## HOW BLOOD IS MADE.

The liquids and the digested foods in the alimentary canal pass through the wall of the canal into the blood. This process is called absorption and takes place chiefly from the small intestine. After absorption the blood carries the food through the body, and each cell takes from the blood the food it needs. A pure glyceric extract made from bloodroot, mandrake, stone, queen's root and golden seal and sold by druggists for the past forty years under the name of Dr. Pierce's Golden Medical Discovery, gives uniformly excellent results as a tonic to help in the assimilation of the food and in the absorption by the blood of the food it requires. Eradicate the poisons from the blood with this alterative extract which does not shrink the white blood corpuscles, because containing no alcohol or other injurious ingredients. Thus the body can be built up—strong to resist disease. This is a tonic taken from Nature's garden that builds up those weakened by disease, Dr. Pierce, founder of the Invalids' Hotel at Buffalo, N.Y., has received many letters similar to the following:

Mr. Fred R. Munro, of Paradlas, N. S., writes: "I take great

N. I., has received many letters similar to the following:

Mr. Fred R. Munro, of Paradise, N. S., writes: "I take great
pleasure in writing you as regards my case and its cure. In Septembet I was taken with Typhoid Ferrer, which put me in a dreadful condition. I was ceak, rear deam, recrosis and seas restuced to a mere
skeleton. I had tried most overething I could get but nothing did me
any good until, at last I was advised to try Dr. Pierce's Golden Medical
Discovery, and Pleasant Pelleta, which did. Before I had used one
bottle I saw a great improvement and when I had used this treatment
two months, using only a few vials of 'Pleasant Pellets,' I returned to
perfect health. I cannot find words to express my thankfulness for
this wonderful medicine. I advise all sufferers to write to Dr. R. V.
Pierce, as he cures when others fail."

Can You?

It's easy enough to look pleasant, At spring and its bud-bringing kiss; But the fellow worth while Is the one who can smile At miserable weather like this.

## PROFITABLE DAILY TITHING.

J. E. Jack ... Gertie Willson.

"Daily Heavenly Manna." This little book is having the largest circulation of any of its kind and is conceded by Christians everywhere to be the most beinful.

If Christians allow the rush and crush of selfish ambition to deprive them of their daily portion of heavenly food, they must not be surprised if they grow spiritually leaner day by day, and if the peace of God gives place in their hearts to the discontent which is growing in the world, not withstanding the multiplication of our comforts and privileges.

Daily Heavenly Manna contains a collection of Scripture texts with appropriate quotations for every day in the year. Surely the little tithe of time daily spent in partaking of its morsels of heavenly counsel cannot fail to profit all who partake. It is published to do good-not for profit.

Your Friends' Birth Dates. An autograph and birthday record feature in this book is a great convenlence. Opposite each day of the year are blank lines upon which you can secure the autographs of your friends and be reminded of their birthdays as they occur. This makes the book more valuable yearly. In ten years you

would not sell it for ten dollars. Besides it has a place for Birth Records, Marriage Records and Death Rec ords. Also it has a table showing the day of the week of any date for one hundred and fifty years,

## The City of San Francisco FEATURED AT THE GRAND = SUNDAY =====

In the views of this typical American City as shown in this picture we feel that the general public will take a special interest for several reasons, viz: That it was at the time of the earthquake, in the year 1906, probably the most photographed city in the world; that as the pictures in 1906 showed the devastation wrought by the terrific upheaval, the present pictures show how the enterprise and undaunted spirit of the west have brought order out of chaos, rebuilt and erected palaces in the ruins and caused a new and beautiful city to rise phoenix-like from the ashes of the old, and that it is now occupying a prominent place in the public mind as being the site of the Panama Pacific Universal Exposition in 1915 to celebrate the opening of that marvel of engineering, the Panama Canal.

-Among the many interesting sights we see views of residential portions of the city, close views of the business portion and of the numerous statues, which are of national interest-charming bits from the public parks and drives, the famous Seal Rocks and Cliff

-In addition to many other interesting scenes which limited space does not permit to describe, we see the Sutro Baths, which are known the world over, interior view, which they were especially fortunate in obtaining, showing hundreds of bathers and spectators; making in all the most complete and comprehensive motion picture ever made of this wonderful feature of a wonderful city. This film should be full of interest both to those who have seen the city of San Francisco and to those who have not.
