

TWILIGHT

From the Associated Press we learn that Washington authorities are very much disturbed...

Recently while warming a radiator in a prominent church in one of our most important Oregon cities...

Mr. Boss, the dairyman, is occupying his new home but lately completed, on a portion of the Wm. McCord farm recently acquired by him.

The Oregon City Commercial Club has overlooked the fact that farmers are contributing toward the maintenance of streets...

The Sunday School gives an entertainment Christmas Eve with a Christmas tree for the children.

Mr. George Kline of Portland, spent the major portion of the present week on his ranch in this vicinity.

Our enterprising professor with the aid of the children, cleaned up the school grounds Friday, adding much to its appearance.

With but little effort, and less expense, country homes could be made more desirable and home-like...

Mrs. A. H. Harvey spent Sunday and Monday in Portland.

The Liberal Development League started Monday hauling lumber for the side walk from Vick's store up to the depot, which is badly needed.

Very few fat hogs are left in this section for sale.

LIBERAL

The farmers are making good use of this beautiful weather. Think of all the weather they're having around us, and we having weather like the springtime.

The basket social at Liberal school house is postponed from the 29th to the 22nd of December on account of other amusements conflicting with it.

The grass is good and the stock is in fine shape for the winter.

T. S. Stipp was elected lineman on line 10 of the Molalla Mutual Telephone Association last Saturday.

HOW TO TAKE GOOD CARE OF YOUR HAIR

Nothing spoils your good looks so much as homely hair—stringy, dull-colored, harsh. Nothing adds to good looks so much as beautiful hair—soft, silky, wavy and glossy.

Very easy to apply—simply sprinkle a little on your hair each time before brushing it.

To keep your hair and scalp dandruff-free and clean, use Harmony Shampoo.

Both preparations come in odd-shaped, very ornamental bottles, with sprinker tops.

WATER SAMPLE ANALYSIS

Health Officer van Brakle Explains How to Send Samples to Health Office

To avoid delay and inaccurate results, all persons wishing to have the State Board of Health examine samples of water from wells or other sources, should follow out these instructions of the Board.

"Upon application, bacteriological analysis of water will be made for any resident of the State. Sterilized containers will be sent with instructions for obtaining the samples.

"The directions must be carefully observed if a true condition of the water is desired. It is a waste of time and material to make an analysis of a sample of water carelessly taken.

"In case water is to be sent in other containers, the following directions should be observed:

"In securing water for analysis, a new bottle and a new cork must be used. To sterilize, place the bottle and cork in a tea-kettle or other receptacle and boil for one hour.

When ice is procurable, take a small box, place a good layer of sawdust in the bottom, then a thick piece of ice, cover this with a thin layer of sawdust and lay the sample or samples of water on top, then fill the remainder of the box with sawdust.

When samples of water should reach the laboratory before Saturday, as otherwise it involves Sunday work.

When prepared in this way, the samples may be sent directly to the State Board of Health, Portland, Oregon and the results will be sent back as soon as possible.

J. A. van Brakle County Health Officer.

Guarding Against Croup

The best safeguard against croup is a bottle of Foley's Honey and Tar Compound in the house. P. H. Ginn, Middleton, Ga., writes: "My children are very susceptible to croup, easily catch cold. I give them Foley's Honey and Tar Compound and in every instance they get prompt relief and are soon cured. We keep it at home and prevent croup.—Huntley Bros. Co.
