

Why Have "Nerves"?

This is the reason why women have "nerves." When thoughts begin to grow cloudy and uncertain, impulses lag and the warnings of pain and distress are sent like flying messages throughout limbs and frame, straightway, nine times in ten, a woman will lay the cause of the trouble to some defect at the point where she first felt it.

Dr. Pierce, during a long period of practice, found that a prescription made from medicinal extracts of native roots, without the use of alcohol, relieved over 90 per cent. of such cases.

Mrs. Lilla B. Hawkins, of Zions, Va., writes: "I had been failing in health for two years—most of the time was not able to attend to my household duties. Female weakness was my trouble and I was getting very bad, thanks to Doctor Pierce's medicine, I am well and strong again."

FACTS ARE MISQUOTED

Yet Oregon City Needs Public Dock Says City Transportation Co. Portland, March 31.

Editor Courier:—In your issue of March 28th, 1913, under the head of "A Condition"—a result, the price this city pays to private ownership of docks.

Mr. Farmer tries to make the city believe it needs a public dock by misquoting facts. He claims a quoted rate of \$4.00 per ton on poultry food from San Francisco to Oregon City via the steamship Beaver to Portland, thence by the Willamette Navigation Co's river steamer Ruth of N. R. Lang to Oregon City. As they had no dock on the Oregon City side they could not handle the shipment. So it had to be hauled to the Railroad or to our Dock in Portland.

Now this shipment consisted of 4 sacks of poultry food weighing 400 lbs., the ocean rate to Portland was 35 cents per 100 lbs., \$1.40 or \$7.00 a ton cartage to Taylor St. Dock 50 cents, our charges 40 cents, total \$2.30.

Now if the city owned a public dock the farmer would have saved the cartage of 50 cents, and he would only save that because the Ruth and Lang land at the same dock as the Beaver, if the shipment had come by any other steamship line it would have to be transferred to either boat line.

With due respect to Mr. Farmer, think the San Francisco merchant's quotation of \$4.00 was on lots of 15 tons or more, whereas he only had, in railroad parlance, a C. L. L. shipment at class rates. If the shipment had consisted of 5 tons or more, our boat would have picked up same at steamship dock free of charge and given the farmer a rate of \$1.00 per ton to Oregon City. So we fail to see how the rate jumped from \$4.00 to \$11.00 just because the freight moved over our line or the want of a public dock. However we are firm believers in every city situated on a river owning the river front property, and when conditions justify having a public dock.

We have always advocated a public dock at Oregon City and would be very glad if same were built and would be willing to pay the city for landing privileges by the month or year, guaranteeing to pay an amount equal to 6 per cent on the cost of a suitable dock for accommodating river traffic with a common user clause in the privilege.

Please get busy and build the dock as our present location is not large enough to accommodate the traffic of your rapidly growing city.

Yours truly, A. B. GRAHAM Oregon City Transportation Co.

EIGHT HOUR SHIFT JUNE 1

Willamette and Crown Mills Will Give Shorter Hours at Same Pay

News that will be most pleasing to Oregon City and to the hundreds of workmen in the mills, is that the Willamette Paper Co., and the Crown Paper Co., will go on the 8-hour shift June 1—three shifts of the 24 hours. And equally pleasing to the workmen and to the city is the news that the companies will not cut the wages of the men. It is said from a hundred to a hundred and fifty extra men will have to be put on in the two mills to make up for the shorter schedule, and that the payrolls of the two mills will be increased \$150,000 a year.

This change is along the lines and in harmony with the new law of Representative Schuebel, passed at the last session, which he and Senator Dimick forced to become a law. Senator Dimick has long worked for an 8-hour law and again introduced one at the last session. It was killed. Representative Schuebel introduced a ten-hour law and put it through the house, when Senator Dimick joined with him, and by hard work the two legislators got it through. And this action of the mills in going further than the law provides will make them solid with the workmen; it is a change that will be fully appreciated by them, and the city as well will highly appreciate it, for the shorter hours will mean a weeding out of some of the labor that is none too desirable and with plenty of white men to take their places. And it means many more workmen for the city.

useless, that the only thing to do was to vote according to law.

Mr. Horton said all the council members were liable for perjury when they did not live up to the oaths of office.

On the vote on the license of D. M. Clemens the vote stood: For license, Long, Albright, Hall, Holman, Against, Horton, Beard, Myers, Tooze, Metzner.

On the case of Frank Udderman, J. E. Hedges made a plea for the saloon man, but the vote was the same as above. This saloon was one of the four recently convicted of law violations.

