A Watch

is intended to tell you the time of day. Unless it does this accurately it is worse than useless, for it is like the man you cannot depend upon.

Many a man has twenty-five or thirty dollars tied up in a watch which is worthless when if he would invest a dollar or two for having it repaired he would get the full value out of

Often a watch which does not keep proper time needs regulating for which we make no charge. If it needs repairing our charges are more than reasonable. Our work is guaranteed.

a life full of scoffing, ridiculing and laughing at preachers and their kind of people, but when their last moments on this earth came and they could see the shadows drawing closer they begged and pleaded to be for-given and saved. What made them do it? Why didn't they die as they had lived? Really, Dr. Schultze, your are more to be pittied than censured, but if you want to see the old blue laws in force again keep up your lick. Nothing will more disgust the public to listen to such reasoning as yours.

The Enterprise is surely up against it for material or anything readable when it opens its columns to such for the Rowdy Show, in spite of signed protests from the mothers, and devoting much space to articles on what kind of bad men the governor's of-fices are, can't be expected to tell the truth, and is not fit to read. I don't want it inside my house any more. I am trying to make law abiding citizens of my children and I would reather that they would read five cent novels than the Enterprise. Chas. F. Terrill
