EDITOR

Official Paper for the Farmers Society of Equity of Clackamas Co

M. J. BROWN,

The New York gunmen got the chair. Becker, the employer, got a new trial. Tis most ever thus. Benton was a British citizen, a res

ident of Texas and doing business in Mexico, and the Oregonian wants us "No interest to serve but the pub-

lic interest" is the slogan filed by Congressman Hawley. Mr. Hawley be a failure as a congressman but he is certainly some joker. Wouldn't be a bit surprised if thou-

sands of Oregonians, who have played false hopes to about the limit, might take a chance on U'Ren's plan of governing Oregon, for a change.

They say President Wilson will appoint Taft to the supreme court. He is recommended by New Hamp-shire and Utah, and repudiated by every other state in the Union.

Apathy marks the campaign for governor and state offices. There is no enthusiasm and little interest. The people of Oregon have voted for Republican and Democratic promises to

Jonathan Bourne gives it out flat-ly that he will not be a candidate for United States senator in the May primaries, and Mr. Booth fefels a whole lot easier. Now the Oregonian bunch will put Booth over and Cham-berlain will defeat him at the polls.

Governor West could sweep this congressional district pretty clean of Congressman Hawley, and the people regardless of party, should get back of him and get him in the race. Hawley is a big business, stand pat representative, and the Oregonian wants to put over a side partner for him in Booth for senator. It's time to come

T. T. Geer won thousands of votes in 1898 through his inimitable ridicule of the direct primary, the initi-ative and referendum and his cheersuch a discriminating law to stand, even if the people passed it, for it is in conflict with the country's constiful allusion to the "riffraff, ragtag and bob tail." From a strictly party stand-point we trust he will get the nomination he is seeking and will conduct his campaign along the lines that brought him such success six-teen years ago.—Salem Democrat.

Everywhere about us these days are to be seen signs of Spring. The humble house-owner goes home from work at night and toils in the garden, and in the morning before going downtown he gets out and mutilates his rose bushes. Spraying outfits are reaping their annual harvest, and farmers are considering what to plant in the back ten acres. And the little birds are singing "cheep, cheep"

everywhere in the landscape.

That is the surest sign of spring in Oregon, when the little birdies sing "cheep, cheep" all day; and when, on alternate years, candidates for office likewise sing a similar song. In fact "cheap, cheap" seems now to be the slogan among the mod-est hordes who are willing to have

the people thrust honor upon them.
Witness the insides of some of the
political campaigns, for instance. witness one of the gubernatorial candidates, who is sending out form letters to all registered voters, and asking them to write back to him at their own expense and pledge support. And his own stenographer and the stenographer of an attorney in an additions of the stenographer of an attorney in the stenographer of an attorney in an adjoining office are doing all this. What a fine campaign! Witness another candidate, also running for the ed an initiative movement to prohibgubernatorial gubernatorial nomination, whose it the legislature from repealing any sole move to date has been to bemoan act passed by the initiative. The

sole move to date has been to bemoan the present high taxes, and to lay upon them his inability to "spend any money in the fight."

Of a verity the birds are chanting "cheep, cheep" in the springtime, and so are the professional politicians. And then they wonder at the lack of popular enthusiasm. How can an American public get enthusiastic over an election if there is no red fire, no brass bands and even no free barbecues and speeches?

act passed by the initiative. The Courier believes this is a waste of energy. The legislature is not going to distranchise the voters of Oregon. If it should there would be no more legislature. The people have the right to rule Oregon and the legislature isn't going to dispute that right.

### THE LOSING GAME

If a man should walk out on the suspension bridge every week and toss a four bit piece of silver into the river, soon the people would say he was "queer," "wasn't right in the head."

It would be his money, honestly earned and the only harm it would do to give the silver to the salmon for a plaything, would be its loss in purchasing power to himself or fam-

## MAKE THEM VOTE

A bill has been introduced in the New York legislature for compulsory registration and voting-providing penalties for the voter who does not exercise his franchise.

The bill will no doubt get the

axe, for there will have to be con-siderable agitation and more public sentiment behind such a drastic bill before it will be made a law. But when you stop to think, it is

no more drastic than our jury or some other laws. Any man or woman who can vote

should be compelled to vote, and if a fine of \$10 or \$20 was the penalty for not voting a minority would not so often rule.

## THE OREGONIAN'S BURDEN

Last week the Courier printed an editorial paragraph that as the Oregonian was opposing the U'Ren plan of building good roads at the ex-pense of big estates, that the rank and file would favor it all the more.

Under the heading "Who Bears the Burden?" Wednesday's Oregonian picked up the paragraph, stated the plan was impractical, insane, silly and confiscatory.

It's all of these to men who are piling up big fortunes and who will try to direct their disposal even after they are dead, but to the man who works hard to support his family and pay the exhorbitant taxes of Ore gon, it is none of these.

It is NOT impractical, no more mpractical than levying an income or inheritance tax to pay government expenses—as are levied now,—and the Oregonian knows this.

It is not insane; it is not silly. The Oregonian is, or has been, one of the loudest good roads boosters in Oregon, but it wants the great cost and bond interest to be added to the present almost unbearable taxation of Oregon, rather than to be paid, or at least partly paid, by a graduated tax on the fortunes of persons who die and leave over \$50,000.

It is not confiscating any more than the income tax is confiscatory, and we would like to call the big editor's memory back to last summer when our Vice-President Marshall said in a public speech, in substance that it was by grace of PERMIS-SION that men were allowed to give away or direct the disposal of their accumulations after death. The laws of England do not permit a man to will his property as he pleases. The laws tell him where it shall go—in order to hold intact great esta-

The Oregonian says if taxation was heavy enough on fortunes of over \$50,000 there would be nothing

left by any decendant.

It would not work so, but if it should, it would have accomplished much for Oregon, for it would at least break the big fortunes and big land holdups into parcels of less than \$50,000.

The most menacing feature the U'Ren proposal, says the Orego-nian, is the heavy load it places on thrift and industry and the premium on vagrancy and idleness. amassing fortunes beyond needs

Who has fixed the price, and where is the great army?
These facts we know—they are staring us in the face every day; we MUST give men the means to earn a living or they will find a means. This coast has thousands of mer without work. They are living, for in their mighty expensive ways the

A man won't break rock if he can find any other job, and state employment on public roads will help the man who is up against the last wall—and it will help the roads.
