Nice Success at Redland

The basket social given at the land) for the benefit of the school, on Friday evening, was a very successful affair. A literary and musical programme, was rendered during the early part of the evening and was followed by the auctioning of the baskets, the auctioneer being Clarence Tracy Clester. Kay, who made such a hit that the baskets sold readily, netting a sum of \$22.15 for thes chool.

The basket bringing the best prize was in the form of a bungalow, even illuminated with an electric light on the verandah.

Among those appearing on the programme were: Mr. and Mrs. Koch, who gave a vocal duet, Mrs. Koch accompanying on the zither; duet by Mrs. Egge and son, Henry, who favored the audience with several of their popular yodel songs; duet, Mrs. Koch and Miss Maybell Hedberg. The pupils of the school, under the direc tion of Prof. H. S. Bradley, gave an interesting programme. Those taking part on the programme did exceptionally well and were heartily

GLADSTONE'S FIELD DAY

(The following report of the Gladstone field day events was crowded ready hired for next term.

There was a large attendance at the field meet at Gladstone Park Saturday. The day was ideal and the programme arranged was able to be carried out. The Oregon City High School won the Clackamas County School Trophy. This is the third time that this school has won the trophy

and it now belongs to that institution Among the features of the day causing much amusement was the baseball game between the students and teachers. Among the star players of the game was Prof. Vedder, superintendent of the Gladstone school, who made the others "go

some" to keep up.

The girl students of the Gladstone and Oak Grove schools played a game of baseball and all did remarkably well, and were applauded many times during the progress of the game, which encouraged them in their play-

The following are the results of the day's events:

THE MARKETS

Prices of Farm Products in Clackamas County

The movement of the valley strawberries is now on in earnest, and the indications are that by the first of next week, if the present wather continues, the market will be liberally supplied. The warm weather of the past week has brought the berries to retailing by the growers at 6 cents Miss Edith Chapman returned to per box. The strawberry crop of this county will be heavy this year, and no doubt will be down to low prices.

During the past few days a few the week-end guest of her sister, Mrs California vegetables have arrived. these including pears, cucumbers and cabbage, very little asparagus from the southern state has arrived, as the demand for local product is greater A pleasant Sunday school picnic than that shipped from California. Receipts for the week at Portland

Some Ball Team This Clackamas, Ore.

June 3, 1913 Editor Courier:-In a double-header player at Clackamas Sunday, the Clackamas Baseball team defeated the Price Bros. Team of Oregon City by a score of 11 to 6, and the Logan team by a score of 11 to 0 giving Clackamas seven victories and no defeats for this year. Miller and Kisor were hit hard while Johnston and Hargreaves kept their hits scatered. In the second game the pitching of Burdon was the feature, allowing Logan but five scattered hits and striking out nine men.

Yours Respectfully, FRANK TALBERT Manager.

Best Laxative for the Aged Old men and women feel the need of a laxative more than young folks, but it must be safe and harmless and one which will not cause pain. Dr King's New Life Pills are especially good for the aged, for they act promptly and easily. Price 25c. Recommended by Huntley Bros. Co.

An Endless Chain of Sickness.

There are upwards of one million deaths each year in the United States. In 99% of cases the people who die are less than sixty-five years old. The evils that are due to disease can be escaped just in proportion as the conditions and habits that bring on disease become more widely understood.

Then too a chronic disease which may baffle the skill of the general practitioner may yet be permanently cured by the Physician who has made one line of disease a specialty.

Physician who has made one line of disease a specialty.

It would be just as absurd for the Professor in a medical college presuming to lecture on all subjects as for the one Physician to presume to understand the nature and cure of every disease.

That is why Dr. R. V. Pierce established the Invalids' Hotel and Surgical Institute many years ago—with a full staff of Physicians and Surgeons—who though educated to practice in all departments of medicine are here assigned to a special department only—to which each specialist devotes his entire time, study and attention.

ist devotes his entire time, study and attention.

