a lot of narrow minded fools the American people must have been at the last election!
A passage in Proverbs says: "The wicked flee when no man pursueth." The scribe and Tom Kay, who is a member of the Third Baptist Church, Portland, spent five minutes walking together for three blocks through Oregon City talking about matters ecclesiastical—on Saturday. To the eagle eye of the Enterprise this was significant. An attack upon the broad-minded and compromising friends of that sheet was imminent. What business had Tom Kay in disturbing the peace of Almonds Sallence and her friend Jeannie of the Pain? They were seeking their Sunday pleasure—and stopping it over into the week, for good measure—according to their consciences. They are excellent types of the broadminded religious views advocated by the city editor, and Tom Kay had no business interfering with them. First thing he knows he will be as unpopular as the preachers.
The article under the heading: "Pastors Balk About Circus" does not seem to come from same pen as that which wrote the editorial. One of the legal lights which adorn the Oregon City Bar—I do not now refer to the bar with a foot rod around its base and a spigot behind it (he may admit that also for all that I know) this shining legal light was pleading for the defendant in a certain trial. Heartfully besought the jury not to hurt the feelings of his client by convicting him. "Remember," he said, "The Good Book says:
"The quality of mercy is not strained;
It droppeth as the gentle rain from heaven."
In many ways this article reminds me of the attorney whose Inspired Volume is the Merchant of Venice. The same mental clearness and logic are manifest. For instance he argues that a circus can only be stopped from performing by arresting the actors, one by one, as they begin their operations. This information is truly refreshing. For a thousand years mayors of cities and police officers have dispersed mobs in the forming before and the opportunity to actually break the law. But now we know, for the legal adviser of the Enterprise has told us so, that they had no right to arrest a free born citizen or to bid him move on until he actually began punching the daylight out of the nearest policeman. And they must wait for the act of lawlessness in each instance before arresting the man. Our sheriff and constable had no right in corraling the I. W. W. bunch who menaced the mills a few weeks ago. They should have waited until each set fire to a plant, or had smashed a machine, or killed somebody, before arresting him. In the light of this wise and scholarly decision the wit of the man who wrote the saw: "Never lock the stable until the horse is stolen," scintillates with the wisdom of Solomon.
In the days of old learned men dabbled in magic, and their wise words and boasts of power kept the humble herd agape. Today modern magicians have a new magic, and its name is "The Law." The laity must not handle it. It might go off and do them some damage. It never means what it says but always contains a hidden cryptic meaning known only to the man who has been admitted to the Bar. But the wizard of the past has lost his prestige; the ancient witch's filtrate is the modern child's plaything, and we sometimes wonder whether the rising tide of common sense will not, some day, pour its flood into the stagnant pools and putrid bays of legal science, and wash out into the forgotten depths where all past class shibboleths lie, the foolish and inane in our interpretation of laws, leaving only the clear and wholesome depths of justice and reason.

COMMENTS

Charged with criminal libel, M. J. Brown, editor of the Oregon City Courier, has been indicted by the Clackamas county grand jury, following the publication in his paper of the allegation that County Judge R. B. Beattie and County Commissioner Blair and Mattoon rebated their own taxes. Brown has been one of the leaders in the movement to recall the county judge and Commissioner Blair and through the columns of his paper has been conducting a campaign against these two officials.—Woodburn Tribune.
M. J. Brown, formerly of the Little Valley Hub, now the editor and owner of the Courier, published in Oregon City, Or., has made things mighty interesting for the political ring in that western city and evidently to "get even" he has been indicted for criminal libel for saying that a certain judge rebated his taxes. Brown had been after this jurist for some time, but he says the rebate charge was due to an error in correcting linotype slugs in a general tax report.—Press, Olean, N. Y.
Editor M. J. Brown, of the Oregon City Courier, has been indicted by a Clackamas grand jury for criminal libel. The pages of the Courier smoked before, but they fairly sizzle now.—Dalles Observer.
M. J. Brown, formerly editor of the Little Valley Hub, now owner and editor of the Oregon City (Or.) Courier, has been indicted by a grand jury on a criminal libel charge. Brown has been stirring things up to the grief of the ringsters of that city, and the indictment seems to be a reprisal play.

