STATE EQUITY MEETING

(Continued from Page 1)

banking facilities, and in order to equalize funds there should exist a central bank in each state to serve as a clearing house, which could supply the deficit of one district from the surplus of another. Such a scheme would encourage local investment, and put an end to the present centralizing tendencies of our monetary and credits systems.

4. The imperative need of our farmers, especially in the northwest, is for mortgage credit at reasonable rates with the privilege of repayment on the amortization plan. Any scheme to effect this must provide authoritative, safe and efficient machinery for the floating of bonds on farm mortgages. We believe that the marketing of bonds, especially for the western states, would require a federation of state institutions with an office in New York or Washington, D. C.

5. The system for the provision of long time loans should be controlled by the farmers themselves—not by those who have lived by farming the farmer.

At the same time, every possible safeguard must be provided to ensure the stability of the rural credit system. Foremost among these safeguards must be placed the simplification of our land registry system

with state guarantee of land titles, and expeditious, inexpensive foreclosure proceedings.

7. While we favor an autonomous and self-supporting system for the provision of both short time and mortgage loans, we feel that such a system will need some governmental support in its initial stages and careful governmental supervision as a guarantee of its safety. We would suggest, therefore that if the postal savings and other government deposits do not provide enough capital at the out set, that the bill provide for the loan of sufficient funds from the federal and state governments to insure an efficient working system from the start. That is, that the federal government be instructed to loan each of the central state rural organizations such a sum of money that, taken along with an equal sum from the state government, would insure a system which would take care of the credit needs of farmers from the start. Such state and federal money would constitute a revolving fund, and could be repaired out of a sinking fund set aside from the annual profits. If this repayment were extended over a period of, say fifty to one hundred years, it would impose no appreciable burden upon the members. With the establishment of co-operative systems in conformity with the suggestions herein contained, there would seem to be no reason why loans on mortgage credit could not be obtained at rates of four and one half per cent, while

short time loans need not exceed five per cent per annum.

Specifications for the same may be found at the County Clerk's office in the court house at Oregon City.
Date of first publication April 23, 1914.

No Compliment—No Wonder
Waiting for a car a fellow dropped into the Courier office Monday afternoon and asked what occasion was being observed. We couldn't think of anything out of the ordinary and so advised him.
"Do you have this crowd on the streets every day," he asked, and when informed he should wait until after supper if he wanted to see a bunch up, he remarked "This must be some town."

This would have been some compliment to the city, if the gentleman had only not spoiled it, but just as the car pulled in he left his card on the counter.
He was from Vancouver.

Has Known Casto for Years
Lents, Ore, 4-20-14.

Editor Courier:—
I was born and raised in Clackamas county and hence have much interest in things and people there and in order to keep up with the times I am a reader of the Courier. In your last issue I saw the article "A Tribute to Casto" written by one of his neighbors and I wish to seconds same. Mr. Casto and I were boys together, went to school together and graduated at the same college at the same time also. We were employed in the same office for many years, and I want to say that Mr. Casto is an excellent man, modest and quiet, conscientious, and while not so rapid as some accountants, is extremely accurate. He is indeed a man with no bad habits, always at his post of duty. Honest and efficient and fully capable.
The people of Clackamas county will make no mistake by hiring Casto for County Clerk.
A Fellow Employee.

Why it Suits Particular People
"Foley's Honey and Tar Compound" is prompt and effective for coughs, colds, croup, hoarseness, bronchial coughs and throat troubles. Thomas Verran, Hancock, Mich., writes "Foley's Honey and Tar quickly relieves tickling throat and stops the cough with no bad after effect." It contains no opiates and is pure. That's why it suits particular people.—For sale by all druggists.

Insure with Northwestern
Fire Insurance Costs money. Uninsured fires cost more. We handle the Northwestern fire and Marine. None better. None safer. Don't take chances. Take the best.

Mrs. Ewalt and son, Charles, of Springwater, were in Oregon City Saturday. The latter, who is a student of the Estacada High School, and who is interested in athletics, attended the track meet in Portland on Saturday afternoon.