The sick who have been treated at Dr. Pierce's Invalids' Hotel, Buffalo, N. Y., have much to say in regard to this wonderfully equipped Sanitarium, where all electrical apparatus, as well as electric water baths, Turkish baths, static electric machines, high-frequency current, and other most modern and up-to-date apparatus are used for the cure of chronic diseases. The treatment of chronic diseases that are peculiar to women have for many years been a factor in the cures affected at the Invalids' Hotel and Surgical Institute.

gical Institute.

The physicians and surgeons employed are among the most experienced and skillful in the country, men who have made those diseases their life study, and whose

these diseases their life study, and whose highest ambition is to excel in their treatment.

How well they have succeeded may be judged from the fact that their practice embraces cases from every State and Territory of the Union as well as from foreign lands. Many thousands are annually treated, either through correspondence or at Dr. Pierce's Institution. It is an old adage that, "Experience makes perfect," and the skilled specialists in this field of practice cure thousands of cases which have been abandoned as incurable by general practitioners.

which have been abandoned as incurable by general practitioners.

One of the most wonderful electrical appliances is the X-ray used at the Institute which may be used both in the diagnosis of many obscure conditions. With its aid the interior of the human body is no longer the scaled book it has been heretofore. Abnormal states of the bones, gall stones, stone in the bladder or in the kidneys, are shown plainly by what are known as X-ray photographs. Internatumors, and the enlargement of the deep-scated organs, are also discovered by this means and in the diagnosis of tuberculosis of the lungs this agent has proven a most valuable aid. When applied to some of the less fatal chronic aliments of gernorigin it has proven very effective as a curative agent.

Another interesting proceeding is the violet-ray treatment produced by concentrating the violet or chemical rays from an arc light with a specially prepared carbon upon any portion of the body that may be the seat of pain. Sufferers from neuralgia, sciatica, rheumatism, strains sprains, also from those obscure exhausting pains (the origin of which cannot at times be accurately determined) frequently find immediate relief from a single treatment and usually with a little persistence in the use of this aid, comfortable health or perfect recovery is obtained.

The incandescent light bath, consisting of a cabinet in which the patient is bathed in the combined rays of many electric light globes, has produced really wonderful results in diabetes, sciatica, rheumatism, obesity, a memia, and some forms of kidney and heart trouble. It has also proven valuable in chronic bronchitis, bronchial astuma and various skin diseases. As a general hygienic measure its efficiency can scarcely be over-estimated.

Hundreds are brought to this Institution from far distant states and they go by general practitioners. One of the most wond

mated.

Hundreds are brought to this Institution from far distant states and they go
home in a few weeks well and strong.
Quite as marvelous are the thousands of
cures annually accomplished through corespondence, while the patient remains
quietly at home. Others consult in person, and after being examined are provided with especially prepared medicines
and return home to carry out the treatment.

Everyone who consults the specialists Everyone who consults the specialists, whether by letter or in person receives the most careful and considerate attention. Great care is exercised not to over encourage those who consult the specialists of this institution that no false hopes

may be raised.

Consultation by letter or in person is absolutely free—no charge whatever—so that the public when afflicted are invited to write Dr. Pierce at the Invalids' Hote' and Surgical Institute, Ruffalo. N. Y

SELF RESTRAINT. A number of countries have copied our constitution with a provision that the constitutional guarantees may be suspended in case of necessity. We are all familia1 with the result. The guarantees of liberty, justice and order have been forgotten. The government is a dictatorship, and the popular will is expressed only by revolution. Religion, the philosophy of morals, the teaching of history, the experience of every human life, point to the same conclusion-that in the practical conduct of life the most difficult and the most necessary virtue is self restraint. It is needed more by men acting in mass than by individuals, because men in the mass are more irresponsible and difficult of control than individuals. The makers of our constitution, wise and earnest students of history and of life. discerned the great truth that self restraint is the supreme necessity and the supreme virtue of democracy. The people of the United States have exercised that virtue by the establishment of rules of action in what we call the limitations of the constitution, and until this day they have rigidly observed these rules.