W. S. UREN
What the State Grange Bulletin Says of Him and His Work

The following is taken from the July number of the state Grange Bulletin, giving a brief sketch of the life of our townsman, W. S. Uren, and an outline of the work he has done and what he hopes to accomplish:
"He is one of the most persistent and continuous agitators in Oregon for increase of the people's power in their government. He first joined the grange in 1873 while living with his parents in Nebraska on a prairie homestead. For several years after 1876 he lived there as a charter member of Miwaukie Grange No. 298. No person in the state claims more credit for progressive legislation in the interests of the grange and organized labor of Oregon than Mr. Uren, and he should know, because he was one of the late E. W. Bingham's trusted lieutenants and counselors in obtaining the Australian ballot and registration laws, and he has been a part of the movement ever since.
From November 1892 until December, 1903, Mr. Uren led the fight for the initiative and referendum to the constitution and for its confirmation by the supreme court of Oregon. After that he organized the direct primary and People's Power leagues, always for the purpose of getting more power for the people in the states and local government of Oregon. He was and still is, chief draftsman of the measures submitted by the four leagues in which he has acted as secretary.
The following are among the measures submitted by the direct primary and Peoples' Power league and which have been adopted by the people since 1902:
The direct primary law with the statement No. 1 provision, in 1904.
The primary law of 1910. This was Senator Bourne's epoch making idea. No other one law ever passed in the United States was the immediate cause of so quick, so great, and so important increase of the people's power. It is not too much to say that the action of the people of Oregon in making Senator Bourne's bill a law, was the direct cause of the nomination of ex-President Roosevelt by the Progressive party, the defeat of Mr. Taft for re-election and the election of President Wilson. The vital features of this law were copied by so many states within 18 months after it was adopted by the people of Oregon, that they broke the power of the national machine, which had controlled both the Republican and Democratic parties. The preparation of the bill, after Senator Bourne furnished the idea, was largely the work of Mr. Uren and V. R. Hyde of Oregon City.
The statement of No. 1 law of 1908, with the original provision in the direct primary law of 1904, resulted in the direct election of senators in Oregon by the people, and finally in amendment of the national constitution for direct election of United States senators in all states.
Constitutional amendment providing for the local initiative and referendum for cities, towns and counties.
Granting home rule for cities in 1906, but not including the liquor traffic, which provision was added in 1910, on initiative petition by the friends of the liquor business.
Allowing the salary of the state printer to be regulated by the law at any time. Under this amendment more money has been saved to the state while State Printer Duniway has held office, than the entire cost to the taxpayers of all the initiative and referendum expense in all the elections since 1902.
An amendment making it impossible for the legislature to call a constitutional convention without the approval of the people. This amendment saved the initiative, referendum and recall from the bosses and special privilege interests in the assembly campaign fight in 1910, by allowing the people to reject the bill for a constitutional convention.
The recall amendment for the discharge by the people of public officers.
The proportional representation amendment, under which Portland was enabled to adopt a charter a few weeks ago including the preferential vote for the election of mayor and commissioners.
The three-fourths jury amendment in 1910, including the cutting of a great deal of red tape on appeals to the supreme court and abolishing costly and useless new trials after reversal of the lower court's judgment.
The chief purpose for which Mr. Uren is working and has worked all these years, is to help make such laws in Oregon that every man shall get every dollar of value he produces by his labor, and shall earn every dollar he gets. And also, that the people shall get one hundred cents' worth of value in public service for every dollar they pay in taxes.
As steps toward that end he is working now to submit to the people an amendment to the constitution to exempt from taxes \$1,500 of the total assessed value of every taxpayer's dwelling house, household furniture, livestock and other property used by the farmers and useful workers in earning their living.
Also for an amendment organizing the state and county government on business lines to get business results on the dollars and cents side, prompt and equal enforcement of the law, and to make the whole government quickly responsive to public opinion. This law includes the short ballot and the preferential vote for the election of state officers by the first, second and other choices plan, abolition of the state senate, proportional representation of all voters in electing members of the legislature, and making the recall more simple and workable.

