SOCIAL MATTERS

Mrs. C. I. Stafford was pleasantly surprised last Tuesday evening, when a few of her friends gathered at her home on High Street to honor the anniversary of her birthday. The affair was nicely planned by those in charge, so that Mrs. Stafford, upon returning home with her husband about 8:30, was greeted with—"Many Happy Returns of the Day" from the guests who had gathered in the living room during her absence. Games and music were enjoyed during the evening and dainty refreshments were served.

Before leaving for their homes, the guests presented a beautiful cut glass olive dish to Mrs. Stafford as a token of their friendship.

Just Accident.

"I don't see what claim you have for this accident insurance," said the agent. "You were thrown out of a wagon. I admit, but on your own statement, you were not hurt."

"Well, wasn't it by the merest accident I escaped injury?" suggested the claimant.—Puck.

A Wider Field.

Oregon Is Well Represented At United States Land Show

CHICAGO, ILL.—Oregon stood out prominently at the United States Land Show during the three weeks it was held at the Coliseum, Nov. 20 to Dec. 8. Aside from the bountiful displays of the state's products in the Oregon booth and the mammoth exhibit of the Great Northern Railway on the main floor, the Great Northern Railway's exclusive lecture hall proved a telling medium of acquainting land show visitors with the state's wonderful resources, both agricultural and horticultural. This lecture hall, consisting of one-half of the Coliseum annex, had a seating capacity equal to that of a good sized theater. Motion pictures and stereopticon views were used to illustrate the lectures of the Great Northern Railway's experts, and besides C. C. Chapman of the Portland Commercial club other Oregon men were given the use of this lecture hall daily through the courtesy of Louis W. Hill.

Never before has there been such effective missionary work done among homesteaders for the state of Oregon. Scores of jars of fruits, large sections of transparent showing scenes in the fruit growing districts of Oregon and great varieties of fruits in their natural state were exhibited in the huge booth of the Great Northern Railway. The dry farming sections of Oregon were not overlooked either, many astonishing varieties of grasses and other land products being exhibited. They attracted much attention.

Colonel Bill Hanley visited the show and occupied the platform of the Great Northern Railway's lecture hall on Oregon day. Colonel Hanley always is a big drawing card in Chicago, and standing room was at a premium when he gave a characteristic talk on the great possibilities his home state holds out to the homesteeker. Louis W. Hill accompanied Mr. Hanley from St. Paul to Chicago to attend the land show.

Great in Little Things.

George Washington's surveying done 150 years ago with the comparatively simple instruments of the day has been checked up by government surveyors of today and found perfect. Experts in other lines might check up other works and qualities of his—his patriotism, his common sense, his foresight, his persistence—and find pretty nearly the same degree of excellence. Washington was only nineteen years old when he ran his lines through the forests and over the hills of Lord Fairfax's estate in Virginia. But the youth was father to the man.—Baltimore Sun.