OGLESBY'S PLAIN TALK

Gives Voters a Few Pointers to Remember at Primaries
Macksburg, April 20, 1914.
To the taxpayers of Clackamas County:—

In presenting to you my platform I state how I would stand on the taxation question; that I would not stand for over a 16 mill levy for all purposes. My opponents say that they stand for low taxes, but they want good roads but do not say how they will get them. Now, taxpayers, can you expect good roads as long as one-half of all the road district is taken and put in a "jackpot fund" as Mr. Hunt of Garfield calls it.

What I shall demand and will see that each road district gets is at least 75 per cent of its road money, so that the supervisor can have money enough to make good roads. Under the present system some districts get money that you pay to build roads that you never see or use. This is all wrong.

Road district No. 23 should get over four thousand dollars, and with this amount the supervisor could build seven miles of good gravel roads, but with about \$2,000 he cannot build but very little gravel road as the roads of the district must be kept up in repair.

Now, taxpayers, the Pacific Highway people are about to hand you a good-sized lemon.

Mr. Adam H. Knight, the present postmaster of Canby is out for commissioner and he says that he is opposed to bonds.

If you will look at the petition sent to the county court asking for a bond issue you will find the name of Adam Knight there.

Now, taxpayers of Clackamas Co. do you think a man would sign such a petition if he was opposed to bonds?

One of the Beatie and Blair lieutenants circulated his petition and it is stated that he made the statement that they proposed to see that every recall man that was out for office would be defeated at the primaries.

Personally I have high regard for Mr. Knight, but the old gang seems to have picked Mr. Knight to defeat if possible any recall candidate. I have outlined my position and it is up to you to decide at the primaries. If you think that either one of my opponents can do better for you than I can, give them your support and I shall be satisfied. I am

a plain farmer, a land owner and do not belong to any booster club and am not drawing a salary from the government, but am at present the road supervisor of road district No. 23, and I am trying to do my duty to get as much done on our roads as I have been supervisor several years but not continuously. I was appointed by Judge White and Mr. Lewellen, when the present court house was being built.

I was born in Clackamas County in the year 1856 and have helped to grub out miles of roads that today are good roads, and I want to say that those office holders and boosters that I have done my share of hard work. Ak Mr. John Lewellen, G. B. Dimick, W. H. Mattoon, H. L. Bents if I have not made good. In them after of road work I always got a dollar's worth of road work for every dollar I paid out.
Geo. E. Oglesby.

CASTO'S OPEN LETTER

Who he is, What he is, and What he Advocates
To the Republican Voters of Clackamas County:—

As all of you are aware, I am a candidate for the Republican nomination for the office of County Clerk of this county and in connection with

this fact I want to say a few words regarding myself and the affairs of said office.

I am desirous of becoming clerk of this county because I am, and have been, intensely interested for many years, in the affairs of the county, and I feel that with my educational, clerical and business ability, that I can give the people of the county an efficient, economical and a sound business administration.

Clackamas county has been my home almost continuously for the past 38 years and I have never before been a candidate for a public office.

I own a farm, and am, and have been for the past 15 years, a taxpayer of said county.

I received my education in the public schools of this county and the graded and high school of Portland. I am a graduate of the Oregon Agricultural College of Corvallis, Oregon. I began clerical work in a small way when 14 years of age and after finishing college employed for many years in the various departments of the Railroad Accounting offices of Portland, at the same time retaining my residence in this county.

At the present time I am engaged in farming on my farm which is located 8 miles southeast of Oregon City.

There is one thing in connection with the office of which I wish to speak in detail and that is in the matter of the equalization of assessments. By virtue of his position the County Clerk is a member of the County Board of Equalization and a honest believe, and I find many voters throughout the county who believe this board ought to be freeholders and taxpayers of the county.

There seems to be a general feeling, especially among the farmers and small home owners that farm lands and small homes are being assessed far out of proportion to other forms of taxable property. If nominated and elected I promise that I will use every possible means within my power to bring about a fair equalization assessment of all taxable property.

I will endeavor to conduct the business of the office in such a way that I myself, and my clerical force will render a dollar's worth of service for every dollar received.

I will insist on kind and courteous, but strictly business treatment of all patrons of the county.

With these few statements I leave it with you and if you feel that I am capable and competent, which I sincerely hope you will, I will greatly appreciate your support.
S. L. Casto.