WHO WILL ANSWER?
W. W. Myers Puts up Some Questions to Republicans

If wool is higher in London than in Boston (they being the two big wool markets of the world) would you ship wool to London or to Boston—if you lived in New Zealand or Australia?
If free wool would lower the price in Boston, then would the wool go to Boston or London?
These are for my Republican friends to answer. And here is one for you Democrats:
How much cheaper are you going to see woolen clothes to the kiddies? If free wool will make cheaper woolens, why don't free hiles cheaper shoes and leather, and why don't we have cheaper coffee? Answer, please.
The tariff question is certainly a wool puller.
And next: who created the riots at Marshfield, Bandon, Seattle and Portland, the Manufacturers' Association or the I. W. W.'s. Read Mundhall's evidence before the senate investigating committee and it should pull the wool and scales from your eyes.

STOP THE SUNDAY CIRCUS
Twilight Writer Defends Sabbath and Scores Morning Enterprise

The editorial page of last Sunday's Enterprise held up to the public the efforts of three of our ministers to shut off the Wild West circus in our city on Sunday, and one would infer from reading it that the editor felt more interest in the free admission tickets to the circus than he did for the moral uplift of the city. From what he says the church had better close their doors and let the wild and woolly west tactics predominate. While everybody, who are members of our churches are not perfect by any means, yet if no respect for the Sabbath is upheld what would be the result in a few years? God gave us six days work and the 7th for rest but usually the seventh day is the most strenuous of them all.
In regard to the Puritanic days not being so laborious as the present time we wish to differ. Our forefathers were hardy sons of toil with none of the advantages of the present day methods, but a love of God and home and religion was paramount to all else, and the Sabbath day was kept holy. But as the Enterprise states we are a people of different ideals.
The ideals of today are aired in the divorce courts and broken homes and in many other ways to the detriment of what is for the good of the future generation and we trust that every good citizen, even if not a church-goer, will look with disfavor on the Sunday circus.
There never has been a circus in Oregon City on a week day but what was patronized and while we do not condemn the circus, we feel there are six days in a week the small boy and the Enterprises editor can go to the circus and enjoy it. It is a great deal better than stealing God's day of

Mrs. Henry Sutes left last Thursday for eastern Oregon where she expects to be gone about a month visiting her sister.
Lloyd Hanson, who belongs to battleship California, has been home visiting with his mother, who has been sick for some time, but we are glad to hear that she is improving. Lloyd returned to the ship last Friday night where it is in the Seattle harbor.
The Oak Grove beach was simply crowded with folks from all parts.
Mr. and Mrs. E. D. Olds were surprised by a party of relatives and young people Sunday, when the niece of Mr. Olds appeared. His niece is Miss Pansy Corcos of Los Angeles, California, and she expects to be in Oregon a month or so and during this time she will visit all of her relatives. Those present at the party were: Mr. and Mrs. E. D. Olds, Mr. and Mrs. J. M. Olds, of Mt. Pleasant, J. A. Olds, Clarence Olds, Mrs. Emma Conway, Delbert Conway, Rollin Conway, of Gladstone, Mrs. A. D. Moody, Bertha Moody, Eunice Moody, Grace and Lois Moody, Harold and Walter Moody, of Portland, Mrs. Geo. Campbell and Master Robert Campbell of Vancouver Wash., Mr. M. Gay of Portland, Ore. Miss Bertha and Ella Kellogg of Los Angeles, Calif., Pansy Corcos of Los Angeles, Calif., and Dellon and Orval Olds, Mr. and Mrs. Philos Rose and daughter Vie Rose of Mt. Pleasant. A fine time was enjoyed and after the luncheon all went to the Oak Grove beach and bathing was plentifully indulged in.
Mrs. Marguerite Worthington and Alma Goetz leave for Ligno Beach Tuesday and expect to spend a few days' outing at that place.
The German Methodists are holding their annual camp meeting at Oak Grove camp ground and a large attendance is observed. This organization is building a new church at Courtyan and river road.

HIS QUEER SENSE OF HUMOR.
It Found Relief in Practical Jokes Upon the Clergy.

