A "FUNNY" PROTEST

Mrs. Zumwalt asks that the Supplements be elevated or Abolished

To the President and Members of the Oregon City Women's Club:-

At a time when so much is being said and done in the interest of humanity—when people are fully realizing that the childhood of today must be protected in order to build a proper structure for the manhood of tomorrow—the time seems fitting to call the attention of the public to the evil influence produced upon the minds of children by the "comic section" of the leading newspapers of the land.

The thinking public was rightly alarmed at the flood of indiscriminate pictures shown in the "Moving Picture Halls" a few years ago; a discussion of the problem followed and a gratifying result that censorship was established, which caused many films to be rejected, which if shown would certainly lower the moral standard of youth.

Time and time again I have felt these "Comic Papers" were a great menace to the childhood of the nation as were the moving pictures.

Because the paper is brought into the home, laughed at by the elders, tolerated by them and left for the young mind to ponder over at leisure, grasp every trick and then strive to imitate the deceptions by practicing them upon their play fellows.

Let every one of you, as I have done, take the time to watch the effect.

Study the pictures thoroughly. Look at them from a child's point of view, then ask yourselves what POSSIBLE good they can do, and realize the great harm they ARE doing.

The "Comic Papers."

To older people whose creed in life is well established they mean nothing—their influence cannot be felt, they can only provoke smiles, laughter or disgust. But if they will look deeper and see the evil influence upon the child mind; watch the tendency toward cruelty, peer into the future a few years and see this same generation filling jails and penitentiaries, then will be fully realized the evil consequences of the "Funny Paper" as it now stands unless both reformed and transformed.

If the authors if these ridiculous productions could realize the eagerness with which the smallest tot awaits the "Funnies" and the real good they could do while they healthfully amuse, they would surely write more pages of elevating pictures.

I do not say they are ALL bad; by no means. There are many good morals taught through that medium today, but unfortunately the good is over balanced by the bad.

Will not our Women's Club be the first to enter a vigorous protest and be the means of having a censorship established for all comic papers?

I earnestly hope you will fully discuss this weighty problem and give it most serious consideration; after this, I have no fears as to the result, a favorable result will be the outcome and my letter will not have been written in vain.

Ms. Bruce Zumwalt.

WHERE HARRIS STANDS

Candidate for Commissioner Writes An Open Letter to County Voters

Editor Courier:-

If you will permit me space for a few remarks in connection with my candidacy for the nomination to the office of County Commissioner on the Republican Ticket.

As numerous persons from rural parts of the county have asked who this Will F. Harris is, first I will say that I am a farmer and rather a heavy taxpayer for a farmer, and deeply interested in the welfare of this county. I have resided on this homestead since 1886; have been fairly successful in my line of business, by following a careful, conservative method of doing business, both on the farm and in the saw mill business. I am and have been

will stay out. I am convinced that the business of this county can be conducted with less expenditure by following strictly business methods, free from politics. Space will not permit me to go in detail at this time, but I will say that I believe that all supplies bought by the county from pen and ink to the steam roller should be by competition and entirely free from political debt and gain, and that all officers of the county from the Hon. Judge to the road supervisors should unite to carry the business affairs of the county in a careful, conservative manner. And if all connected with the county affairs in a business way would act along these lines and pull together the results would be beneficial to the taxpayer by lower taxation, which must come or there will be little progress for Clackamas county. Farmers cannot long stand the present taxation and go ahead.

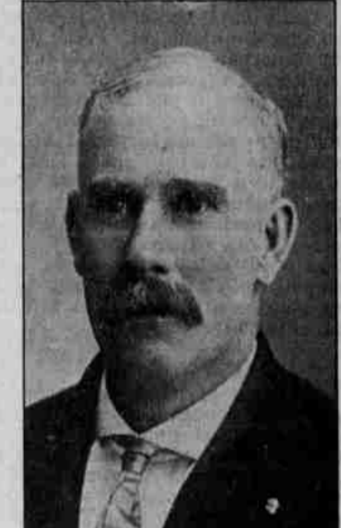

How often do our officials at the court house recall how saving and economical the farmer has lived and labored 12 or 15 hours per day for 12 long months in mud and water and muddy roads to save enough money to trot to the treasurer's office to pay his or her rent. It is hard earned money by the taxpayer, and it must be lowered or there will be less population in this county ten years hence. Bear this in mind.

We farmers must have something on our investment, and right here I will say that farmers watch who you send to Salem to the Legislature.

In conclusion here are my promises—equal and just consideration to all persons and all parts of county. I will insist that all persons employed by the county earn their pay. I will conduct, as far as the authority of commissioner goes, the business of the county in a careful, conservative and progressive manner, without fear or favor. So do as you see fit. You are the judge and I am in your hands now, and will be at your service if elected.

W. F. Harris.
