

REAL MUSIC AT LAST

Why put off buying any longer when you can get the world's finest music, reproduced EXACTLY AS IT IS on an Edison AMBEROLA?

If you are one who doesn't know the wonders of the new Edison Amberola, we merely ask you to call and let us show you what you are missing.

We have been in business a long time, Mr. Reader. No one knows the Talking Machine business any better than we do. We have watched the Edison machine develop from year to year, until to day we unhesitatingly claim it to be the best sound reproducing instrument made. (Either Disc or Cylinder.)

Below are a few of our reasons for claiming the Edison as the best.

1—ALL EDISON PHONOGRAPHS are made with the horn concealed within a beautiful cabinet.

2—THE REPRODUCING POINT is a genuine diamond that is never changed like a needle. It does not wear out nor does it wear the record.

3—ALL NEW EDISON RECORDS are practically indestructible, they do not become injured by handling or dropping.

4—ALL RECORDS PLAY from 4 to 7 minutes, the Blue Amberol 4 minutes, the Disc about 7 minutes.

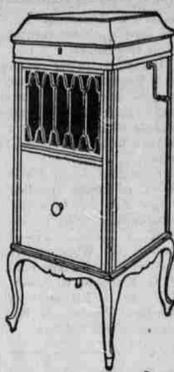

5—THE EDISON is the only machine on which you can make records at home. This is a valuable feature as it enables you to make some novel records of the songs and instrumental pieces of your friends, as well as members of your family.

6—EVERY RECORD is a gem, carefully selected, properly recorded, skillfully handled in the manufacture.

7—MR. EDISON has now standardized his phonograph. It is now perfect in both disc and cylinder form. HIS O. K. HAS BEEN AFFIXED TO EVERY DETAIL. Perfect sound reproduction is the general verdict.

8—MR. EDISON SAYS he wants to see an Edison Phonograph in every home. He has put the prices of his machines within the reach of all. \$30.00, \$45.00, \$60.00, \$80.00, \$100.00, and up to \$450.00. Records 50c to \$2.50.

JEWELRY STORE RELIABLE

Burmeister & Andresen Establish Reputation for Standard Goods that is Base of Firm's Progress

Purchasers of jewelry or sterling wear always demand that the firm with which they deal shall be trustworthy, and it is the realization of the fact that the Burmeister & Andresen guarantee is to be relied upon that has brought this prominent Oregon City store ever-increasing trade it enjoys. Located at the corner of Main & Seventh street, the windows with fine silverware, beautiful jewels of this store are always gleaming and tasty golden decorations which make the strongest appeal to the buyer's heart.

Aside from jewelry, silverware and cut glass, the firm carries an attractive line of hand-painted china, and is also the Oregon City agency for Kodak and Brownie cameras and photographic supplies. Developing and enlargement work for amateurs is promptly and carefully handled, and Burmeister & Andresen rule of "nothing but the best service" applies in the department as well as in all other branches of the store.

Every article sold by the prominent jewelry firm carries with it the guarantee of the maker, for only standard grades of goods are carried; and aside from this the firm itself adds its own guarantee that there shall be satisfaction. Expert watch-makers handle the watch repairing, and a skilled engraver is always available for the cutting of initials and inscriptions on purchases made in the store.

Library Notice

The public library in Oregon City is still free to all residents of the county, although without county support. Reference questions will be answered by mail or by telephone, Home M. 69. The library has on hand a supply of good magazines from which 22, 1914.

It will be glad to give numbers to people in the country, or to people who are ill. These need not be returned.

Women and Wet Feet

Cold and wet feet are a dangerous combination especially to women, and congested kidneys often result. Bacteria, urinary irregularities and rheumatic fevers are not unusual results. Foley Kidney Pills restore the regular and normal action of kidneys and bladder and remove the cause of the trouble. Contain no habit forming drugs.—Huntley Bros. Co.

Sneffels, Col. A. J. Walsh was badly done up with rheumatism and sent for Foley Kidney Pills which was the only thing that would cure him. Geo. Potter of Pontiac Mo., was down on his back with kidney and bladder trouble and Foley Kidney Pills made him well and able to work. It is a splendid medicine and always helps. Just try it.—Huntley Bros. Co.

CONTRACTING COMPANY BUILDS UP FINE RECORD

Oregon Engineering & Construction Company Favorably known in Many Northwestern Cities

Efficiency in the construction of anything from an irrigating ditch to a railroad is the mark that has been established by the Oregon Engineering & Construction Company, with headquarters for the past three years in the Masonic Block, Oregon City. The firm is equipped to do all kinds of contracting work, and has made an enviable record in Vancouver, Wa., and North Yamhill, as well as in Oregon City, where it has laid many miles of improved streets. While specializing mainly in street work, sewer construction and railroad building, the firm is equipped to handle all kinds of building operations as well. J. W. Moffatt, one of the partners, is a general contractor of long experience; while C. T. Parker, the other member of the firm, is a civil engineer of advanced technical training.

In addition to its contracting equipment the Oregon Engineering & Construction Company maintains an extensive rock quarry just south of Oregon City, and is in a position to furnish in any amount sand, gravel, crushed rock and cement. At this quarry a ledge of rock some 600 feet long was recently blown out, and will provide tons of material for the demands that may be made on the company within the next several months. Rock from this quarry has been used almost exclusively in the surfacing of Oregon City streets, and has given general satisfaction.

Mr. and Mrs. Lawrence Ruonich and daughter, of Vancouver, Wash., are in this city visiting the former's parents, Mr. and Mrs. Lawrence Ruonich, of Sixth and John Adams Sts., and Mrs. Ruonich's mother, Mrs. Wells.

"CAN'T RAISE CORN"

It used to be the saying, but it Don't go Now

"You can't raise corn in Oregon. Nights are too cool."

This is an old saying, and it is generally believed. It used to be true, for farmers would take seed raised on the hot prairie and try to make it grow here.

Then they wised up. They tried Burbank's scheme. They raised their own seed and gradually produced an acclimated seed, a seed that raises corn in Oregon, and that the Northwest has become the rival of the "corn states" has been demonstrated by the first corn show held recently at Pendleton. The people of Umatilla county had their first view of real Oregon field corn. There was corn of every description, corn on the cob, in rows and piles; corn on stalks some of them measuring 12 feet high. There was corn in bulk, yellow corn, white corn, red corn and several shades between. Prizes given by the O. W. R. & N. Co., and others amounted to \$1000. Entries from 200 individual exhibitors were represented. The exhibit was judged by Professor Scudder, Hyslop and French of the Oregon Agricultural College, after which the entire exhibit was shipped to Portland and displayed for a whole week. In Portland, thousands were astonished to see the corn exhibited in the shock, on the ears, in the sack, in the silo and ground into meal—this being the product of the state of Oregon, where all was spread out in convivial profusion. And now, Oregon comes into the ranks of corn growing states.

CUT FLOWERS and Potted Plants; also all kinds of Fruit Trees, Roses and Shrubbery for sale at the new green houses on Center and Third Sts. Funeral work done at lowest possible prices. Orders received over phone—Main 2511. H. J. BIGGER.