Some thirty odd years ago a young man came to New York from England (I have forgotten his name), and for a year or so he posed as a very ardent churchman. He had a mania which seemed to be the making of trouble for other people, with no particular object except that and certainly with no advantage to himself, as he very naturally remained "incog."
As illustrative, he would send out a hundred or more postal cards addressed to as many different plumbers in New York, asking them to call on a certain day, at a given hour, at the residence of the Rev. Dr. Morgan Dix, rector of Trinity church. Another time it would be an army of bakers, and so on. On one occasion he sent invitations to a dozen of the clergy to dine with Dr. Dix on a given date. Imagine the good doctor's consternation when his unexpected guests arrived!
One of his bits of "funny" work, in which he used the name of the late Bishop Jagger, was as follows: Dr. Cornelius B. Swope was the vicar of Trinity chapel, in Twenty-fifth street, at the time, and Dr. Dix had become so exasperated as hardly to know what to do, and one day he went to consult Dr. Swope and ask his advice as to what could be done, taking with him one of the cards that he had received. On looking at it Dr. Swope said:
"I recognize that handwriting because I received a card some time ago in the same hand, which I have kept as a curiosity."
This was the card:
Cincinnati, Ohio.
Dear Cornelius—It is rumored out here that you would like to be a bishop. If this is true please let me know at once. I have great influence with Morg. Dix and will see old Potter about it, so—
If you would like to be a bishop
And with the bishops stand,
A miter on your forehead
And a crozier in your hand,
Please write me immediately. Faithfully yours,
THOMAS JAGGAR,
Bishop of Southern Ohio.
New York became rather too "hot" for our friend shortly after that, as the police got on his track, and he disappeared. He turned up later at his old tricks in Pittsburgh, I think, where he was exposed, and I don't remember what became of him.—Rev. Dr. W. W. Holley in Living Church.
Books From Unexpected Places.
Not only art, but literature, has been produced in unexpected places. There was, for instance, Robert Bloomfield, who produced his "Farmer's Boy" while working so hard as a shoemaker (in a garret with five or six others) that he frequently had to carry a hundred lines in his head through lack of leisure to write them down. James Hogg, too, "the Ettrick Shepherd," wrote his earliest verses while tending his sheep in the Perthshire highlands. And Taylor, "the Water Poet," combined the very different offices of literary man and Thames waterman.—London Chronicle.
The Third Hand.
How often the little things in life make impressions that linger in our memories longer after the larger events are forgotten! Several years ago I was making a visit in a family where there were several daughters. One of the girls brought a hat into the sewing room one morning and prepared to trim it. Before doing anything else she took a hatpin and pinned the hat firmly to her skirts at the knees, so that she had both hands free and held the ribbon and flowers in place with her left hand while she sewed them with her right.—Philadelphia North American.
It's Easy to Learn.
Alexander Graham Bell, the inventor of the telephone, hit on his marvelous discovery while studying and while teaching the deaf.
Professor Bell once said, apropos of this fact:
"Yes, we can learn valuable secrets from the most unlikely sources. A Persian poet, famed for his wisdom, was once asked by his king where he had learned his philosophy.
"From the blind, sire," the poet replied, "from the blind, who never advance a step until they have tried the ground."—New York Tribune.
Diamonds and Glass.
The diamond, instead of being a real solid, is a mass of atoms all in rapid and violent motion. The edge of the stone is formed of these moving molecules as well as the body. Now, glass is also made up of moving atoms, though they do not move so rapidly or so violently as the diamond atoms. When the diamond edge, therefore, is applied to the glass surface the diamond atoms drive the glass atoms out of the way and force a passage.

Another reform is needed along with the circus and that is a reform in the dress. A Catholic priest in an eastern state forbids any woman to enter his church dressed in what is left of a respectable attire—in other words a dress made out of a yard of nothing. I admire narrow skirts with the bounds of modesty but we see a number every day on our streets that are anything but modest. One is often seen that is worn by a woman past the younger set, a mother we think, but without daughters we think. We are glad, if she is proud of her appearance it surely is not in a pretty face but a pretty figure. Let us serve a recall on the modern dress as soon as possible and go back to the days of our Puritan mothers and dress a little more like they dressed.
Serve a recall on Sunday dancing and theatres. Go back to a social neighborly gathering at our homes and with mirth and good cheer spend a day in innocent game and pleasant entertainment as our grand parents used to do. There were no divorce courts and broken home ties.
