medicines Dr. Pierce's Favorite Prescription as well as the Common Sense Medical Discovery are extracted from the best variety of native medicinal roots, gathered with great care and at the proper season of the year, so that the medicinal properties may be most reliable. Great care is exercised not to over-encourage those who consult the specialists of this institution that no false hopes may be raised. Dr. Pierce's Common Sense Medical Discovery is sent free on receipt of stamps to pay expense of mailing only. Send 21 one-cent stamps for the cloth-bound. Prof. Tooze Wants to Know. There are hundreds of children in our several schools to whom boiled water is served under a decided inconvenience. We hear statement after statement that the state board of health reports our water as safe, but Mr. Tooze wants to know it is safe, and Wednesday night he asked the council to instruct the recorder to have the board of health make an official announcement to the city, that the schools may know the condition of the water and not have to stand over the children with a club to prevent their drinking the water.

Masonic Dance April 7. The Masonic Order has arranged for their annual ball to be given at Busch's hall Monday April 7, and invitations will be soon sent out. The committee is working to make this a season's event.

Chronic Stomach Trouble Cured. There is nothing more discouraging than a chronic disorder of the stomach. Is it not surprising that many suffer for years with such an ailment when a permanent cure is within their reach and may be had for a trifle? "About one year ago," says P. H. Beck, of Wakelee, Mich., "I bought a package of Chamberlain's Tablets and since using them I have felt perfectly well. I had previously used any number of different medicines, but none of them were of any lasting benefit." For sale by Huntley Bros. Co.

BUILD FOR A 20,000 CITY. And a Public Dock is One of the Necessary Foundations.

The public dock matter has come very much alive since its 18 years sleep, and everything now points to quick action to bring about this long-neglected public project, for the reason that the business interests of the city are almost unanimous for it and the general public is signing the petition almost as fast as presented.

Mr. McBain stated before the Live Wires Tuesday that every business man, with two exceptions, had signed this petition asking the city council to take up the matter and provide a public free dock and fix the location and regulation as they might think best, and this with the large petition of residents from all parts of the city would, it would seem, be sufficient backing to go ahead with a project we should have had 15 years ago.

We improve a certain city street. It costs more money in two blocks than the dock would ever cost, and yet its benefit is almost entirely confined to that street.

We have expended over a quarter million of dollars in street improvements and a \$5,000 public dock would have done more for the city's growth and business than this huge sum.

We are not arguing against street improvements, but we are arguing for a city of 20,000, and we will have that sized city when we shape it and go after things and make it.

John H. Sievers, J. P. From a list of one dozen applicants John H. Sievers won out before the county court for the appointment as Justice of the Peace in this city, to fill the vacancy caused by the death of W. H. Samson.

Sievers is a young law graduate, a fellow full of push and ambition; a hard worker, a genial, accommodating man, and he has a host of loyal friends in this city who just know he will make good.

He will soon have a convenient justice office provided and he will have all records arranged for public inspection.
