#### THE MOST CRUEL SIN

Text, "Honor thy father and thy mother."—Ex. xx, 12.  
Parents take the place of God. They are "kings by divine right." They have a natural authority which is a reflection of that from heaven. "The lady's side" are its mother's eyes" in more ways than one. Parents are wiser than children. Eyes ignorant parents have a wisdom gained from experience which is more valuable than the knowledge of the schools. It is the wisdom given from above. The Almighty stamps the approval of ambassadorship upon a father and mother's position by declaring this commandment: "Honor, respect, obey." Many a man in these days honors his Heavenly Father outwardly who treats his earthly father like a servant. The superintendent of a state reformatory told me that hundreds of boys say their descent to hell began with disrespect of fathers and mothers. The murderer awaiting execution drew on his white cell wall a gallows with five steps—first, profanity; second, Sabbath breaking; third, disrespect for parents; fourth, murder; the fifth was the platform of death. This broken commandment—dishonor to father and mother—was halfway up.

...and the reverence paid to youth in our modern twentieth century civilization diminish rather than increase our respect for parents. We say that the civilization of the Chinese is inferior, and we send missionaries to them, but the respect and veneration paid to parents by the Chinese put to shame our neglect and ingratitude. I remember with what surprise I saw the son of a venerable Confucian, himself a man of forty, wait behind his father's chair during a long interview. It was a vestige of the stately manners of the east, strangely contrasting with our civilized rudeness. The "uncivilized heathen Chinese" have a custom that would do credit to a Christian people. On every New Year's morning every man and boy from the emperor to the lowest peasant pays a visit to his mother. He carries a present varying in value according to his station and means, thanks her for all that she has done for him and asks the continuance of her favor for another year. These innocent and child-like people are taught that the mother who bore them should be respected as long as she lives and her memory venerated after her death. In my lecture travels I find that the highest type of our American people are those that show a fine deference and honor to fathers and mothers. The growth of the Mother's day observance is one of the hopeful signs of the times.

#### The Most Cruel Sin.

At a certain stage in life many of our shallow young people fall into the unkind habit of criticizing their parents. If a father has large property and is wise enough to keep it in his own name he can be assured of outward respect. But the unrealized and unattainable fairness of the imputation were not more terrible to these and

#### VARICOSE VEINS.

Their Causes and Effects and the Treatment They Require.

A varicose vein is an enlarged and twisted vein, generally in the leg. It is caused by stagnation of the blood. Often the patient has a hereditary predisposition to varicose veins or he has a weak heart, with a consequent tendency to sluggish venous circulation. Anything that interferes with the flow of blood through the veins may bring on an attack. Pressure from a tight garter and very severe muscular exertion are often exciting causes. Persons who are obliged to stand for several hours at a time, like policemen, washerwomen and saleswomen, are often subject to this trouble. Under ordinary conditions the blood in the legs must run up hill constantly in order to regain the heart. In the case of those who stand most of the day the blood has to work hard hour after hour in order to overcome the force of gravity, and as a result the veins gradually enlarge and harden.

In mild cases of varicose veins, especially in young and otherwise healthy people, the symptoms are very slight. There is a feeling of weight in the leg and a dull ache toward the end of the day. The ache is soon relieved by the patient's resting with the leg somewhat raised so that the blood can flow back more easily. Sometimes painful cramps complicate the trouble, and the cramp is likely to return again and again until life becomes a burden.

#### CHEAP LABOR PERIL.

Many large employers of labor would be delighted to have the federal government, through its treaty making power, hold down the bars and let in the alien. What would become of the American farmer if the great corporations of the country should enter the land market, buy all of the best lands of the country and then cultivate them with Mongolian, Chinese, Hindu, Japanese and other cheap alien labor? The rich and the powerful will have their fortunes vastly increased by having all barriers to cheap labor broken down. They know that the quickest and surest route is through the treaty making power, because they only deal first with one man, the president, and one body, two-thirds of the senate.—Representative Slason of Mississippi.

#### WHAT COUNTS.

It isn't the brains a man has in his head  
Or the skill that he has in his hand,  
It isn't the books he has studied or read  
Or his fortune in money or land  
That makes a man likable, lovable here.  
For many a miser is smart.  
It's not what a brother can do we hold dear,  
But just what he is in his heart.  
It isn't the wonderful heights he has scaled,  
It isn't the medals he wears,  
It isn't the fact that by many he's lauded  
With applause for the deeds that he dares  
That makes a man welcome wherever he goes.  
A leader, unarm'd and unfeared,  
For the thing men revere isn't glory that shows,  
But the glory that's hid in the heart.  
—Edgar A. Guest.

#### Eating and Talking.

We all eat too much, and it is little wonder—there is so much to eat. And we all talk too much, because there is so much to talk about.—New Orleans Picayune.  
He is educated who is master of himself and of his task.—Peabody.
