An official statement published recently, showed that only 28 road dis-tricts in Clackamas county made any special levy for roads this year and that the entire special levy would bring in only about \$74,000. Now the fact is that about one-seventh of that comes from one district.

In some localities road construct-ion may be difficult and costly and assessed valuation of property so low that any reasonable levy would be inadequate to meet the necessary requirements, in such cases other por-tions of the county should render as-

Districts that have valuable prop-erty and refuse to make any special levy for the purpose of repairing or constructing their highways, are not entitled to a single dollar from any other of the county. Why should \$4,000 be taken from a single district and put into a district that reluctantly pays even the county levy? It is very considerate to let George do it. C. A. Lewis.

The town of Kidderminster is situated exactly on the line of Saskat-chewan and Alberta provinces in Canada. The main street of this town is exactly on the line and the Alberta ide has single tax, while the Saskathewan side has the foolish and utterly absurd tax proposition in vogue here, which penalizes a man for making improvements. Now what are the

The single tax side is growing by leaps and bounds and even the men who do business on the Saskatchewan side have built their homes on the Alberta side and in process of time and as fast as possible the double tax part of the town is being obliterated.

Vancouver, B. C., north of Seattle, is fast receiving additions to its population from Oregon and Washington and as a matter of fact over 40,000 people from these states have gone to Canada in the past year, and the greater part of the number have gone to Victoria, Vancouver and to other towns where the single tax system is in vogue.

Why do the big dailies in Portland fight this system? Simply because Big Business and the land sharks hold a lot of land out of use, and if it was taxed as it should be, these greedy land grabbers would be taxed out of existence. There is no use about being mealy-mouthed about these specula tors and their aides and abettors, for the plain truth should be uttered, and plainly written so that the great State of Oregon can rightly occupy the proud position as one of the greatin all the states of the Union

When Hazen S. Pingree was major of Detroit, Mich., he told the poor people of that city to go out at once and plant all the idle lots on and around Detroit in potatoes and other vegetables for their sustenance and support. A roar went up that you could have heard across the state from the greedy speculators, but "Potato" Pingree, as he was deris-ively called, held to his purpose and many a poor family without injuring anyone, replenished their larder. Now there are hundreds and thou-

sands of lots around Portland that are held out of use by the biggest collection of land hogs in the world and if any such attempt was made by Mayor Albee, which is not likely; a howl from the gray wolves of Big Business and land sharks could be heard to the top of Mt. Hood.