On the vote for the saloon at the end of Eighth street, Mr. Metzner changed his vote and the license was granted by one. This saloon was also convicted of selling to a minor this week, and the change of the council on this saloon has caused considerable comment.

Under the charter no more licenses can be granted only in proportion to one saloon for 500 people, and it will be some time before new ones are eligible.

TIME TO CALL HALT

Must Stop Expensive Improvements if We Would Induce Comers

Editor Courier:—A plea for economy and business methods in the conduct of the affairs of this city seems to be the need of the hour. This city cannot continue to grow in population and wealth if the present system of conducting public affairs is continued. Our taxes are now unbearable and the improvement of the streets and sewers are adding a burden to property that in many cases is equal to the value of the lot.

According to Recorder Stipp's report of the financial condition of the city just published, we find that there are:

- Outstanding fund warrants \$127,000.00, Road fund warrants \$26,000.00, Added—\$153,000.00, Bonded debt about \$50,000.00, Water bonds \$50,000.00, Outstanding water bonds about \$35,000.00, Dept. of School District \$50,000.00, Total approximate \$338,000.00.

This appears to be more than 10 per cent of the assessable property in the city and in the school district. These figures are approximate only. They are no doubt conservative. This does not take into consideration the thousands of dollars due on street and sewer bonds and improvements yet to be assessed upon which the property owner must pay 6 per cent interest.

Three and a quarter percent annually for taxes and a high valuation is no inducement to own property or improve same with expensive streets.

Our daily paper has joined the booster movement regardless of the property owner and in his enthusiasm to improve would not stop even if the property is confiscated.

On the front page of the Booster Daily yesterday, is a picture of tenth street showing the piles of mud that has washed down Singer Hill road. We wonder how long since the last clearing of this street, probably 3 months at least?

Here is an argument for a system of street cleaning of the side streets at least once a week. By the way they did not the council hard surface or brick the Singer hill road which has a grade of 10 per cent and is not as steep as many of the blocks on Seventh street?

It is rumored that the council has under consideration the Jones rock crusher and it appears from the trouble the city has to get a reasonable bid for crushed rock that it would be a wise investment. A well organized street cleaning and repair department could save thousands of dollars annually and keep our streets in good condition all the time.

Yours for prosperity and economy, TAXPAYER.

MONEY KING IS QUESTIONED.

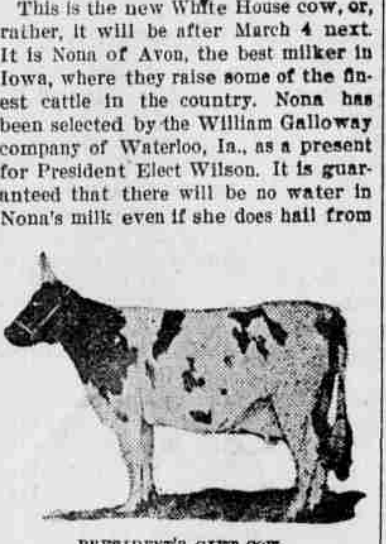

Pujo Money Trust Probers Examine Into Morgan's Business. J. P. Morgan, one of the richest men in the world, was personally under an acquisition as to his business relations recently, and the public had a pretty clear view of high finance machinery. This occurred at the sessions of the Pujo money trust investigating committee of congress. Although Mr. Morgan was not shown up as a pirate and

it wasn't made possible to prevent or change the financial giant's affairs, some startling things were learned. For instance, Mr. Morgan admitted that 180 men had virtual control of about \$25,000,000,000. He admitted that there existed virtually a trust on money credit, and he admitted that probably a state regulation of the Stock Exchange would prove a mighty good thing for the public at large. The picture shows Mr. Morgan and the building in which he conducts his billion dollar deals.

KEEP THE KIDNEYS WELL

Health is Worth Saving, and Some Oregon City People Know How to Save It.

Many Oregon City people take their lives in their hands by neglecting the kidneys when they know these organs need help. Weak kidneys are responsible for a vast amount of suffering and ill health, but there is no need to suffer nor to remain in danger. Use Doan's Kidney Pills—a remedy that has helped thousands of kidney sufferers.

The following statement leaves no ground for doubt. Mrs. Isabella Brown, 114 E. Forty-Seventh St., Portland, Ore., says: "When I was suffering from kidney trouble, Doan's Kidney Pills came to my aid and made me well. They stopped the aches and pains in my back and removed the trouble with the kidney secretions. That happened over six years ago, and since then I have enjoyed good health. I recommend Doan's Kidney Pills highly to other kidney sufferers."
